Class(es) : Goods and Services:

6~7~9~11~17~37~42 6 - Valves of metal, other than parts of machines; valve slides and valve flaps; common metals and their alloys; ironmongery and small items of metal hardware; manually operated valves; check valves of metal (other than parts of machines); metal valves for controlling the flow of gases in pipelines; metal valves for controlling the flow of fluids or liquids in pipelines; pneumatic and hydraulic cylinders made of metal; blast air-containers made of metal; metal connectors and push in fittings for hydraulic and pneumatic devices; nozzles made of metal as parts of machines; rods made of metal; tension levers made of metal; fasteners made of metal; nuts made of metal; bolts made of metal; screws made of metal; connectors made of metal; studs made of metal; metal pipes, hoses and tube fittings; junctions of metal for pipes; fittings of metal for compressed air ducts; metal couplings; mounts for valves made of metal; anchors made of metal; anvils made of metal; pipe joints; nipples made of metal; sockets of metal; flanges of metal; pipe plugs of metal; pipe mounting clamps made of metal; reinforcing materials of metal for pipes; bells made of metal; rolled and cast building material; rails and other metallic materials for railway tracks; chains (except driving chains for vehicles); cables and wires (non-electric); safes and cash boxes; steel balls; cables and

wires of common metals and their alloys (non-electric); steel wire; metal building materials; radiator valve fittings (made of metal); metal tanks; parts and fittings for all the aforesaid goods.~7 - Valves; valve slides and valve flaps; valves being parts of machines; valves being parts of machine tools; hydraulic valves; pneumatic valves; valve closure mechanisms; valves to control flow, pressure, temperature and liquid level; valve wells; pressure regulators; pressure controllers [regulators] being parts of machines; pressure reducers; nozzles; turbines; actuating magnets for valves; valve spindles; valve stems; silencers; mufflers; sound absorbers; pumps; mounts for valves being parts of machines; pressure accumulators and pumps; gears other than for land vehicles; gear boxes other than for land vehicles; gears for machines; gear units for machines; machine coupling and belting (except for land vehicles); gearbox casings other than for land vehicles; connecting rods for machines, motors and engines; hand wheels, not of metal for valves (machine parts); control units, apparatus and mechanisms (hydraulic, manually and/or mechanically controlled); actuators; positioners; pneumatic industrial process controllers; ignition apparatus for machines and engines; propulsion mechanisms other than for land vehicles; machine tools, machine coupling and transmission components (except for land vehicles); machine tools, namely, vices and clamps for the precision clamping of work pieces; control and regulatory apparatus and fittings; hoists; lubricating equipment and apparatus; fluid-blocking spray machines and apparatus; large size agricultural implements; automatic drainage machines for liquids; powered-operated spray and blow guns; machine parts, namely, pneumatic and hydraulic cylinders; pneumatic air preparation units and parts thereof for use in pneumatic machinery; pneumatic air compressor units for use in pneumatic machines; slide tables for pneumatic and hydraulic devices; powered grippers for pneumatic and hydraulic devices; guide blocks with roller bearings for machines; electric spindles; parts of machines, namely, manifold assemblies for valves comprised primarily of pressure switches, check valves, regulators and gauges; filters; filter cleaning systems for machines; hydraulic engines; servomotors for mechanical engineering and tool manufacture; pneumatic devices for servo-driven switching and controlling plants, air barriers, reflex nozzles, booster

relays; power operated tools; pneumatic tools; valves being parts of industrial machines used in major power plants, nuclear, fossil, oil, liquefied natural gas and gas plants, platforms and refineries and petrochemical plants including well heads, liquefied natural gas plants, fossil and nuclear power stations, refineries and petrochemical plants; pressure regulators being parts of machines used in power generation, oil and gas systems; machine parts, namely, nozzles which are part of power-operated sprayers for water in gas injection to steam systems; silencers for machines; handling and positioning apparatus for use in automated assembly and processing installations; compressors; parts and fittings for all the aforesaid goods.~9 - Valves operated automatically by flow, electric, hydraulic and air pressure; valve slides and valve flaps; apparatus and instruments for controlling, detection, measuring, indicating, timing, switching, transforming, inspection, sensing, checking (supervision), signalling, monitoring, accumulating, adjusting or regulating; solenoid valves; electrovalves; electromagnetic valves; electromagnetic interrupters; positioner sensors electronic positioners; digital positioners; electric apparatus for remote ignition; flow control apparatus and instruments; data processing equipment and instruments; computer software; computer software for use in automating and managing production line processes; computer software for streamlining and optimising manufacturing processes and production line processes; filters; electric filter cleaning system; thermostats; nanometric switches; fluidic apparatus for logistics and for machine and process control; electronic connectors for solenoid valves; sensors; circuit boards; pressure amplifier boosters; electrostatic precipitators; gauges; room thermostats; humidistats; diaphragms and capillary tubes for control systems; controlled devices and software for HVAC; fire-extinguishing apparatus; downloadable software for managing fluid powered systems and machines involved in factory automation; downloadable and recorded software for identifying operational issues, control logic issues, design issues, maintenance issues, and hardware and equipment issues in industrial plants; electronically operated cylinders; pneumatic and hydraulic directional control valves for use in automated machinery in major power plants, nuclear, fossil, oil, liquefied natural gas and gas plants and platforms and refineries and petrochemical

plants; valves for controlling and regulating the flow of gases or liquids not being parts of plumbing, heating, cooling installations or machines; automatic valves to control flow, pressure, temperature and liquid level; parts and fittings for all the aforesaid goods; none of the aforementioned goods in connection with military purposes, simulators or simulation systems.~11 - Valves for heating, ventilating and air conditioning units; valve slides and valve flaps; valves as part of radiators; apparatus, installations and instruments for lighting, heating, steam generating, cooking, ventilating, refrigerating, drying, water supply, flow and distribution, steam lines, air-conditioning, cooling and sanitary purposes; thermostat-controlled valves; thermostat heads for valves; thermostat superstructures for valves; plumbing fittings; water pressure reducers; regulators for level controlling in tanks; valves for use in cryogenic apparatus and equipment; flare stack systems for use in the oil industry burner control apparatus and instruments; driers for pneumatic systems; air and gas driers; air vents; air filters for industrial installations and water filters; filters for the production, processing or treatment of compressed air or other compressed gases; locking and multipath taps; apparatus and installations for degassing water; gas and air separator equipment and devices; venting devices; a venting and separating device for water heaters for removing micro bubbles, sludge, oxygen and magnetite; water pipe apparatus and installations; heat-exchangers (not part of machines); water treatment equipment; apparatus, installations and instruments for expansion and maintenance of pressure in water systems and pressure boosting systems; industrial water purification equipment; pressure maintenance devices with pumps for heating, solar and chilled water systems; taps being parts of heating installations; expansion tanks for closed heating or cooling systems; radiators; feeding apparatus for heating boilers; flues; pipes for heating boilers; indoor and outdoor waterfalls; lubricating equipment and apparatus; manual and automatic isolation and control steam valves; steam and liquid flow control and regulating apparatus and instruments, namely, valves, control valves, isolation valves, silencers; parts and fittings for all the aforesaid goods.~17 - Valves of rubber; valve slides and valve flaps; vibration dampers; pipes, not of metal; tubes; flexible tubing; hoses; blocks; rubber bars and rods; shaped pipe, tube and hose sections; non-

metallic fittings for pipes, tubes and hoses; flexible conduits; flexible hose couplings, not of metal; non-metal hose connectors; couplings, unions and joints, not of metal, for pipes, tubes and hoses; seals; non-metallic seals for preventing leakage of gases; non-metallic seals for preventing leakage of fluids; seals made of rubber or plastic for shock absorbers; gaskets; sealing material; plastic fibres for use in the manufacture of packings and seals; polytetrafluoroethylene compounds for use in the manufacture of packings and seals; fittings namely, joint packings, nipples, sleeves, flanges, pipe plugs, pipe gaskets; pipe stoppers, pipe fastening clips, clamping screw fittings; gaskets; parts and fittings for all the aforesaid goods; all of the aforesaid goods not made of metal.~37 - Construction, installation, repair and maintenance services all such services relating to valves, valve slides and valve flaps, common metals and their alloys, ironmongery and small items of metal hardware, manually operated valves, check valves of metal (other than parts of machines), metal valves for controlling the flow of gases in pipelines, metal valves for controlling the flow of fluids or liquids in pipelines, pneumatic and hydraulic cylinders made of metal, blast air-containers made of metal, metal connectors and push in fittings for hydraulic and pneumatic devices, nozzles made of metal as parts of machines, rods made of metal, tension levers made of metal, fasteners made of metal, nuts made of metal, bolts made of metal, screws made of metal, connectors made of metal, studs made of metal, metal pipes, hoses and tube fittings, junctions of metal for pipes; construction, installation, repair and maintenance services all such services relating to fittings of metal for compressed air ducts, metal couplings, mounts for valves made of metal, anchors made of metal, anvils made of metal, pipe joints, nipples made of metal, sockets of metal, flanges of metal, pipe plugs of metal, pipe mounting clamps made of metal, reinforcing materials of metal for pipes, bells made of metal, rolled and cast building material, rails and other metallic materials for railway tracks, chains (except driving chains for vehicles), cables and wires (non-electric); construction, installation, repair and maintenance services all such services relating to safes and cash boxes, steel balls, cables and wires of common metals and their alloys (non-electric), steel wire, metal building materials, radiator valve fittings (made of metal), metal tanks, valves being parts of

machines, valves being parts of machine tools, hydraulic valves, pneumatic valves, valve closure mechanisms, valves to control flow, pressure, temperature and liquid level, valve wells, pressure regulators, pressure controllers, pressure reducers, nozzles, turbines, actuating magnets for valves, valve spindles, valve stems; construction, installation, repair and maintenance services all such services relating to silencers, mufflers, sound absorbers, pumps, mounts for valves being parts of machines, pressure accumulators and pumps, gears other than for land vehicles, gear boxes other than for land vehicles, gears for machines, gear units for machines, machine coupling and belting (except for land vehicles), gearbox casings other than for land vehicles, connecting rods for machines, motors and engines, hand wheels, not of metal for valves (machine parts), control units, apparatus and mechanisms (hydraulic, manually and/or mechanically controlled); construction, installation, repair and maintenance services all such services relating to actuators, positioners, pneumatic industrial process controllers, ignition apparatus for machines and engines, propulsion mechanisms other than for land vehicles, machine tools, machine coupling and transmission components (except for land vehicles), control and regulatory apparatus and fittings, hoists, lubricating equipment and apparatus, fluid-blocking spray machines and apparatus, large size agricultural implements, automatic drainage machines for liquids, powered-operated spray and blow guns; construction, installation, repair and maintenance services all such services relating to machine parts, namely, pneumatic and hydraulic cylinders, pneumatic air preparation units and parts thereof for use in pneumatic machinery, pneumatic air compressor units for use in pneumatic machines, slide tables for pneumatic and hydraulic devices, powered grippers for pneumatic and hydraulic devices, guide blocks with roller bearings for machines, electric spindles, parts of machines, namely, manifold assemblies for valves comprised primarily of pressure switches, check valves, regulators and gauges, filters, filter cleaning systems for machines, hydraulic engines, servomotors for mechanical engineering and tool manufacture, pneumatic devices for servo-driven switching and controlling plants, air barriers, reflex nozzles, booster relays; construction, installation, repair and maintenance services all such services relating to power operated tools,

pneumatic tools, handling and positioning apparatus for use in automated assembly and processing installations, compressors, apparatus and instruments for controlling, detection, measuring, indicating, timing, switching, transforming, inspection, sensing, checking (supervision), signalling, monitoring, accumulating, adjusting or regulating, solenoid valves, electrovalves, electromagnetic valves, electromagnetic interrupters, positioner sensors, electronic positioners, digital positioners, electric apparatus for remote ignition, flow control apparatus and instruments; construction, installation, repair and maintenance services all such services relating to data processing equipment and instruments, computer software, filters, electric filter cleaning systems, thermostats, nanometric switches, fluidic apparatus for logistics and for machine and process control, electronic connectors for solenoid valves, sensors, circuit boards, pressure amplifier boosters, electrostatic precipitators, gauges, room thermostats, humidistats, diaphragms and capillary tubes for control systems, controlled devices and software for HVAC; construction, installation, repair and maintenance services all such services relating to fire-extinguishing apparatus, valves as part of radiators, apparatus, installations and instruments for lighting, heating, steam generating, cooking, ventilating, refrigerating, drying, water supply, flow and distribution, steam lines, air-conditioning, cooling and sanitary purposes, thermostat-controlled valves, thermostat heads for valves, thermostat superstructures for valves, plumbing fittings, water pressure reducers, regulators for level controlling in tanks, valves for use in cryogenic apparatus and equipment, flare stack systems for use in the oil industry burner control apparatus and instruments, driers for pneumatic systems, air and gas driers, air vents, filters, filters for the production, processing or treatment of compressed air or other compressed gases, locking and multipath taps, apparatus and installations for degassing water, gas and air separator equipment and devices; construction, installation, repair and maintenance services all such services relating to venting devices, a venting and separating device for water heaters for removing micro bubbles, sludge, oxygen and magnetite, water pipe apparatus and installations, heat-exchangers (not part of machines), water treatment equipment, apparatus, installations and instruments for expansion and maintenance

of pressure in water systems and pressure boosting systems, industrial water purification equipment, pressure maintenance devices with pumps for heating, solar and chilled water systems, taps being parts of heating installations; construction, installation, repair and maintenance services all such services relating to expansion tanks for closed heating or cooling systems, gaskets, radiators, feeding apparatus for heating boilers, flues, pipes for heating boilers, indoor and outdoor waterfalls, lubricating equipment and apparatus, pipes, tubes, flexible tubing, hoses, blocks, rods, shaped pipe, tube and hose sections, non-metallic fittings for pipes, tubes and hoses, flexible conduits, couplings, connectors, joints and unions for pipes, tubes and hoses, seals, gaskets, sealing material, fittings namely, joint packings, nipples, sleeves, flanges, pipe plugs, pipe gaskets, pipe stoppers, pipe fastening clips, clamping screw fittings; construction, installation, repair and maintenance services all such services relating to parts and fittings for all the aforesaid goods; information on the repair and maintenance of HVAC systems.~42 - Industrial design and research services; industrial design and research services in the field of severe service applications in the power, nuclear, oil, gas, petrochemical and chemical processing industries and in the field of critical applications such as safeguarding plants, equipment or people and averting emergency shutdowns in the power, nuclear, oil, gas, petrochemical and chemical processing industries; scientific and technological services, engineering services for others; scientific and technological services, namely, analysis of technical data to identify operational issues, control logic issues, design issues, maintenance issues, and hardware and equipment issues in industrial plants; scientific and technological services namely flow control analysis and optimization of performance in the power, nuclear, oil, gas, petrochemical and chemical processing industries; engineering design services; consulting in the field of engineering; consulting services in the field of industrial engineering; technology consultation in the field of industrial plant operations; engineering and system analysis in the field of industrial plant operation systems; engineering testing services; technical testing services; testing of apparatus and machinery; testing of valves; computer software design, programming and maintenance; information, advice and consultancy services in relation to all of the

aforesaid services; none of the aforementioned services in connection with military purposes, simulators or simulation systems.

Class(es) :	Goods and Services:
7~11~30~32	7 - Electric milk frothers; aerated beverage making machines; apparatus for aerating water; apparatuses for aerating beverages; condiment dispensing machines, namely, electromechanical machines for outputting condiment to containers for beverage preparation, for commercial use; flavor dispensing machines, namely, electromechanical machines for outputting flavor to containers for beverage preparation, for commercial use; sauce dispensing machines, namely, electromechanical machines for outputting sauce to containers for beverage preparation, for commercial use; syrup dispensing machines, namely, electromechanical machines for outputting syrup to containers for beverage preparation, for commercial use; topping dispensing machines, namely, electromechanical machines for outputting topping to containers for beverage preparation, for commercial use; electric egg beaters; beer pumps; beverage preparation machines, electromechanical; beverage processing machines; food blenders, electric, for commercial purposes; bottle washing machines; bread cutting machines; butter machines; cheese slicers, electric; coffee grinders, other than hand operated; cream separators; crushers for kitchen use, electric; cup washing machines, for kitchen use; cup washing stations, for kitchen use; dishwashers; electric apparatuses, namely, blender machines for blending tapioca pearls; fluid materials dispensing machines, namely, electromechanical machines for discharging condiment for

beverage preparation, for commercial use; electric cup sealers, for commercial purposes; electric cup sealing machines, for commercial purposes; fluid materials dispensing machines, namely, electromechanical machines for discharging flavor for beverage preparation, for commercial use; fluid materials dispensing machines, namely, electromechanical machines for delivering condiment to containers for beverage preparation, for commercial use; fluid materials dispensing machines, namely, electromechanical machines for delivering flavor to containers for beverage preparation, for commercial use; fluid materials dispensing machines, namely, electromechanical machines for discharging sauce for beverage preparation, for commercial use; fluid materials dispensing machines, namely, electromechanical machines for discharging syrup for beverage preparation, for commercial use; fluid materials dispensing machines, namely, electromechanical machines for discharging topping for beverage preparation, for commercial use; fluid materials dispensing machines, namely, electromechanical machines for delivering sauce to containers for beverage preparation, for commercial use; fluid materials dispensing machines, namely, electromechanical machines for delivering syrup to containers for beverage preparation, for commercial use; fluid materials dispensing machines, namely, electromechanical machines for delivering topping to containers for beverage preparation, for commercial use; electrical apparatuses for packaging, namely, electrical apparatuses for sealing plastics; food preparation machines, electromechanical, namely, electric food processors; food processors, electric; fruit presses, electric, for commercial purposes; glass washing machines, for kitchen use; grating machines for vegetables; industrial robots; juice extractors, electric; juice machines; kitchen grinders, electric; kitchen machines, electric, namely, electric standing mixers; kneading machines for commercial use; knives, electric; machines for the mineralization of drinking water; machines for the production of sugar; meat choppers, electric; meat mincers, electric; non-aerated beverage making machines; packaging machines; packing machines; parts of beverage processing machines, namely, electric blending cups; parts of blender machines for blending tapioca pearls, namely, electric blending cups; parts of electric blenders for

commercial purposes, namely, electric blending cups; parts of electromechanical beverage preparation machines, namely, electric blending cups; pasta making machines, electric; food peeling machines for commercial use; rinsing machines for dishware; robotic arms for food and drink preparation, for commercial use; robotic arms for grabbing food ingredients, namely, commercial robots; sealing machines for packing food and drink, for commercial use; vegetable peelers, electric; vegetable shredders, electric; vegetable slicers, electric; vegetable spiralizers, electric; washing apparatus, namely, dishwashers; whisks, electric, for commercial purposes; electromechanical beverage preparation machines; temperature-controlled condiment dispensing equipment, namely, electromechanical machines for outputting condiment to containers for beverage preparation, for commercial use; temperature-controlled fluid materials dispensing equipment, namely, electromechanical machines for discharging condiment for beverage preparation, for commercial use; temperature-controlled flavor dispensing equipment, namely, electromechanical machines for outputting flavor to containers for beverage preparation, for commercial use; temperature-controlled sauce dispensing equipment, namely, electromechanical machines for outputting sauce to containers for beverage preparation, for commercial use; temperature-controlled syrup dispensing equipment, namely, electromechanical machines for outputting syrup to containers for beverage preparation, for commercial use; temperature-controlled topping dispensing equipment, namely, electromechanical machines for outputting topping to containers for beverage preparation, for commercial use; temperature-controlled fluid materials dispensing equipment, namely, electromechanical machines for discharging flavor for beverage preparation, for commercial use; temperature-controlled fluid materials dispensing equipment, namely, electromechanical machines for discharging sauce for beverage preparation, for commercial use; temperature-controlled fluid materials dispensing equipment, namely, electromechanical machines for discharging syrup for beverage preparation, for commercial use; temperature-controlled fluid materials dispensing equipment, namely, electromechanical machines for discharging topping for beverage preparation, for commercial use.~11 - Beer brewing machines, electric, for

commercial use; air fryers; bakers' ovens; beer brewing machines, electric, for commercial purposes; beer dispensers, namely, refrigerated beer dispensing units; beverage cooling apparatuses; beverage urns, electric; bread baking machines; bread toasters, namely, electric toasters; bread-making machines; chocolate fountains, electric; coffee capsules, empty, for electric coffee machines; coffee filters, electric, not of paper being part of electric coffee machines; coffee machines, electric; coffee percolators, electric; coffee roasters; commercial cooking ovens; cooking appliances, namely, electric roasters; cooking stoves; cool boxes, electric; cooling appliances and installations, namely, food and drink cooling apparatus being thermoelectric cooler for food and beverages; deep fryers, electric; electric cooking pots; electric rice cookers; electric vessels for making ices and ice cream; temperature-controlled apparatus for dispensing hot and chilled condiment; temperature-controlled apparatus for dispensing hot and chilled flavor; temperature-controlled apparatus for dispensing hot and chilled sauce; temperature-controlled apparatus for dispensing hot and chilled syrup; temperature-controlled apparatus for dispensing hot and chilled topping; electrical household apparatuses for heating food, namely, tapioca pearls; food steamers, electric; heaters, electric, for feeding bottles; heating and cooling apparatuses for dispensing hot and cold beverages; heating apparatuses, namely, heating installations; heating installations; hot water bottles; hot water heating installations; ice machines and apparatuses; ice-cream making machines; immersion heaters; kettles, electric; microwave ovens, for commercial purposes; milk cooling installations; multicookers; multi-purpose, electric countertop food preparation apparatuses for cooking, baking, broiling, roasting, toasting, searing, browning, barbecuing and grilling food; ovens, namely, kitchen ranges being cooking ovens; popcorn maker, namely, electric popcorn poppers; pounded rice cake making machines, electric, for commercial purposes; pressure cookers, electric; refrigerating apparatuses and machines, namely, refrigerating appliances and installations; refrigerating appliances and installations; refrigerated shipping containers; refrigerators; rotisseries; sous-vide cookers, electric; soya milk making machines, electric; thermoelectric cooler for food and beverages; thermoelectric heater for food and beverages; tortilla presses, electric; waffle irons, electric.~30 - Tea-based

beverages also containing milk; tea-based beverages with milk; melon tea; agave syrup for use as natural sweetener; beer vinegar; starch based binding agents for ice cream; black tea; black tea bags; chamomile tea; chamomile-based beverages; chocolate-based beverages; chocolate-based beverages with milk; chrysanthemum tea; cocoa beverages with milk; cocoa-based beverages; coffee; coffee beverages with milk; coffee flavorings; coffee substitutes; coffee-based beverages; cold brewing tea; cocoa-based condiments and seasonings for food and drink; condiments, namely, apple sauces; condiments, namely, chutneys; condiments, namely, cranberry sauces; crystallized rock sugar; dressings for salad; dulce de leche; flavorings, other than essential oils, for beverages; frozen yogurt; fructose for food; fruit tea; golden syrup; green tea; herbal teas; honey; ice cream; ice for refreshment; iced black tea; iced tea; kombucha tea; kumquat tea; lemon black tea; lemon tea; maltose for food and drink; maple syrup; mayonnaise; meat gravies; mint tea; miso; mixed fruit tea bags; molasses for food; natural sweeteners; oat flakes; palm sugar; pasta sauces; piccalilli; powders for making ice cream; sauces, namely, fruit coulis; sauces, namely, ketchup; scented tea; scented tea bags; seasonings; seasonings, namely, crystallized lemon juices; sorbet; soya sauce; spices; sugar; tapioca rice ball; taro balls for use in tea-based beverages; tea; tea bags; tea beverages with milk; tea leaf; tea powder, namely powders for making ice tea; tea substitutes; tea-based beverages; tea-based milk tea; tomato sauce; vinegar.~32 - Packed fruit beverages, namely, fruit beverages in plastic bottles; syrups for beverages; aerated water; apple juice beverages; apricot juice; asparagus juice; barley juice; beer; beer worts; beer-based cocktails; beer, namely, barley wine; carbonated water; carrot juice; citrus fruit pectin flavored beverages; cola drinks; drinking waters; energy drinks; fruit beverages; fruit juice with vinegar; fruit juice, namely, malt juice; fruit juices; ginger beer; grapefruit juice; guava juice; juicy peach juice; kiwi juice; kvass; lemon juice for use in the preparation of beverages; lemonades; malt beer; malt wort; mango juice; mineral water; non-alcoholic aloe vera drinks; non-alcoholic aperitifs; non-alcoholic beer; non-alcoholic beverages flavored with coffee; non-alcoholic beverages flavored with tea; non-alcoholic beverages, namely, sarsaparilla; non-alcoholic cider; non-alcoholic cocktails; non-alcoholic essences for making non-alcoholic

beverages, not in the nature of essential oils; non-alcoholic fruit extracts used in the preparation of beverages; non-alcoholic fruit juice beverages; non-alcoholic fruit nectars; non-alcoholic honey-based beverages; non-alcoholic malt beverages; non-alcoholic packed fruit beverages; non-alcoholic preparations for making beverages, namely, fruit drinks; orange juice; passion fruit juice; pineapple juice beverages; preparations for making aerated water in the nature of syrups; preparations for making carbonated water, namely, preparations for making non-alcoholic carbonated beverages; preparations for making soft drinks; protein-enriched sports beverages; non-alcoholic rice-based beverages, other than milk substitutes; seltzer water; shandy; sherbets; smoked plum juice beverages; smoothies; soda water; soft drinks; soya-based beverages, other than milk substitutes; sparkling water; star fruit juice; syrups used in the preparation of soft drinks; syrups for lemonade; tomato juice; unfermented grape must; vegetable juice; vinegar beverages, namely, carbonated soft drinks; water beverages; watermelon juice; whey beverages; tea powder, namely powders for making soft drinks or tea-flavored beverages; brewage, namely, beer made of barley.

construction of buildings; diagnostic maintenance services; electric appliance installation and repair; electrical wiring services; installation and repair of telecommunication apparatus; installation of apparatus for air-conditioning; installation of apparatus for ventilating; installation of clean room environmental control systems; installation of clean room systems; installation of communication equipment; installation of communications network apparatus; installation of communications network instruments; installation of computer hardware; installation of hardware for computer systems; installation of computerised information systems; installation of computers; installation of electricity generators; installation of electronic apparatus; installation of energy-saving apparatus; installation of environmental control systems; installation of environmental protection systems; installation of hardware and cables for internet access; installation of hardware for computer systems; installation of heating and cooling apparatus; installation of storage facilities; installation of telecommunications apparatus; installation of ventilation and dust extraction systems; installation, maintenance and repair of computer hardware; installation, repair and maintenance of computers and computer peripherals; installing of electronic communications networks; installing of telecommunications networks; interference suppression in electrical apparatus; maintenance and repair of communications systems; maintenance and repair of computer hardware; maintenance and repair of computers; maintenance and repair of cooling appliances and installations; maintenance and repair of telecommunications apparatus; property development [building and construction services]; property maintenance; providing information relating to the repair or maintenance of telecommunication machines and apparatus; repair and maintenance of computer and telecommunications hardware; repair of electrical equipment and electrotechnical installations; repair of electronic apparatus; repair or maintenance of telecommunication machines and apparatus.~38 - Telecommunications services; advisory and consultancy services relating to wireless communications; advisory services relating to communications equipment; advisory services relating to telecommunications; automatic transfer of digital data using telecommunications channels; broadcast transmission by satellite; broadcasting services;

cable broadcasting and transmission; cable transmission of sounds, images, signals and data; call centre services [electronic call diversion and messaging]; communication between computers; communication by computer; communication by computer terminals; communication by electronic means; communication of data by means of telecommunications; communication of information by satellite; communication services between data banks; communication services by cable; communication services by electronic means; communication services by radio; communication services for the electronic transmission of data; communication services for the transmission of information; communication services over computer networks; communication services provided electronically; communication services, namely, electronic transmission of data and documents among users of computers; communication via computer terminals, by digital transmission or by satellite; communication via fibre-optic networks; communications services for accessing a database; communications services for the exchange of data in electronic form; communications services provided over the internet; communications via analogue and digital computer terminals; communications via multinational telecommunication networks; computer aided transmission of messages, data and images; computer data transmission services; computer network communication services; computerised data communications; consultancy in the field of telecommunications; consultancy services relating to communications; consultancy services relating to data communications; data broadcasting services; data communication services; data streaming; data transfer services; data transmission; data transmission and reception services via telecommunication means; data transmission for others; data transmission services; data transmission services between networked computer systems; data transmission services over telecommunications networks; data transmission via telematic networks; digital network telecommunications services; digital transmission of data; digital transmission of data via the internet; digital transmission services; digital transmission services for audio and video data; electronic communication services; electronic communication services for the transmission of data; electronic data communications; electronic data exchange

services; electronic data interchange [edi] services; electronic data transmission; electronic exchange of data stored in databases accessible via telecommunication networks; electronic transmission and retransmission of sounds, images, documents, messages and data; electronic transmission of data; electronic transmission of data and documents via computer terminals and electronic devices; electronic transmission of messages and data; fiber optic telecommunications services; geolocation services [telecommunications services]; high bit-rate data transmission services for telecommunication network operators; hire of communications apparatus; hire of electronic mail boxes; hire of telecommunications apparatus; hire of telecommunications installations; hire of telecommunications instruments; information services relating to broadcasting; information services relating to electronic communication networks; information services relating to telecommunications; internet access provider services; internet broadcasting services; internet communication services; internet portal services; internet service provider [isp] services; leasing of access time to a computer database; leasing of access time to global computer networks; leasing of telecommunication equipment; netcasting [broadcasting over a global computer network]; network transmission of sounds, images, signals and data; news agency services for electronic transmission; operating of electronic communications networks; operating of electronic communications systems; operation of cellular communications systems; operation of local area networks; operation of telecommunications apparatus; operation of telecommunications systems; providing access to computer networks; providing access to computer software; providing access to databases; providing access to information on the internet; providing access to information via data networks; providing access to information via the internet; providing access to multimedia content online; providing access to online computer databases; providing access to platforms and portals on the internet; providing access to telecommunication networks; providing access to the internet and other communications networks; providing access to web portals; providing access to websites on the internet or any other communications network; providing electronic telecommunication connections; providing frame relay

connectivity services for data transfer; providing high speed access to computer and communication networks; providing information about wireless communication; providing information, including online, about telecommunications; providing of access to telecommunication warehousing services; providing telecommunication connections to the internet or databases; providing telecommunications connections to a global communication network or databases; providing third party users with access to telecommunication infrastructure; providing user access to computer programmes in data networks; providing user access to computer software in data networks; providing user access to global computer network and online sites containing information on a wide range of topics; providing user access to global positioning signals for navigation purposes; providing virtual private network (vpn) services; provision of access to an electronic on-line network for information retrieval; provision of access to computer databases; provision of access to data on communication networks; provision of access to data or documents stored electronically in central files for remote consultation; provision of access to data via the internet; provision of communications between computers; provision of electronic communications facilities; provision of electronic data links; provision of email services; provision of telecommunication connections to a global computer network; provision of telecommunication facilities; provision of user access to the internet; remote transmission of data by means of telecommunications; rental of access time to a computer database; rental of access time to a database server; rental of access time to databases; rental of access time to global computer networks; rental of communication apparatus and implements; rental of communications equipment; rental of communications instruments; rental of communications systems; rental of data communication apparatus; rental of data communications equipment; rental of data communications installations; rental of telecommunication apparatus; rental of telecommunication devices and equipment enabling connection to networks; rental of telecommunication facilities; rental of telecommunications apparatus and installations; rental of telecommunications routers; satellite transmission of sounds, images, signals and data; satellite transmission services; secure e-mail services; secure telecommunications [providing

secure connections and access including to computers and the global computer network]; signal transmission for electronic commerce via telecommunication systems and data communication systems; streaming of audio, visual and audiovisual material via a global computer network; streaming of data; switching network services [telecommunications]; telecommunication access services; telecommunication gateway services; telecommunications; telecommunications services for the distribution of data; telecommunications services provided via fiber optic, wireless and cable networks; telecommunications services provided via the internet, intranet and extranet; transfer of data by telecommunications; transfer of information and data via online services and the internet; transferring and disseminating information and data via computer networks and the internet; transmission and distribution of data or audiovisual images via a global computer network or the internet; transmission and reception of database information via telecommunication networks; transmission of computerised data; transmission of data; transmission of data and information by computer and electronic communication means; transmission of data by cable; transmission of data by computer; transmission of data by electronic means; transmission of data via isdn lines; transmission of data via satellite; transmission of data via the internet; transmission of data, audio, video and multimedia files, including downloadable files and files streamed over a global computer network; transmission of data, messages and information; transmission of data, sound and images by satellite; transmission of database information via telecommunications networks; transmission of electronic mail; transmission of information by computer; transmission of information by data communications for assisting decision making; transmission of information by electronic communications networks; transmission of information by electronic means; transmission of information on a wide range of topics, including online and over a global computer network; transmission of information via computer networks; transmission of information via national and international networks; transmission of information via wireless or cable networks; transmission of messages, data and content via the internet and other communications networks; transmission of stock market information with the help of telecommunication

media; transmission of videos, movies, pictures, images, text, photos, games, user-generated content, audio content, and information via the internet; video broadcasting; video communication services; video conference services [telecommunications services]; video, audio and television streaming services; web portal services [providing user access to global computer network]; webcasting services; wire service; wireless broadcasting; wireless communication services; wireless electronic transmission of data; wireless pbx services; wireless transfer of data via digital mobile telephony; wireless transfer of data via the internet; wireless transfer of data via wireless application protocols.~39 - Physical storage of electronically stored data or documents; physical storage of electronically stored data, documents, digital photographs, music, images, video, and computer games; physical storage of electronically stored digital data, photographs, audio and image files; physical storage of electronically stored files and documents; physical storage of electronically stored information; providing information about temporary storage services; providing information relating to storage services; packaging and storage of goods; transport; travel arrangement; collection of documents; computerised distribution planning relating to transportation; computerised transport information services; consultancy services relating to the distribution of electricity; depository storage; electricity storage; gps navigation services; information and advisory services in relation to the distribution of energy; rental of warehouse space; vehicle routing by computer on data networks; bonded storage; bonded warehousing; warehousing.~42 - Design and development of computer hardware and software; industrial analysis, industrial research and industrial design services; quality control and authentication services; administration of mail servers; administration of user rights in computer networks; advisory services in the field of product development and quality improvement of software; advisory services relating to building design; advisory services relating to computer hardware; computer software advisory services; technical advisory services relating to computer programs; advisory services relating to energy efficiency; analysis and evaluation of product design; analysis and evaluation of product development; analysis of telecommunication signals; application service provider [asp] services; authentication

services for computer security; authentication services for electronic documents and e-mail; back-up of computer data; backup services for computer hard drive data; building design services; cloud hosting provider services; cloud storage services for electronic data; cloud storage services for electronic files; coding of messages; commissioning [testing and inspection] services; comparative analysis studies of the performance of computer systems; compilation of computer programs; compilation of data-processing programs; compilation of web pages for the internet; compression of data for electronic storage; computer advisory services; computer analysis; computer rental; computer code conversion for others; computer co-location services; computer consultancy; computer database design consultancy services; computer design services; computer disaster recovery planning; computer disaster recovery services; computer engineering; computer firewall services; computer forensic services; computer hardware design; computer hardware development; computer leasing; computer network configuration services; computer network design for others; computer network services; computer performance testing; computer program advisory services; computer program maintenance services; computer program updating services; computer project management in the field of edp; computer research services; computer security consultancy; computer security engineering; computer security services [design and development of secure computer hardware, software and systems]; computer security services [programming and software installation, repair and maintenance services]; computer security services [testing and risk assessment of computer networks]; computer security services for protection against illegal network access; computer security services in the nature of administering digital certificates; computer security threat analysis for protecting data; computer services in the nature of hosting web sites for others; computer software advisory services; computer software development; computer software installation and maintenance; computer software integration; computer software programming services; computer software repair; computer software research; computer software technical support services; computer software updating services; computer systems design; computer systems development; computer time-sharing services; computer virus protection

services; computerised business information storage; computerised communication network security; computerised data storage services; configuration of computer firmware; configuration of computer networks by software; configuration of computer software; configuration of computer systems and networks; consultancy in the field of technological design; consultancy in the field of technological research; creating of computer programs; creating programmes for data processing; creating, maintaining, and updating computer software; cross-platform conversion of digital content into other forms of digital content; cryptocurrency mining; cryptomining; customization of computer software; cybersecurity consultancy; data conversion of computer programs and data, not physical conversion; data conversion of electronic information; data migration services; data mining; data security services [firewalls]; database design and development; debugging computer software for others; decoding of data; design and development of computer firmware; design and development of computer peripherals; design and development of computer software; design and development of electronic database software; design and development of energy distribution networks; design and development of energy management software; design and development of internet security programs; design and development of wireless computer networks; design and development of wireless data transmission apparatus, instruments and equipment; design and planning services relating to telecommunication equipment; design of communication systems; design of communications apparatus; design of computer cluster configurations; design of computer codes; design of computer databases; design of computer hardware; design of computer languages; design of computer peripherals; design of computers; design of diagnostic apparatus and equipment; design of information systems; design of telecommunications apparatus and equipment; design of telecommunications installations; maintenance, development and updating of computer software; developing data feed formats featuring user-defined information; developing of driver and operating system software; development and creation of computer programmes for data processing; development and maintenance of computer database software; development of computer based networks; development of computer codes;

development of computer hardware; development of computer programs; development of computer software; development of computer software application solutions; development of computer systems; development of computers; development of data processing programs by order of third parties; development of energy and power management systems; development of programmes for data processing; development of software; development of software for secure network operations; development of systems for the processing of data; development of systems for the storage of data; development of systems for the transmission of data; development services in the field of computer software and advisory services relating thereto; development, maintenance and updating of a telecommunication network search engine; development, updating and maintenance of software and database systems; diagnosis of computer hardware problems through the use of software; diagnosis of faults in computer software; digital compression of computer data; digital signature verification services [electronic cryptology services]; digital watermarking; digitization of documents [scanning]; disaster recovery services for computer systems; disaster recovery services for data communications systems; document data transfer from one computer format to another; editing of computer programs; electronic data backup services; electronic data storage services; electronic monitoring services being it security services in the nature of protection and recovery of computer data; electronic monitoring services for computer security services for protection against illegal network access; electronic monitoring services for computer security threat analysis for protecting data; electronic signature verification services [electronic cryptology services]; electronic site authoring; electronic storage of data; electronic storage of digital audio files; electronic storage of digital images; electronic storage of digital music; electronic storage of digital photographs; electronic storage of digital video files; electronic storage of documents and archived e-mails; electronic storage of files and documents; electronic storage of images; electronic storage of videos; electronic storage services for archiving databases, images and other electronic data; electronic storage services for archiving electronic data; engineering services in the field of communications technology;

engineering services relating to computer programming; hiring of data processing apparatus; hosting a website for the electronic storage of digital photographs and videos; hosting an online website for creating and hosting micro websites for businesses; hosting and rental of memory space for websites; hosting internet sites for others; hosting memory space on the internet; hosting of computerized data, files, applications and information; hosting of customized web pages; hosting of databases; hosting of digital content on the internet; hosting of e-commerce platforms on the internet; hosting of platforms on the internet; hosting of software as a service [saas]; hosting of software for use in library management; hosting of web portals; hosting of weblogs; hosting of websites; hosting online web facilities for others; hosting the web sites of others on a computer server for a global computer network; implementation of computer programs in networks; information security consultancy; providing technical information relating to computers; information services relating to information technology; information technology services; information technology services provided on an outsourcing basis; infrastructure as a service [iaas]; installation and maintenance of computer software; installation and maintenance of database software; installation of computer programs; installation of computer software; installation of database software; installation of firmware; installation of internet access software; installation of middleware; installation of software; installation, maintenance and repair of computer software; installation, maintenance and repair of software for computer systems; installation, maintenance and updating of computer software; installation, maintenance and updating of database software; installation, maintenance, updating and upgrading of computer software; installation, repair and maintenance of computer software; installation, repair and maintenance of firmware; installation, repair and maintenance of middleware; integration of computer systems and networks; internet security consultancy; leasing computer facilities; leasing of computer apparatus; leasing of computer equipment; leasing of computer hardware; leasing of computer programs; leasing of computer software; leasing of computers; location of utility lines [mapping services]; maintenance and repair of software; maintenance and updating of software for communication systems; maintenance of computer software

relating to computer security and prevention of computer risks; maintenance of software; mapping services; modifying of computer programs; monitoring of computer systems by remote access; monitoring of computer systems for detecting unauthorized access or data breach; monitoring of computer systems to detect breakdowns; monitoring of telecommunication signals; network security services [testing and risk assessment of electronic networks]; off-site data backup; online data storage; online provision of web-based applications; online provision of web-based software; outsource service providers in the field of information technology; packaging design; preparation of reports relating to computer programs; preparation of reports relating to computers; preparation of technical reports; preparation of technical studies; preparation of technological reports; preparation of technological research reports; product design; product research and development; professional consultancy relating to computer security; programming and software installation, repair and maintenance services; programming of computer software for evaluation and calculation of data; programming of computer software for reading, transmitting and organising data; programming of data processing programs; programming of edp software; programming of energy management software; programming of internet security programs; programming of operating software for accessing and using a cloud computing network; programming of operating software for computer networks and servers; programming of software for database management; programming of software for importing and managing data; programming of telecommunications software; providing computer facilities for the electronic storage of digital data; providing electronic memory space on the internet; providing information about the design and development of computer software, systems and networks; providing information in the field of computer software design; providing information in the field of computer software development; providing information, including online, about design and development of computer hardware and software; providing user authentication services using single sign-on technology for online software applications; providing virtual computer environments through cloud computing; providing virtual computer systems through cloud computing; provision of online non-downloadable

software; reconstitution of databases; reconstruction of database systems for others; recording data relating to energy consumption in buildings; recovery of computer data; remote computer backup services; remote server administration; rental and maintenance of computer software; rental of a database server to third parties; rental of application software; rental of computer apparatus; rental of computer database software; rental of computer equipment; rental of computer firmware; rental of computer hardware and computer peripherals; rental of computer middleware; rental of computer software and programs; rental of computers and computer software; rental of computers for data processing; rental of data carriers; rental of data centre facilities; rental of data processing apparatus; rental of data processing programs; rental of data processing systems; rental of database management software; rental of information processing apparatus; rental of internet security programs; rental of operating software for computer networks and servers; rental of server memory space; rental of software; rental of software for data processing; rental of software for importing and managing data; repair of computer software; repair of damaged computer programs; research and development of computer software; research in the field of computer programs and software; research in the field of data processing technology; research in the field of information technology; research in the field of telecommunications technology; research relating to data processing; research in the field of computer security; research in the field of internet security; research in the field of telecommunication network security; research relating to technology; research relating to telecommunication; research relating to the development of computer programs and software; research, development, design and upgrading of computer software; security assessment services for computer networks; security risk assessment services relating to computer systems; server administration; server hosting; services for maintenance of computer software; services for reproducing computer programs; software authoring; software creation; software engineering; software engineering services for data processing; software maintenance services; software research; technical advisory services relating to computer programs; technical data analysis services; technical design and planning of telecommunications equipment; technical

design and planning of telecommunications networks; technical design services relating to cooling appliances and installations; technological analysis relating to energy and power needs of others; technology consultation in the field of artificial intelligence; telecommunication network security consultancy; telecommunications engineering; telecommunications technology consultancy; temporary electronic storage of information and data; testing of computer installations; testing of computer programs; testing of computer software; testing, analysis and monitoring of telecommunication signals; translation of computer programs; troubleshooting in the nature of diagnosing server problems; troubleshooting of computer software problems; updating and design of computer software; updating and maintenance of computer software; updating of computer programs; updating of computer software relating to computer security and prevention of computer risks; updating of software; updating of software for data processing; upgrading and maintenance of computer software; user authentication services using blockchain technology; user authentication services using single sign-on technology for online software applications; verification of personal identification [computer security]; writing and updating computer software; writing of computer code; writing of computer programs; writing of data processing programs; wireless communications technology consultancy.

Class(es) :	Goods and Services:
9~35~36~37~38~39~42	9 - Communications servers [computer hardware]; computer controlled apparatus for furnishing voice responses to data inputs; computer controlled workstations for data entry; computer data in recorded form; computer data input apparatus; computer data input devices; computer data interchange apparatus; computer data storage apparatus; computer databases; computer installations for the communication of data; computer installations for the processing of data; computer installations for the storage of data; computer network routers; computer network server; computer networks for the communication of data; computer networks for the processing of data; computer networks for the storage of data; computer programs for connecting remotely to computers or computer networks; computer programs for providing a graphical presentation of data; computer programs for scientific data analysis; computer programs for the analysis of data processing efficiency; computer related data communication apparatus; computer servers; computers for use in data management; connecting devices for data collection; connecting devices for data transfer; data access apparatus for use in accessing stored information; data acquisition apparatus; data acquisition instruments; data banks; data buffers; data bus interface units;

data carriers; data carriers bearing computer programmes; data carriers bearing machine readable data; data carriers equipped with governing programs; data carriers for computers having software recorded thereon; data carriers for electronic data processing; data carriers for use with data processing apparatus; data carriers incorporating computer programs; data carriers incorporating machine readable data; data communications apparatus; data communications hardware; data communications installations; data communications instruments; data communications receivers; data communications software; data handling apparatus; data handling installations; data information processing apparatus; data information processing units; data loggers; data logging apparatus; data memories; data meters; data networks; data processing apparatus; data processing components; data processing devices; data processing equipment; data processing information carriers; data processing installations; data processing instruments; data processing machines; data processing terminals; data processing units; data processors; data processors for business data; data programmes; data protection backup units; data receivers; data recorded electronically; data recorded electronically from the internet; data recorded in electronic form; data retrieval apparatus; data security apparatus; data security instruments; data sets, recorded or downloadable; data storage apparatus; data storage devices; data storage installations; data storage instruments; data storage machines; data switches; databases; electric apparatus for data processing; electric apparatus for storing computer data; electric devices for transmission of data between computers; electric devices for transmission of data between microprocessors; electrical apparatus for data acquisition; electrical apparatus for recording data; electrical apparatus for the input of data; electrical apparatus for the output of data; electrical apparatus for use in the encoding of data; electrical communication apparatus for transmitting data; electrical devices for storage of data; electrical devices for transmission of data; electrical units for data conditioning; electrically recorded data for computers; electronic apparatus for data processing; electronic apparatus for manipulating data; electronic apparatus for relaying data; electronic apparatus for the transmission of data; electronic data apparatus for use with computers; electronic data carriers; electronic data collection apparatus; electronic data

communications apparatus; electronic data communications installations; electronic data processing apparatus; electronic data processing devices; electronic data processing equipment; electronic data processing installations; electronic data processing machines; electronic databases recorded on computer media; electronic devices for data processing; electronic devices for the transmission of data between computers; electronic devices for the transmission of data between microprocessors; electronic devices for transmitting data; electronic industrial network apparatus for high speed data transmission; electronic instruments for the receiving of data; electronic mail servers; electronic memories for the control of computer data; electronic memories for the input of computer data; electronic memories for the output of computer data; electronic memories for the storage of computer data; electronic remote data transfer apparatus; electronic telecommunications apparatus; expandable data processing apparatus; external storage apparatus for use with data processing apparatus; flat screens for electronic data processing apparatus; hard discs for electronic data processing; high speed data transmission apparatus; information storage devices for use in data processing apparatus; instruction programmes for the processing of data; instruction programmes for the storage of data; instruments for electronic data processing; integrated data processing installations; interactive data transfer apparatus; internet servers; intranet servers; local area networking apparatus for the switching of data; local area networking apparatus for the transmission of data; magnetic data media; magnetic data memories; magnetic data recording apparatus; magnetic data storage materials; magnetic media for the handling of data; magnetic media for the storage of data; memories for data processing equipment; memory devices for use with data processing apparatus; microchips for recording data; microcircuit data carriers; mobile communication terminals; mobile computers; mobile data apparatus; mobile data communications apparatus; mobile data instruments; mobile data receivers; multiplexers for bearing data; multiplexers for use in the alternate transmission of data; network access server hardware; network access server operating software; network routers; network servers; operating software for network access servers; portable electronic apparatus for the collection of machine data; private automatic branch

exchanges for data; processing programmes recorded on data carriers; program carriers for electronic data processing apparatus; real-time data processing apparatus; recorded data files; recorded data, encoded; recording materials for the storage of data, magnetic; remote data gathering apparatus; repeaters for use in data networking; scanners for entering data into computers; sensors for real time data input apparatus; sensors for real time data output apparatus; servers for web hosting; solid-state electrical apparatus for storing computer data; solid-state electronic data storage materials; storage apparatus for computer data; storage materials for data in electronic form; storage materials for data in magnetic form; synchronous data communications apparatus; synchronous data units; synchronous data-link control adaptors; telecommunications apparatus for transferring data to computers; telecommunications apparatus for transmitting data for use with computers; vpn [virtual private network] hardware; vpn [virtual private network] operating software; wan [wide area network] hardware; watches that communicate data to smartphones; wide area network (wan) routers; wire free data transmission apparatus; wireless routers; access control cards, encoded or magnetic; access interfaces for managed private circuit networks; actuators [electric switches]; add-in cards for micro computers; alarm central units; alarm control apparatus; alarm devices, other than for vehicles; alarm installations; alarm instruments, other than for vehicles; alarm management apparatus; alarm management installations; alarm monitoring systems; alarm systems; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; apparatus designed to monitor the performance of apparatus; apparatus for collecting encoded data for supply to computers; apparatus for communication; apparatus for computing; apparatus for converting digital values into graphic information; apparatus for data collection; apparatus for data communications between computers; apparatus for data entry; apparatus for data processing; apparatus for data storage; apparatus for data transmitting; apparatus for decoding encoded signals; apparatus for decoding magnetically recorded information; apparatus for digital signal processing; apparatus for digitising geometric data contained in documents; apparatus for electronic digital processing; apparatus for electronic image reception;

apparatus for electronic image transmission; apparatus for electronic information processing; apparatus for electronic mail; apparatus for electronic payment processing; apparatus for electronic publishing; apparatus for information processing; apparatus for information teleprocessing; apparatus for information transmission; apparatus for inputting information into a computer; apparatus for processing data; apparatus for processing data programmes; apparatus for processing data relating to images; apparatus for processing digital data; apparatus for processing digital video signals; apparatus for processing electronic payments; apparatus for programming data; apparatus for reading encoded data; apparatus for reading encoded information; apparatus for recording, transmission or reproduction of sound or images; apparatus for remote data transmission; apparatus for retrieving data; apparatus for searching electronic information; apparatus for sending data; apparatus for the acquisition of data; apparatus for the acquisition of information; apparatus for the communication of data; apparatus for the conversion of data; apparatus for the conversion of information; apparatus for the graphic display of data; apparatus for the processing of data; apparatus for the processing of digital information; apparatus for the processing of information; apparatus for the storage of data; apparatus for the storage of information; apparatus for the transmission of data; apparatus for verifying data on magnetically encoded cards; appliances for communication; cable installations for the transmission of data; cable management installations for data signal transmission; cards bearing data for use in data processing apparatus; cards carrying magnetically, optically or electronically recorded or encoded information; cards encoded to access computer software; cards encoded with security features for authentication purposes; cards encoded with security features for identification purposes; coding apparatus; communication devices; communication devices for linking computer networks; communication hubs; communication installations; communication instruments; communication interface units; communication modems; communication routing apparatus; communication routing instruments; communications networks; communications systems; computer apparatus; computer apparatus for filing information; computer apparatus for gathering information; computer apparatus for

use with computer networks; computer controls; computer hardware; computer hardware for telecommunications; computer heat sinks; computer housings; computer installations; computer installations incorporating a central processing unit; computer interface apparatus; computer interface devices; computer interface instruments; computer interface units; computer interfaces; computer monitoring apparatus; computer monitoring instruments; computer network adapters; computer network bridges; computer network hubs; computer network operating installations; computer network switches; computer network-attached storage (nas) hardware; computer networking apparatus; computer networking hardware; computer networking installations; computer networks; computer operated digitisers; computer peripheral apparatus; computer peripheral devices; computer peripheral equipment; computer peripherals; computers and computer peripheral devices; computing apparatus; computing apparatus for handling information; computing installations; data being electrically recorded for computers; data being magnetically recorded for computers; data being optically recorded for computers; data cables; data capture apparatus; data capture instruments; data carriers bearing machine readable programs; data carriers containing computer programs; data carriers equipped with controlling programs; data carriers incorporating computer programs written in machine code; data carriers incorporating controlling programs; data carriers incorporating programs; data carriers recorded with programs to enable data to be displayed; data collecting machines; data collection apparatus; data collection computer installations; data collection instruments; data collectors; data conversion apparatus; data encoding apparatus; data encryption apparatus; data entry apparatus; data entry terminals; data exchange units; data exit terminals; data feeders; data feeders for use with artificial intelligence; data feeders linked with artificial intelligence; data files, downloadable; data in machine readable form; data input apparatus for use with computers; data interconnecting computer installations; data processing apparatus for use in information storage; data processing apparatus for use with computers; data processing input devices; data sorting apparatus; data terminals for the validation of data; data transfer apparatus; data transfer instruments; data transmission apparatus; data transmission

installations; data transmission networks; data transmitting instruments; downloadable applications for use with mobile devices; electrical data converters; electrical data input apparatus for use with computers; electrical data input devices; electrical data output apparatus for computers; electronic instruments for monitoring systems associated with buildings; firmware; hard drives; local area computer installations; local area networks; memory devices; memory devices for use with computer apparatus; memory expansion cards; memory expansion modules; memory modules; microcomputer apparatus; microcomputer assemblies; microcomputers; microcomputing apparatus; microcomputing instruments; microelectronic components; microprocessors; minicomputers; multiplexers; multiplexers for recording data; multiplexers for use in the alternate transmission of voice signals; network management apparatus; network protection devices, electric; network protection devices, electronic; networks for the interconnection of communication systems; optical data carriers; optical data media; optical data receiving apparatus; optical data recording apparatus; optical data reproducing apparatus; optical data storage apparatus; optical data storage drives; optical data transmission systems; portable computers; power stabilisers; power supplies for computers; power switches; power system meters; power testers; power units for supplying electrical current; regulated power supply apparatus; regulating apparatus, electric; regulating transformers; remote monitoring apparatus; repeaters; secure microprocessors; secure transmission apparatus; secure transmission instruments; security tokens [encryption devices]; solid state drives; solid-state component relays; solid-state devices; solid-state electrical apparatus for storing computer programs; solid-state memories; solid-state memory devices; telecommunication exchangers; telecommunication machines and apparatus; telecommunication switches; telecommunications equipment; uninterruptible electrical power supplies; uninterruptible power supply apparatus [battery]; uninterruptible power supply instruments; units for converting information received in machine readable format; units for decoding information received in machine readable format; units for displaying information received in machine readable format; usb adapters; usb dongles [wireless network adapters]; usb flash

drives; usb hubs; usb port cards; usb web keys; utility programs for performing computer system diagnostics; webcams; wide area networks; wired communication apparatus; wireless communication apparatus; wireless transmission apparatus; work stations [computer apparatus]; work stations [computers]; communication apparatus.~35 - Advice relating to personnel management; advisory services relating to data processing; analysis of business data; analysis of market research data and statistics; automated data processing; business consultancy relating to the administration of information technology; business consultancy services relating to data processing; business data analysis; business efficiency advice; business management and administration services supporting utilisation of a global computer network; business organisation and management consultancy in the field of personnel management; business process management and consulting; business risk assessment services; business risk management consultancy; business risk management services; collating of data in computer databases; collection of data; collection of personnel information; commercial information services provided by access to a computer database; company data information services; company record-keeping; compilation and systemization of information into computer databases; compilation of business data; compilation of business statistics and commercial information; compilation of indexed addresses; compilation of information into computer databases; compiling of information into computer databases; computer data entry services; computer data processing; computerised business records keeping; computerised data processing; computerised data verification; computerised database management; computerised file management; computerised office management; consultancy relating to personnel management; consultancy relating to business efficiency; consultancy relating to data processing; consultancy relating to personnel recruitment; consultancy relating to the selection of personnel; data collection for others; data compilation for others; data entry services; data handling; data management; data management advice; data management consultancy; data preparation [office functions]; data processing; data processing for the collection of data for business purposes; data processing verification; data retrieval [office functions];

data search in computer files for others; data transcription; database management; database marketing; electronic data processing; evaluation of personnel requirements; information retrieval [office functions]; maintenance of personnel records for others; management and compilation of computerised databases; market research data collection services; market research data retrieval services; online data processing services; providing business information, also via internet, the cable network or other forms of data transfer; provision of business data; recruitment and personnel management services; registration of written communications and data; selection of staff; statistical analysis and reporting services for business purposes; systematization of data in computer databases; systemization of information into computer databases; tracking and monitoring energy consumption for others for account auditing purposes; updating and maintenance of data in computer databases; duplication of electronic documents; electronic document duplicating.~36 - Building leasing; lease financing of telecommunication equipment; leasing of buildings; leasing or renting of buildings; management of buildings; providing information relating to the rental of buildings; real estate management services relating to industrial premises; rental of buildings; financial information processing; financial information provided by electronic means; providing financial information by means of a computer database; providing on-line stock exchange information from a computer database or the internet; provision of information and data concerning stock exchanges; leasing of office space, namely leasing of rack space and purpose-built high specification space to facilitate the housing of telecommunication or computer-related equipment and services.~37 - Installation of data network apparatus; installation of data processing apparatus; installation of electric light and power systems; installation of electronic and digital connection to a call centre; installation of security and safety equipment; installation of security systems; maintenance and repair of data communications networks; maintenance and repair of data processing apparatus; maintenance and repair of hardware for data processing apparatus; maintenance and servicing of data processing installations; building and construction of real estate subdivisions and developments; building maintenance and

repair; commissioning [installation and maintenance] services; computer installation and repair; custom construction of buildings; diagnostic maintenance services; electric appliance installation and repair; electrical wiring services; installation and repair of telecommunication apparatus; installation of apparatus for air-conditioning; installation of apparatus for ventilating; installation of clean room environmental control systems; installation of clean room systems; installation of communication equipment; installation of communications network apparatus; installation of communications network instruments; installation of computer hardware; installation of hardware for computer systems; installation of computerised information systems; installation of computers; installation of electricity generators; installation of electronic apparatus; installation of energy-saving apparatus; installation of environmental control systems; installation of environmental protection systems; installation of hardware and cables for internet access; installation of hardware for computer systems; installation of heating and cooling apparatus; installation of storage facilities; installation of telecommunications apparatus; installation of ventilation and dust extraction systems; installation, maintenance and repair of computer hardware; installation, repair and maintenance of computers and computer peripherals; installing of electronic communications networks; installing of telecommunications networks; interference suppression in electrical apparatus; maintenance and repair of communications systems; maintenance and repair of computer hardware; maintenance and repair of computers; maintenance and repair of cooling appliances and installations; maintenance and repair of telecommunications apparatus; property development [building and construction services]; property maintenance; providing information relating to the repair or maintenance of telecommunication machines and apparatus; repair and maintenance of computer and telecommunications hardware; repair of electrical equipment and electrotechnical installations; repair of electronic apparatus; repair or maintenance of telecommunication machines and apparatus.~38 - Telecommunications services; advisory and consultancy services relating to wireless communications; advisory services relating to communications equipment; advisory services relating to telecommunications; automatic

transfer of digital data using telecommunications channels; broadcast transmission by satellite; broadcasting services; cable broadcasting and transmission; cable transmission of sounds, images, signals and data; call centre services [electronic call diversion and messaging]; communication between computers; communication by computer; communication by computer terminals; communication by electronic means; communication of data by means of telecommunications; communication of information by satellite; communication services between data banks; communication services by cable; communication services by electronic means; communication services by radio; communication services for the electronic transmission of data; communication services for the transmission of information; communication services over computer networks; communication services provided electronically; communication services, namely, electronic transmission of data and documents among users of computers; communication via computer terminals, by digital transmission or by satellite; communication via fibre-optic networks; communications services for accessing a database; communications services for the exchange of data in electronic form; communications services provided over the internet; communications via analogue and digital computer terminals; communications via multinational telecommunication networks; computer aided transmission of messages, data and images; computer data transmission services; computer network communication services; computerised data communications; consultancy in the field of telecommunications; consultancy services relating to communications; consultancy services relating to data communications; data broadcasting services; data communication services; data streaming; data transfer services; data transmission; data transmission and reception services via telecommunication means; data transmission for others; data transmission services; data transmission services between networked computer systems; data transmission services over telecommunications networks; data transmission via telematic networks; digital network telecommunications services; digital transmission of data; digital transmission of data via the internet; digital transmission services; digital transmission services for audio and video data; electronic communication services; electronic

communication services for the transmission of data; electronic data communications; electronic data exchange services; electronic data interchange [edi] services; electronic data transmission; electronic exchange of data stored in databases accessible via telecommunication networks; electronic transmission and retransmission of sounds, images, documents, messages and data; electronic transmission of data; electronic transmission of data and documents via computer terminals and electronic devices; electronic transmission of messages and data; fiber optic telecommunications services; geolocation services [telecommunications services]; high bit-rate data transmission services for telecommunication network operators; hire of communications apparatus; hire of electronic mail boxes; hire of telecommunications apparatus; hire of telecommunications installations; hire of telecommunications instruments; information services relating to broadcasting; information services relating to electronic communication networks; information services relating to telecommunications; internet access provider services; internet broadcasting services; internet communication services; internet portal services; internet service provider [isp] services; leasing of access time to a computer database; leasing of access time to global computer networks; leasing of telecommunication equipment; netcasting [broadcasting over a global computer network]; network transmission of sounds, images, signals and data; news agency services for electronic transmission; operating of electronic communications networks; operating of electronic communications systems; operation of cellular communications systems; operation of local area networks; operation of telecommunications apparatus; operation of telecommunications systems; providing access to computer networks; providing access to computer software; providing access to databases; providing access to information on the internet; providing access to information via data networks; providing access to information via the internet; providing access to multimedia content online; providing access to online computer databases; providing access to platforms and portals on the internet; providing access to telecommunication networks; providing access to the internet and other communications networks; providing access to web portals; providing access to websites on the internet or any

other communications network; providing electronic telecommunication connections; providing frame relay connectivity services for data transfer; providing high speed access to computer and communication networks; providing information about wireless communication; providing information, including online, about telecommunications; providing of access to telecommunication warehousing services; providing telecommunication connections to the internet or databases; providing telecommunications connections to a global communication network or databases; providing third party users with access to telecommunication infrastructure; providing user access to computer programmes in data networks; providing user access to computer software in data networks; providing user access to global computer network and online sites containing information on a wide range of topics; providing user access to global positioning signals for navigation purposes; providing virtual private network (vpn) services; provision of access to an electronic on-line network for information retrieval; provision of access to computer databases; provision of access to data on communication networks; provision of access to data or documents stored electronically in central files for remote consultation; provision of access to data via the internet; provision of communications between computers; provision of electronic communications facilities; provision of electronic data links; provision of email services; provision of telecommunication connections to a global computer network; provision of telecommunication facilities; provision of user access to the internet; remote transmission of data by means of telecommunications; rental of access time to a computer database; rental of access time to a database server; rental of access time to databases; rental of access time to global computer networks; rental of communication apparatus and implements; rental of communications equipment; rental of communications instruments; rental of communications systems; rental of data communication apparatus; rental of data communications equipment; rental of data communications installations; rental of telecommunication apparatus; rental of telecommunication devices and equipment enabling connection to networks; rental of telecommunication facilities; rental of telecommunications apparatus and installations; rental of telecommunications routers; satellite transmission of sounds,

images, signals and data; satellite transmission services; secure e-mail services; secure telecommunications [providing secure connections and access including to computers and the global computer network]; signal transmission for electronic commerce via telecommunication systems and data communication systems; streaming of audio, visual and audiovisual material via a global computer network; streaming of data; switching network services [telecommunications]; telecommunication access services; telecommunication gateway services; telecommunications; telecommunications services for the distribution of data; telecommunications services provided via fiber optic, wireless and cable networks; telecommunications services provided via the internet, intranet and extranet; transfer of data by telecommunications; transfer of information and data via online services and the internet; transferring and disseminating information and data via computer networks and the internet; transmission and distribution of data or audiovisual images via a global computer network or the internet; transmission and reception of database information via telecommunication networks; transmission of computerised data; transmission of data; transmission of data and information by computer and electronic communication means; transmission of data by cable; transmission of data by computer; transmission of data by electronic means; transmission of data via isdn lines; transmission of data via satellite; transmission of data via the internet; transmission of data, audio, video and multimedia files, including downloadable files and files streamed over a global computer network; transmission of data, messages and information; transmission of data, sound and images by satellite; transmission of database information via telecommunications networks; transmission of electronic mail; transmission of information by computer; transmission of information by data communications for assisting decision making; transmission of information by electronic communications networks; transmission of information by electronic means; transmission of information on a wide range of topics, including online and over a global computer network; transmission of information via computer networks; transmission of information via national and international networks; transmission of information via wireless or cable networks; transmission of messages, data and content via the

internet and other communications networks; transmission of stock market information with the help of telecommunication media; transmission of videos, movies, pictures, images, text, photos, games, user-generated content, audio content, and information via the internet; video broadcasting; video communication services; video conference services [telecommunications services]; video, audio and television streaming services; web portal services [providing user access to global computer network]; webcasting services; wire service; wireless broadcasting; wireless communication services; wireless electronic transmission of data; wireless pbx services; wireless transfer of data via digital mobile telephony; wireless transfer of data via the internet; wireless transfer of data via wireless application protocols.~39 - Physical storage of electronically stored data or documents; physical storage of electronically stored data, documents, digital photographs, music, images, video, and computer games; physical storage of electronically stored digital data, photographs, audio and image files; physical storage of electronically stored files and documents; physical storage of electronically stored information; providing information about temporary storage services; providing information relating to storage services; packaging and storage of goods; transport; travel arrangement; collection of documents; computerised distribution planning relating to transportation; computerised transport information services; consultancy services relating to the distribution of electricity; depository storage; electricity storage; gps navigation services; information and advisory services in relation to the distribution of energy; rental of warehouse space; vehicle routing by computer on data networks; bonded storage; bonded warehousing; warehousing.~42 - Design and development of computer hardware and software; industrial analysis, industrial research and industrial design services; quality control and authentication services; administration of mail servers; administration of user rights in computer networks; advisory services in the field of product development and quality improvement of software; advisory services relating to building design; advisory services relating to computer hardware; computer software advisory services; technical advisory services relating to computer programs; advisory services relating to energy efficiency; analysis and evaluation of product design; analysis and evaluation of

product development; analysis of telecommunication signals; application service provider [asp] services; authentication services for computer security; authentication services for electronic documents and e-mail; back-up of computer data; backup services for computer hard drive data; building design services; cloud hosting provider services; cloud storage services for electronic data; cloud storage services for electronic files; coding of messages; commissioning [testing and inspection] services; comparative analysis studies of the performance of computer systems; compilation of computer programs; compilation of data-processing programs; compilation of web pages for the internet; compression of data for electronic storage; computer advisory services; computer analysis; computer rental; computer code conversion for others; computer co-location services; computer consultancy; computer database design consultancy services; computer design services; computer disaster recovery planning; computer disaster recovery services; computer engineering; computer firewall services; computer forensic services; computer hardware design; computer hardware development; computer leasing; computer network configuration services; computer network design for others; computer network services; computer performance testing; computer program advisory services; computer program maintenance services; computer program updating services; computer project management in the field of edp; computer research services; computer security consultancy; computer security engineering; computer security services [design and development of secure computer hardware, software and systems]; computer security services [programming and software installation, repair and maintenance services]; computer security services [testing and risk assessment of computer networks]; computer security services for protection against illegal network access; computer security services in the nature of administering digital certificates; computer security threat analysis for protecting data; computer services in the nature of hosting web sites for others; computer software advisory services; computer software development; computer software installation and maintenance; computer software integration; computer software programming services; computer software repair; computer software research; computer software technical support services; computer software updating services;

computer systems design; computer systems development; computer time-sharing services; computer virus protection services; computerised business information storage; computerised communication network security; computerised data storage services; configuration of computer firmware; configuration of computer networks by software; configuration of computer software; configuration of computer systems and networks; consultancy in the field of technological design; consultancy in the field of technological research; creating of computer programs; creating programmes for data processing; creating, maintaining, and updating computer software; cross-platform conversion of digital content into other forms of digital content; cryptocurrency mining; cryptomining; customization of computer software; cybersecurity consultancy; data conversion of computer programs and data, not physical conversion; data conversion of electronic information; data migration services; data mining; data security services [firewalls]; database design and development; debugging computer software for others; decoding of data; design and development of computer firmware; design and development of computer peripherals; design and development of computer software; design and development of electronic database software; design and development of energy distribution networks; design and development of energy management software; design and development of internet security programs; design and development of wireless computer networks; design and development of wireless data transmission apparatus, instruments and equipment; design and planning services relating to telecommunication equipment; design of communication systems; design of communications apparatus; design of computer cluster configurations; design of computer codes; design of computer databases; design of computer hardware; design of computer languages; design of computer peripherals; design of computers; design of diagnostic apparatus and equipment; design of information systems; design of telecommunications apparatus and equipment; design of telecommunications installations; maintenance, development and updating of computer software; developing data feed formats featuring user-defined information; developing of driver and operating system software; development and creation of computer programmes for data processing; development and

maintenance of computer database software; development of computer based networks; development of computer codes; development of computer hardware; development of computer programs; development of computer software; development of computer software application solutions; development of computer systems; development of computers; development of data processing programs by order of third parties; development of energy and power management systems; development of programmes for data processing; development of software; development of software for secure network operations; development of systems for the processing of data; development of systems for the storage of data; development of systems for the transmission of data; development services in the field of computer software and advisory services relating thereto; development, maintenance and updating of a telecommunication network search engine; development, updating and maintenance of software and database systems; diagnosis of computer hardware problems through the use of software; diagnosis of faults in computer software; digital compression of computer data; digital signature verification services [electronic cryptology services]; digital watermarking; digitization of documents [scanning]; disaster recovery services for computer systems; disaster recovery services for data communications systems; document data transfer from one computer format to another; editing of computer programs; electronic data backup services; electronic data storage services; electronic monitoring services being it security services in the nature of protection and recovery of computer data; electronic monitoring services for computer security services for protection against illegal network access; electronic monitoring services for computer security threat analysis for protecting data; electronic signature verification services [electronic cryptology services]; electronic site authoring; electronic storage of data; electronic storage of digital audio files; electronic storage of digital images; electronic storage of digital music; electronic storage of digital photographs; electronic storage of digital video files; electronic storage of documents and archived e-mails; electronic storage of files and documents; electronic storage of images; electronic storage of videos; electronic storage services for archiving databases, images and other electronic data; electronic

storage services for archiving electronic data; engineering services in the field of communications technology; engineering services relating to computer programming; hiring of data processing apparatus; hosting a website for the electronic storage of digital photographs and videos; hosting an online website for creating and hosting micro websites for businesses; hosting and rental of memory space for websites; hosting internet sites for others; hosting memory space on the internet; hosting of computerized data, files, applications and information; hosting of customized web pages; hosting of databases; hosting of digital content on the internet; hosting of e-commerce platforms on the internet; hosting of platforms on the internet; hosting of software as a service [saas]; hosting of software for use in library management; hosting of web portals; hosting of weblogs; hosting of websites; hosting online web facilities for others; hosting the web sites of others on a computer server for a global computer network; implementation of computer programs in networks; information security consultancy; providing technical information relating to computers; information services relating to information technology; information technology services; information technology services provided on an outsourcing basis; infrastructure as a service [iaas]; installation and maintenance of computer software; installation and maintenance of database software; installation of computer programs; installation of computer software; installation of database software; installation of firmware; installation of internet access software; installation of middleware; installation of software; installation, maintenance and repair of computer software; installation, maintenance and repair of software for computer systems; installation, maintenance and updating of computer software; installation, maintenance and updating of database software; installation, maintenance, updating and upgrading of computer software; installation, repair and maintenance of computer software; installation, repair and maintenance of firmware; installation, repair and maintenance of middleware; integration of computer systems and networks; internet security consultancy; leasing computer facilities; leasing of computer apparatus; leasing of computer equipment; leasing of computer hardware; leasing of computer programs; leasing of computer software; leasing of computers; location of utility lines [mapping services]; maintenance and repair of

software; maintenance and updating of software for communication systems; maintenance of computer software relating to computer security and prevention of computer risks; maintenance of software; mapping services; modifying of computer programs; monitoring of computer systems by remote access; monitoring of computer systems for detecting unauthorized access or data breach; monitoring of computer systems to detect breakdowns; monitoring of telecommunication signals; network security services [testing and risk assessment of electronic networks]; off-site data backup; online data storage; online provision of web-based applications; online provision of web-based software; outsource service providers in the field of information technology; packaging design; preparation of reports relating to computer programs; preparation of reports relating to computers; preparation of technical reports; preparation of technical studies; preparation of technological reports; preparation of technological research reports; product design; product research and development; professional consultancy relating to computer security; programming and software installation, repair and maintenance services; programming of computer software for evaluation and calculation of data; programming of computer software for reading, transmitting and organising data; programming of data processing programs; programming of edp software; programming of energy management software; programming of internet security programs; programming of operating software for accessing and using a cloud computing network; programming of operating software for computer networks and servers; programming of software for database management; programming of software for importing and managing data; programming of telecommunications software; providing computer facilities for the electronic storage of digital data; providing electronic memory space on the internet; providing information about the design and development of computer software, systems and networks; providing information in the field of computer software design; providing information in the field of computer software development; providing information, including online, about design and development of computer hardware and software; providing user authentication services using single sign-on technology for online software applications; providing virtual computer environments through cloud

computing; providing virtual computer systems through cloud computing; provision of online non-downloadable software; reconstitution of databases; reconstruction of database systems for others; recording data relating to energy consumption in buildings; recovery of computer data; remote computer backup services; remote server administration; rental and maintenance of computer software; rental of a database server to third parties; rental of application software; rental of computer apparatus; rental of computer database software; rental of computer equipment; rental of computer firmware; rental of computer hardware and computer peripherals; rental of computer middleware; rental of computer software and programs; rental of computers and computer software; rental of computers for data processing; rental of data carriers; rental of data centre facilities; rental of data processing apparatus; rental of data processing programs; rental of data processing systems; rental of database management software; rental of information processing apparatus; rental of internet security programs; rental of operating software for computer networks and servers; rental of server memory space; rental of software; rental of software for data processing; rental of software for importing and managing data; repair of computer software; repair of damaged computer programs; research and development of computer software; research in the field of computer programs and software; research in the field of data processing technology; research in the field of information technology; research in the field of telecommunications technology; research relating to data processing; research in the field of computer security; research in the field of internet security; research in the field of telecommunication network security; research relating to technology; research relating to telecommunication; research relating to the development of computer programs and software; research, development, design and upgrading of computer software; security assessment services for computer networks; security risk assessment services relating to computer systems; server administration; server hosting; services for maintenance of computer software; services for reproducing computer programs; software authoring; software creation; software engineering; software engineering services for data processing; software maintenance services; software research; technical advisory services relating to computer

programs; technical data analysis services; technical design and planning of telecommunications equipment; technical design and planning of telecommunications networks; technical design services relating to cooling appliances and installations; technological analysis relating to energy and power needs of others; technology consultation in the field of artificial intelligence; telecommunication network security consultancy; telecommunications engineering; telecommunications technology consultancy; temporary electronic storage of information and data; testing of computer installations; testing of computer programs; testing of computer software; testing, analysis and monitoring of telecommunication signals; translation of computer programs; troubleshooting in the nature of diagnosing server problems; troubleshooting of computer software problems; updating and design of computer software; updating and maintenance of computer software; updating of computer programs; updating of computer software relating to computer security and prevention of computer risks; updating of software; updating of software for data processing; upgrading and maintenance of computer software; user authentication services using blockchain technology; user authentication services using single sign-on technology for online software applications; verification of personal identification [computer security]; writing and updating computer software; writing of computer code; writing of computer programs; writing of data processing programs; wireless communications technology consultancy.

7 - Washing machines; spin dryers; combined washing and drying apparatus; dishwashers and washing-up machines; electrical kitchen appliances and devices for treating and processing foodstuffs; electric blenders; electric crushing machines; electric mixing and kneading devices; electric pressing machines; electric juicers and juice centrifuges; electric juice extractors; electric cutting apparatus; electric knives; knife sharpeners (machines); tin openers (electric); cutters (machines); choppers (electric); electromechanical apparatus for use in the kitchen, not included in other classes; electric mixers for household use; food processors; electric coffee grinders; choppers and mincers, other than hand-operated; electric meat grinders; vacuum cleaners and handheld vacuum cleaners and their components namely dust filters, vacuum cleaner bags, vacuum cleaner hoses, vacuum cleaner brushes and vacuum cleaner nozzles; machines and machine tools for treatment of materials; electric machines and apparatus for treating laundry and clothing; sewing machines; steam presses; electric ironing machines; electric ironing machines for textile articles; electric ironing machines for clothing; electric motor-driven tools; electric machines and apparatus for cleaning; electric polishing

machines for floors; electric carpet beaters and cleaners; window cleaning devices; steam cleaners; electric shoe polishers; condensers.~8 - Electric flat irons; non-electric irons; clothes irons; temperature controlled electric flat irons; electric steam irons; steam generator irons; hand-operated hygienic and beauty implements for humans, namely hair styling appliances, manicure and pedicure tools; razors; beard and moustache trimmers; depilation appliances; hair cutting and removal implements.~9 - Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signaling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; information technology and audio-visual, multimedia and photographic devices; mechanisms for coin-operated apparatus; cash registers; calculating devices; apparatus and instruments for switching or transforming electricity; apparatus and instruments for controlling the distribution or use of electricity; apparatus and instruments for the collection, conduction, distribution, accumulation, conversion, storage, regulation and management of electricity; electric control devices for energy management; electrical sockets; apparatus and instruments for recording, receiving, amplifying, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, blank digital or analogue recording and storage media; computer peripheral devices; computer networking and data communication equipment; data-processing equipment; computers; laptops; tablets [computers]; scanners; printers; monitors; computer peripherals; data-processing apparatus and instruments; software applications; computer software and applications for mobile telephones and computers; displays; LCD displays; LED displays; interactive displays; digital signage displays; display devices; electronic interactive whiteboards; interactive touchscreen terminals; instrument clusters for use in vehicles namely electric and electronic control panels; passenger screens for use in vehicles; audiovisual entertainment systems and information systems for use in vehicles; telecommunication apparatus for sharing data and GPS locations; electronic control units (so-called ECU's); electronic control modules (so-called EMU's); electronic control units (so-called ECU's) and control modules (SO called EMU's) in particular for the automotive industry and

means of transport; connected devices, namely onboard computers and computer hardware modules for vehicles that enable the vehicle to communicate with other devices and vehicles over a network, and computer hardware modules for use with the Internet of things (IoT), that can connect to other devices or networks via wired or wireless protocols; computer software and application software for connecting, operating, and managing networked devices, appliances, machinery and systems in the Internet of things (IoT); electronic apparatus incorporating artificial intelligence software; wireless controllers to monitor and control the functioning of other electronic devices; DC/DC converter; electronic currency converters; AC/DC converters; DC/AC converters; electric power units; on board chargers for use in vehicles backup batteries; backup batteries for the telecommunication sector; batteries for telecommunication energy infrastructure; batteries that have software or embedded system support software to monitor battery specifications and performance during operation; hybrid batteries that can be connected both solar photovoltaic and city grid; batteries that can compatibility working with alternative current electric vehicle chargers; hybrid batteries that can store generated energy from solar photovoltaic; batteries that have embedded software solutions for use with the Internet of things (IoT) with the purpose of measuring use of energy and billing the costs of the energy used; all in one batteries systems that have power conversion system, air cooling heating, ventilating and air conditioning system, static transfer switches, and maximum power point tracking; battery systems with embedded software and hardware modules for the usage of arbitrage, backup, peak shaving and micro building applications; containerized energy storage systems; battery systems that have liquid cooling system; battery systems that can be integrated with renewable sources such as, solar plants, wind plants; battery systems that can be integrated with transmission and distribution of city grid; downloadable software for management, monitoring, analysis and maintenance of batteries of electric bikes; downloadable software providing real time status of batteries of electric bikes; downloadable software for providing status of batteries of electric bikes to third parties via telecommunication networks; battery chargers for use with electric bikes; batteries for electric bikes; television and radio apparatus and

instruments; televisions; satellite receivers; digital satellite receivers; digital terrestrial receivers; record players; compact disc players; tape recorders; cassette players; video recorders; DVD (digital video disc) players, receivers and recorders; DVB (digital video broadcasting) players, receivers and recorders; set-top boxes; batteries; electric cables and wires; telecommunication apparatus and instruments; telephones; battery chargers for use with telephones; mobile telecommunication apparatus; mobile telephones; battery chargers for use with mobile telephones; electric cleaning apparatus (not included in other classes); electronic cleaning apparatus for magnetic and optical data media; bathroom scales; kitchen scales; thermostats; thermometers for ovens; timers for automatic apparatus; electric timers; remote control apparatus; charging apparatus; charging apparatus for electric vehicles; charging stations for electric vehicles; energy transforming apparatus; computer e-commerce software to allow users to conduct electronic business transactions in online marketplaces via a global computer network; debit cards (encoded or magnetic); encoded or magnetic cards, including credit cards and debit cards; payment cards (encoded or magnetic); cards for use in connection with sales and promotional incentive and loyalty schemes and promotional services; payment terminals.~11 - Apparatus for heating, cooling, water supply and ventilating; refrigerating devices and freezing devices; refrigerators; freezer cabinets and freezer chests and fridge-freezer combinations; deep freezers; ice cream making machines; wine refrigerators; drying apparatus; tumble dryers; laundry dryers; electric extractor filters and extractor hoods; cooker hoods; exhaust hoods for kitchens; extractor hoods for kitchens; household and kitchen apparatus, instruments and installations for baking, roasting, cooking and/or heating food and beverages; cookers; kitchen stoves; cooking appliances; cooking plates; frying apparatus; roasting apparatus; grilling apparatus; toasting apparatus; defrosting apparatus and warming equipment; microwave ovens (cooking apparatus), ovens and combination microwaves; electric pressure cookers; immersion heaters; bread toasters and sandwich toasters; electric apparatus for the preparation of hot and cold drinks; electric coffee machines; electric espresso coffee machines; electric coffee percolators; electric tea machines; electric tea makers; electric samovars; apparatus for heating milk; milk

coolers; apparatus for making foam while heating milk; electric egg cookers and boilers for household use; electric appliances for making yoghurt; hobs; air fryers; electric cooktops; electric cooking steamer; electric slow cookers; electric bread-making machines; automatic bread-making machines for household purposes; electric toasters; electric heating and cooling apparatus for dispensing hot and cold beverages; water heaters; water heaters for household use; electric kettles; electric ice-makers; lamps; lights; infrared lamps; mirror reflectors for lighting apparatus; light diffusing apparatus; solar light; solar lamps; led lamps; led lighting apparatus; luminaries; steam-generating apparatus; apparatus for steam generating; air conditioning installations; water supply installations; water dispensers; electric and electronic apparatus and installations for water purification and water treatment; boilers; electrical water boilers; hot water boilers; water treatment boilers; humidifiers; water coolers and heaters; ventilation installations and systems consisting of ventilation installations for buildings; ventilation apparatus; ventilators; heating apparatus; air-conditioning apparatus; heating units; apparatus for improving air quality; air filtering installations; fans; personal heating and drying implements; sun tanning appliances; heating cushions and electric blankets not for medical use; appliances for bathing the feet; storage units specially adapted for thermal energy and heat accumulators; heat pumps; solar thermal collectors for heating; solar thermal collectors for heat generation; solar energy powered heating installations; solar energy powered ventilation apparatus; solar heating panels; regenerative heat generators; residential heat pumps; storage water heaters; thermosiphon installations; thermosiphon boilers; water heaters used also as heating system, thermosiphon, namely refers to a method of passive heat exchange based on natural convection which circulates liquid in a vertical closed-loop circuit without requiring a conventional pump.~35 - Advertising; business management; business administration; business consultancy; office functions; demonstration of goods; sales promotion for others; presentation of goods on communication media, for retail purposes; commercial information and advice for consumers [consumer advice shop]; price comparison services; management of customer loyalty, incentive or promotional schemes; organization, operation and supervision of sales and promotional incentive

schemes; online trading services to facilitate the sale of goods and services by others via a computer network; provision of an online marketplace for buyers and sellers of goods and services; business advice and consultancy relating to franchising; compilation of business information into computer databases; organization of exhibitions and trade fairs for commercial or advertising purposes; the bringing together, for the benefit of others, of a variety of goods, namely, washing machines, spin dryers, combined washing and drying apparatus, dishwashers and washing-up machines, electrical kitchen appliances and devices for treating and processing foodstuffs, electric blenders, electric crushing machines, electric mixing and kneading devices, electric pressing machines, electric juicers and juice centrifuges, electric juice extractors, electric cutting apparatus, electric knives, knife sharpeners (machines), tin openers (electric), cutters (machines), choppers (electric), electromechanical apparatus for use in the kitchen, not included in other classes, electric mixers for household use, food processors, electric coffee grinders, choppers and mincers, other than hand-operated, electric meat grinders, vacuum cleaners and handheld vacuum cleaners and their components namely dust filters, vacuum cleaner bags, vacuum cleaner hoses, vacuum cleaner brushes and vacuum cleaner nozzles machines and machine tools for treatment of materials, electric machines and apparatus for treating laundry and clothing, sewing machines, steam presses, electric ironing machines, electric ironing machines for textile articles, electric ironing machines for clothing, electric motor-driven tools, electric machines and apparatus for cleaning electric polishing machines for floors, electric carpet beaters and cleaners, window cleaning devices, steam cleaners, electric shoe polishers, condensers; the bringing together, for the benefit of others, of a variety of goods, namely, electric flat irons, non-electric irons, clothes irons, temperature controlled electric flat irons, electric steam irons, steam generator irons, hand-operated hygienic and beauty implements for humans, namely hair styling appliances, manicure and pedicure tools, razors, beard and moustache trimmers, depilation appliances, hair cutting and removal implements; the bringing together, for the benefit of others, of a variety of goods, namely, scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring,

signaling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments, information technology and audio-visual, multimedia and photographic devices, mechanisms for coin-operated apparatus, cash registers, calculating devices, apparatus and instruments for switching or transforming electricity, apparatus and instruments for controlling the distribution or use of electricity, apparatus and instruments for the collection, conduction, distribution, accumulation, conversion, storage, regulation and management of electricity, electric control devices for energy management, electrical sockets, apparatus and instruments for recording, receiving, amplifying, transmitting, reproducing or processing sound, images or data, recorded and downloadable media, blank digital or analogue recording and storage media, computer peripheral devices, computer networking and data communication equipment, data-processing equipment, computers; the bringing together, for the benefit of others, of a variety of goods, namely, laptops, tablets [computers], scanners, printers, monitors, computer peripherals, data-processing apparatus and instruments, software applications, computer software and applications for mobile telephones and computers, displays, LCD displays, LED displays, interactive displays, digital signage displays, display devices, electronic interactive whiteboards, interactive touchscreen terminals, instrument clusters for use in vehicles, passenger screens for use in vehicles, audiovisual entertainment systems and information systems for use in vehicles, telecommunication apparatus for sharing data and GPS locations, electronic control units (so-called ECU's), electronic control modules (so-called EMU's), electronic control units (so-called ECU's) and control modules (SO called EMU's) in particular for the automotive industry and means of transport, connected devices, namely onboard computers and computer hardware modules for vehicles that enable the vehicle to communicate with other devices and vehicles over a network, and computer hardware modules for use with the Internet of things (IoT), that can connect to other devices or networks via wired or wireless protocols, computer software and application software for connecting, operating, and managing networked devices, appliances, machinery and systems in the Internet of things (IoT), electronic apparatus incorporating artificial intelligence software, wireless controllers to monitor and control the

functioning of other electronic devices, DC/DC converter, electronic currency converters, AC/DC converters, DC/AC converters, electric power units, on board chargers for use in vehicles backup batteries, backup batteries for the telecommunication sector, batteries for telecommunication energy infrastructure, batteries that have software or embedded system support software to monitor battery specifications and performance during operation, hybrid batteries that can be connected both solar photovoltaic and city grid, batteries that can compatibility working with alternative current electric vehicle chargers, hybrid batteries that can store generated energy from solar photovoltaic; the bringing together, for the benefit of others, of a variety of goods, namely, batteries that have embedded software solutions for use with the Internet of things (IoT) with the purpose of measuring use of energy and billing the costs of the energy used, all in one batteries systems that have power conversion system, air cooling heating, ventilating and air conditioning system, static transfer switches, and maximum power point tracking, battery systems with embedded software and hardware modules for the usage of arbitrage, backup, peak shaving and micro building applications, containerized energy storage systems, battery systems that have liquid cooling system, battery systems that can be integrated with renewable sources such as, solar plants, wind plants, battery systems that can be integrated with transmission and distribution of city grid, downloadable software for management, monitoring, analysis and maintenance of batteries of electric bikes, downloadable software providing real time status of batteries of electric bikes, downloadable software for providing status of batteries of electric bikes to third parties via telecommunication networks, battery chargers for use with electric bikes, batteries for electric bikes, television and radio apparatus and instruments, televisions, satellite receivers, digital satellite receivers, digital terrestrial receivers, record players, compact disc players, tape recorders, cassette players, video recorders, DVD (digital video disc) players, receivers and recorders, DVB (digital video broadcasting) players, receivers and recorders, set-top boxes, batteries, electric cables and wires, telecommunication apparatus and instruments, telephones, battery chargers for use with telephones, mobile telecommunication apparatus, mobile telephones, battery

chargers for use with mobile telephones, electric cleaning apparatus (not included in other classes), electronic cleaning apparatus for magnetic and optical data media, bathroom scales, kitchen scales, thermostats, thermometers for ovens; the bringing together, for the benefit of others, of a variety of goods, namely, timers for automatic apparatus, electric timers, remote control apparatus, charging apparatus, charging apparatus for electric vehicles, charging stations for electric vehicles, energy transforming apparatus, computer e-commerce software to allow users to conduct electronic business transactions in online marketplaces via a global computer network, debit cards (encoded or magnetic), encoded or magnetic cards, including credit cards and debit cards, payment cards (encoded or magnetic), cards for use in connection with sales and promotional incentive and loyalty schemes and promotional services, payment terminals; the bringing together, for the benefit of others, of a variety of goods, namely, apparatus for heating, cooling, water supply and ventilating, refrigerating devices and freezing devices, refrigerators, freezer cabinets and freezer chests and fridge-freezer combinations, deep freezers, ice cream making machines, wine refrigerators, drying apparatus, tumble dryers, laundry dryers, electric extractor filters and extractor hoods, cooker hoods, exhaust hoods for kitchens, extractor hoods for kitchens, household and kitchen apparatus, instruments and installations for baking, roasting, cooking and/or heating food and beverages, cookers, kitchen stoves, cooking appliances, cooking plates, frying apparatus, roasting apparatus, grilling apparatus, toasting apparatus, defrosting apparatus and warming equipment, microwave ovens (cooking apparatus), ovens and combination microwaves, electric pressure cookers, immersion heaters, bread toasters and sandwich toasters, electric apparatus for the preparation of hot and cold drinks, electric coffee machines, electric espresso coffee machines, electric coffee percolators, electric tea machines; the bringing together, for the benefit of others, of a variety of goods, namely, electric tea makers, electric samovars, apparatus for heating milk, milk coolers, apparatus for making foam while heating milk, electric egg cookers and boilers for household use, electric appliances for making yoghurt, hobs, air fryers, electric cooktops, electric cooking steamer, electric slow cookers, electric bread-making machines, automatic bread-making machines for household

purposes, electric toasters, electric heating and cooling apparatus for dispensing hot and cold beverages, water heaters, water heaters for household use, electric kettles, electric ice-makers, lamps, lights, infrared lamps, mirror reflectors for lighting apparatus, light diffusing apparatus, solar light, solar lamps, LED lamps, LED lighting apparatus, luminaries, steam-generating apparatus, apparatus for steam installations, air installations, water supply installations, water dispensers, electric and electronic apparatus and installations for water purification and water treatment, boilers, electrical water boilers, hot water boilers, water treatment boilers, humidifiers, water coolers and heaters, ventilation installations and systems consisting of ventilation installations for buildings, ventilation apparatus, ventilators, heating apparatus, air-conditioning apparatus; the bringing together, for the benefit of others, of a variety of goods, namely, heating units, apparatus for improving air quality, air filtering installations, fans, personal heating and drying implements, sun tanning appliances, heating cushions and electric blankets not for medical use, appliances for bathing the feet, storage units specially adapted for thermal energy and heat accumulators, heat pumps, solar thermal collectors for heating, solar thermal collectors for heat generation, solar energy powered heating installations, solar energy powered ventilation apparatus, solar heating panels, regenerative heat generators, residential heat pumps, storage water heaters, thermosiphon installations, thermosiphon boilers, water heaters used also as heating system, thermosiphon, namely refers to a method of passive heat exchange based on natural convection which circulates liquid in a vertical closed-loop circuit without requiring a conventional pump; afore-mentioned services enabling customers to conveniently view and purchase those goods, such services provided by retail stores, wholesale outlets, by means of electronic media or through mail order catalogues.
