carriers; computer hardware, namely, video screens, scanners, computer printers, interfaces (data processing), readers (data processing), software (recorded programs), microprocessors, modems, monitors (hardware), computers, computer memories, computer peripherals; computer adapters; computer components; data processing equipment; data processing equipment for data and information management; semiconductors; machine-readable electronic data media; magnetic disks; disk drives; tape recorders; calculating machines; cash registers; facsimile machines; video recorders; video tapes; electric batteries; computer chips; boards for integrated circuits; computer accessories, namely, computer communication servers; computer carrying cases; computer interface boards; computer cables and computer cable parts; fax modem cards for computers; computer accessories, namely, screen filters, mouse pads, radio pagers, joysticks; electric converters, namely, digital-to-analog, analog-to-digital and step-by-step voltage switches; computer mice; integrated circuit cards and smart cards, adapters for integrated circuits and adapters for smart cards; readers for integrated circuit cards and smart cards; microcomputers; electrical power supplies; projectors (projection apparatus); remote controls for computers; inverters, surge protectors and uninterruptible power supplies; point-of-sale terminals; computer servers; computer storage devices, namely high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunication network; recorded and downloadable computer programs and software; video game software; operating system software and programs; software used for accessing a global computer network; document management software; database management software; software used for locating,

الإمارات العربية المتحدة وزارة الاقتصاد

retrieving and receiving text, electronic documents, graphics and audiovisual information on enterprise-wide internal computer networks and local and wide-area global computer networks; software used for software development and web authoring and user manuals in electronic format sold as a unit with these products; computer software for use in controlling the operation and execution of computer systems, programs, and computer networks; computer software for use in connecting disparate computer networks and systems, computer servers and storage devices; computer programs for linking computers together and for enabling computer activities across a global computer network; computer software for managing systems, software and processes that exist within an information technology environment; computer systems combining computer hardware and software for use in management and analysis of data and instruction manuals in electronic format sold with these products; cloud computing systems, namely networks integrating computer hardware and software for dynamic provisioning, virtualization and consumption metering of computer resources; recorded and downloadable cloud-computing software for deploying and managing virtual machines to a cloud computing platform; computer systems, namely, computer hardware and computer software for developing and integrating artificial intelligence, namely, machine learning, deep learning and natural language processing which are capable of collecting, organizing and analyzing data; computer systems, namely, computer hardware and computer software for integrating Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) which is capable of understanding general human queries and formulating responses; software for

الإمارات العربية المتحدة وزارة الاقتصاد

developing, building and operating blockchain applications; computer hardware and computer software for developing and testing quantum algorithms; documentation and instruction manuals recorded on machine-readable electronic data media and relating to computers or computer programs; electronic publications; electronic publications on computer media, namely, user manuals, guide books, brochures, information sheets, written presentations and teaching materials in the field of computing, computer networks, computer storage, computer operating systems, information technology, database management, cloud computing, artificial intelligence, blockchain technology and quantum computing; downloadable virtual goods and digital files; virtual reality software; computer software for use in connection with virtual and digital assets, properties, files, goods, cryptographic assets, semi-fungible tokens and non-fungible tokens (NFTs).~25 - Clothing, footwear and headwear.~35 - Advertising; Sales promotion services (for third parties); commercial business management and advice regarding commercial business management; business information; distribution of prospectuses; distribution of samples; arranging newspaper subscriptions for third parties; accounting; document reproduction; systematization of data in a central file; organization of exhibitions for commercial or advertising purposes; business management consulting services and business consulting services; business development service; analysis of market research data and statistics; computer data processing services; computer data processing services for artificial intelligence; computer data processing services for cognitive computing; computer data processing services for cloud computing; computer data processing services for blockchain technology; computer

الإمارات العربية المتحدة وزارة الاقتصاد

data processing services for data management; computer data processing services for quantum computing and quantum programming; arranging and conducting trade show exhibitions in the field of computers, computer services, information technology, artificial intelligence, cloud computing, blockchain technology, quantum computing, database management and electronic business transactions via a global computer network; business consulting services for companies regarding artificial intelligence; business consulting services for companies regarding computer systems that integrate Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) functions and capable of understanding general human queries and formulating responses; business consulting services for companies relating to cloud computing; business consulting services for companies regarding blockchain technology; business consulting services for companies regarding quantum computing, quantum programming and for developing and testing quantum algorithms; business consulting services for companies regarding information technology; analyzing and compiling business data; systemization of data in computer databases; on-line retail store or online marketplace services featuring virtual merchandise or services; business consulting services in the field of virtual and digital assets, properties, files, goods, cryptographic assets, semi-fungible tokens and non-fungible tokens (NFTs) and the metaverse.~38 - Telecommunication services; Electronic message transmission; communication by computer terminals; electronic mail services; news and information agencies; telecommunication and electronic messaging services through computer networks; computer-aided transmission of data; telecommunication services enabling

الإمارات العربية المتحدة وزارة الاقتصاد

commercial interaction via a global computer network;
providing multiple access to information, data,
communications, content, products and services via a global
network and wireless communication devices; electronic
transmission of data and documents via computer terminals;
teleconferencing and web conferencing services; providing
multiple access to global information networks for the
transfer and dissemination of a wide range of information;
providing access to online forums for transmission of
messages among computer users; providing access to
private and secured electronic communications in real time
within a computer network.~41 - Education; Entertainment;
training; organization and conducting of conferences,
seminars and congresses; organization of exhibitions for
cultural or educational purposes; production of radio and
television programs; sporting and cultural activities;
educational services, namely organization and conducting of
classes, seminars, conferences, webinars and workshops in
the field of computers, computer services, information
technology, artificial intelligence, cloud computing,
blockchain technology, quantum computing, database
management, image and audio processing technology,
global computer and telecommunication networks; training
in the field of computers, computer services, information
technology, artificial intelligence, cloud computing,
blockchain technology, quantum computing, database
management, image and audio processing technology,
global computer and telecommunication networks;
conducting entertainment exhibitions in the nature of
information technology demonstrations; entertainment
services, namely, online computer game services;
conducting entertainment exhibitions, namely, real-time
athletic competitions via a global computer network;

conducting entertainment exhibitions, namely, providing demonstrations on web-sites featuring museum exhibitions, sporting events, art gallery exhibitions, concerts, and musical recordings; editing of books and journals; show and film production; conducting of exhibitions for cultural or educational purposes; booking of seats for shows; entertainment services, namely, providing downloadable and non-downloadable digital media online, virtual and digital assets or goods, and virtual and digital experiences; educational services, namely, providing information and forums in the field of non-fungible tokens (NFTs), digital experiences, digital assets, or goods.~42 - Computer programming; Software as a service (SaaS) services featuring software for data management; software as a service (SaaS) services featuring software for cloud computing; software as a service (SaaS) services featuring software for artificial intelligence; software as a service (SaaS) services featuring software for cognitive computing; software as a service (SaaS) services featuring software for blockchain technology; software as a service (SaaS) services featuring software for quantum computing and quantum programming; software as a service (SaaS) services featuring software for constructing, analyzing and running quantum programs and quantum algorithms; software as a service (SaaS) services featuring software for developing and testing quantum algorithms; computer programming and computer consulting services for artificial intelligence; computer programming and computer consulting services for cognitive computing; computer programming and computer consulting services for information management; computer programming and computer consulting services for data management; computer programming and computer consulting services for cloud computing; computer

الإمارات العربية المتحدة وزارة الاقتصاد

programming and computer consulting services for blockchain technology; computer programming and computer consulting services for quantum computing; computer programming and computer consulting services for software as a service (SaaS); design, installation, updating and maintenance of software; computer software and hardware design for third parties and consultation services in the field of computers; technical support services, namely, troubleshooting of computer program and software problems; computer services, namely, design, creation and maintenance of websites for third parties; computer systems analysis, database and network integration, computer programming for third parties, all for use in commercial interactions over global computer networks; design of systems for interconnection of computers and software, namely, electronic connection of computers and software to each other; computer software and hardware testing services (quality and technical controls); technical project studies in the field of computer hardware and software; consultancy services in the field of computer hardware, namely consultancy regarding computing research and development; computer advice and assistance concerning Internet use; rental of computers and software; scientific and industrial research, namely research and development of new products, biological research, research in bacteriology, research in chemistry, research in beauty care, research in mechanics, geological research, technical research, pharmaceutical research, scientific research for medical purposes; information technology services; computer system integration services; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for third parties; technical support services, namely, diagnosing computer

الإمارات العربية المتحدة وزارة الاقتصاد

hardware and computer software problems; computer system design services for third parties; design of systems for interconnection of computers and computer programs, namely, integration of computer systems and computer networks; computer program and computer hardware testing services, namely testing of software, computers and servers to ensure proper functioning thereof; cloud computing services, namely, network-integrated computer hardware and software services for dynamic provisioning, virtualization and consumption metering of computer resources; providing virtual computer systems and virtual computer environments through cloud computing; design and development of software for cloud storage of data; cloud computing hosting provider services; electronic data storage and data recovery services; data security service; computing assistance by programmers; design of computer hardware for computer networks; technical support services, namely computer hardware problem solving; computing services and consulting services relating to virtual and digital assets, properties, files, goods, cryptographic assets, semi-fungible tokens and non-fungible tokens (NFTs); computer services, namely, creating an on-line virtual environment for downloadable virtual goods and services for use online and in online virtual environments; Platform as a Service (PaaS) featuring computer software platforms for buying and selling semi-fungible tokens and non-fungible tokens (NFTs).

carriers; computer hardware, namely, video screens, scanners (data processing equipment), computer printers, interfaces (data processing), readers (data processing), software (recorded programs), microprocessors, modems, monitors (hardware), computers, computer memories, computer peripherals; computer adapters; computer components; data processing equipment; data processing equipment for data and information management; semiconductors; machine-readable electronic data media; magnetic disks; disk drives; tape recorders; calculating machines; cash registers; facsimile machines; video recorders; videotapes; electric cells and electric batteries; computer chips; boards for integrated circuits; computer accessories, namely, computer communication servers; computer carrying cases; computer interface boards; computer cables and computer cable parts; fax modem cards for computers; computer accessories, namely, screen filters, mouse pads, radio pagers, joysticks; electric converters, namely, digital-to-analog, analog-to-digital and step-by-step voltage switches; computer mice; integrated circuit cards and smart cards, adapters for integrated circuits and adapters for smart cards; readers for integrated circuit cards and smart cards; microcomputers; electrical power supplies; projectors (projection apparatus); remote controls for computers; inverters, surge protectors and uninterruptible power supplies; point-of-sale terminals (payment terminals); computer servers; computer storage devices, namely high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunication network; recorded and downloadable computer programs and software; video game software; operating system software and programs; software used for accessing a global computer network; document

الإمارات العربية المتحدة وزارة الاقتصاد

management software; database management software; software used for locating, retrieving and receiving text, electronic documents, graphics and audiovisual information on enterprise-wide internal computer networks and local and wide-area global computer networks; software used for software development and web authoring and user manuals in electronic format sold as a unit with these products; computer software for use in controlling the operation and execution of computer systems, programs, and computer networks; computer software for use in connecting disparate computer networks and systems, computer servers and storage devices; computer programs for linking computers together and for enabling computer activities across a global computer network; computer software for managing systems, software and processes that exist within an information technology environment; computer systems combining computer hardware and software for use in management and analysis of data and instruction manuals in electronic format sold with these products; cloud computing systems, namely networks integrating computer hardware and software for dynamic provisioning, virtualization and consumption metering of computer resources; recorded and downloadable cloud computing software for deploying and managing virtual machines on a cloud computing platform; computer systems, namely, computer hardware and computer software for developing and integrating artificial intelligence, namely, machine learning, deep learning and natural language processing which are capable of collecting, organizing and analyzing data; computer systems, namely, computer hardware and computer software for integrating Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) which is capable of understanding general

الإمارات العربية المتحدة وزارة الاقتصاد

human queries and formulating responses; software for developing, building and operating blockchain applications; computer hardware and computer software for developing and testing quantum algorithms; documentation and instruction manuals recorded on machine-readable electronic data media and relating to computers or computer programs; electronic publications, downloadable; electronic publications on computer media, namely, user manuals, guide books, brochures, information sheets, written presentations and teaching materials in the field of computing, computer networks, computer storage, computer operating systems, information technology, database management, cloud computing, artificial intelligence, blockchain technology and quantum computing.~35 - Advertising; sales promotion services (for third parties); commercial business management and advice regarding commercial business management; business information; distribution of prospectuses; distribution of samples; arranging newspaper subscriptions for third parties; accounting; document reproduction; systematization of data in a central file; organization of exhibitions for commercial or advertising purposes; business management consulting services and business consulting services; business development service; analysis of market research data and statistics; electronic data processing; computer data processing services for artificial intelligence; computer data processing services for cognitive computing; computer data processing services for cloud computing; computer data processing services for blockchain technology; computer data processing services for data management; computer data processing services for quantum computing and quantum programming; arranging and conducting trade show exhibitions in the field of

computers, computer services, information technology, artificial intelligence, cloud computing, blockchain technology, quantum computing, database management and electronic business transactions via a global computer network; business consulting services for companies regarding artificial intelligence; business consulting services for companies regarding computer systems that integrate Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) functions and capable of understanding general human queries and formulating responses; business consulting services for companies relating to cloud computing; business consulting services for companies regarding blockchain technology; business consulting services for companies regarding quantum computing, quantum programming and for developing and testing quantum algorithms; business consulting services for companies regarding information technology; analyzing and compiling business data; systemization of data in computer databases; business management consultancy in the field of information technology; advisory services for companies relating to business organization; organizing and conducting incentive reward programs for companies and professionals in order to promote and reward company performance, productivity and recognition; organizing and conducting incentive reward programs to promote the sale of information technology; offering reward programs for companies and professionals through the distribution of loyalty points with the aim of promoting and rewarding loyalty; organizing and conducting (promotional) reward programs for customers, companies and professionals; provision of business information via a website.~42 - Computer programming; Software as a service (SaaS)

الإمارات العربية المتحدة وزارة الاقتصاد

services featuring software for data management; software as a service (SaaS) services featuring software for cloud computing; software as a service (SaaS) services featuring software for artificial intelligence; software as a service (SaaS) services featuring software for cognitive computing; software as a service (SaaS) services featuring software for blockchain technology; software as a service (SaaS) services featuring software for quantum computing and quantum programming; software as a service (SaaS) services featuring software for constructing, analyzing and running quantum programs and quantum algorithms; software as a service (SaaS) services featuring software for developing and testing quantum algorithms; computer programming and computer consulting services for artificial intelligence; computer programming and computer consulting services for cognitive computing; computer programming and computer consulting services for information management; computer programming and computer consulting services for data management; computer programming and computer consulting services for cloud computing; computer programming and computer consulting services for blockchain technology; computer programming and computer consulting services for quantum computing; computer programming and computer consulting services for software as a service (SaaS); design, installation, updating and maintenance of software; computer software and hardware design for the benefit of third parties, and professional advisory services in the field of computers; technical support services, namely, troubleshooting of computer program and software problems; computer services, namely, design, creation and maintenance of websites for third parties; computer systems analysis, database and network integration, computer programming

الإمارات العربية المتحدة وزارة الاقتصاد

for third parties, all for use in commercial interactions over global computer networks; design of systems for interconnection of computers and software, namely, electronic connection of computers and software to each other; computer software and hardware testing services (quality and technical controls); technical project studies in the field of computer hardware and software; consultancy services in the field of computer hardware, namely consultancy regarding computing research and development; computer advice and assistance concerning Internet use; rental of computers and software; scientific and industrial research, namely research and development of new products, biological research, bacteriological research, chemical research, cosmetology research, mechanical research, geological research, technological research, pharmaceutical research, scientific research for medical purposes; information technology consulting; computer system integration services; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for third parties; technical support services, namely, troubleshooting computer program problems; computer system design services for third parties; design of systems for interconnection of computers and computer programs, namely, integration of computer systems and computer networks; computer program and computer hardware testing services, namely testing of software, computers and servers to ensure proper functioning thereof; cloud computing services, namely, integrated computer hardware and network software services for dynamic provisioning, virtualization, and consumption metering of computer resources; providing virtual computer systems and virtual computer environments through cloud computing; design

الإمارات العربية المتحدة وزارة الاقتصاد

and development of software for cloud storage of data; cloud computing hosting provider services; electronic storage of electronic data and data recovery; data security service; computer support services with respect to computer programs provided by computer specialists; design of computer hardware for computer networks; providing information relating to information technology via a website; technical support services, namely computer hardware problem solving.

announces the publication of
Representation of the Mark

International Trademark Registration

No.: 1786502

Date: 2024/02/09

Holder's Name:

International Business Machines Corporation

Holder's Address:

New Orchard Road Armonk NY 10504 (US)

Class(es) :

Goods and Services:

9~35~36~42

9 - Computers; quantum computers; computer hardware and software; computer hardware and software for information technology analysis and data management; computer hardware and software for application development; computer hardware and software for cloud computing; computer hardware and software for cognitive computing; computer hardware and software for artificial intelligence; computer hardware and software for blockchain technology; computer hardware and software for quantum computing and quantum programming; computer hardware, namely, magnetic tape units (data processing),

الإمارات العربية المتحدة وزارة الاقتصاد

magnetic tapes, printed circuits, integrated circuits, computer keyboards, compact disks (audio-video), optical disks, couplers (data processing), diskettes, magnetic data carriers; computer hardware, namely, video screens, scanners (data processing equipment), computer printers, interfaces (data processing), readers (data processing), software (recorded programs), microprocessors, modems, monitors (hardware), computers, computer memories, computer peripherals; computer adapters; computer components; data processing equipment; computer apparatus for the management of data and information; semiconductors; machine-readable electronic data media; magnetic disks; disk drives; tape recorders; calculating machines; cash registers; facsimile machines; video recorders; videotapes; electric cells and electric batteries; computer chips; boards for integrated circuits; computer accessories, namely, computer communication servers; computer carrying cases; computer interface boards; computer cables and computer cable parts; fax modem cards for computers; computer accessories, namely, screen filters, mouse pads, radio pagers, joysticks; electric converters, namely, digital-to-analog, analog-to-digital and step-by-step voltage switches; computer mice; integrated circuit cards and smart cards, adapters for integrated circuits and adapters for smart cards; readers for integrated circuit cards and smart cards; microcomputers; electrical power supplies; projectors (projection apparatus); remote controls for computers; inverters, surge protectors and uninterruptible power supplies; point-of-sale terminals (payment terminals); computer servers; computer storage devices, namely high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunication network; recorded and downloadable

الإمارات العربية المتحدة وزارة الاقتصاد

computer programs and software; video game software; operating system software and programs; software used for accessing a global computer network; document management software; database management software; software used for locating, retrieving and receiving text, electronic documents, graphics and audiovisual information on enterprise-wide internal computer networks and local and wide-area global computer networks; software used for software development and web authoring and user manuals in electronic format sold as a unit with these products; computer software for use in controlling the operation and execution of computer systems, programs, and computer networks; computer software for use in connecting disparate computer networks and systems, computer servers and storage devices; computer programs for linking computers together and for enabling computer activities across a global computer network; computer software for managing systems, software and processes that exist within an information technology environment; computer systems combining computer hardware and software for use in management and analysis of data and instruction manuals in electronic format sold with these products; cloud computing systems, namely networks integrating computer hardware and software for dynamic provisioning, virtualization and consumption metering of computer resources; recorded and downloadable cloud computing software for deploying and managing virtual machines on a cloud computing platform; computer systems, namely, computer hardware and computer software for developing and integrating artificial intelligence, namely, machine learning, deep learning and natural language processing which are capable of collecting, organizing and analyzing data; computer systems, namely, computer hardware and computer software for integrating

الإمارات العربية المتحدة وزارة الاقتصاد

Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) which is capable of understanding general human queries and formulating responses; software for developing, building and operating blockchain applications; computer hardware and computer software for developing and testing quantum algorithms; documentation and instruction manuals downloadable on machine-processible electronic data media and concerning computers or computer programs; downloadable electronic publications; electronic publications downloadable on computer media, namely, user manuals, guide books, brochures, information sheets, written presentations and teaching materials in the field of computing, computer networks, computer storage, computer operating systems, information technology, database management, cloud computing, artificial intelligence, blockchain technology and quantum computing.~35 - Advertising; sales promotion services (for third parties); commercial business management and advice regarding commercial business management; business information; distribution of prospectuses; distribution of samples; arranging newspaper subscriptions for third parties; accounting; document reproduction; systematization of data in a central file; organization of exhibitions for commercial or advertising purposes; business management consulting services and business consulting services; business development service; analysis of market research data and statistics; electronic data processing; computer data processing services for artificial intelligence; computer data processing services for cognitive computing; computer data processing services for cloud computing; computer data processing services for blockchain technology; computer data processing services for data

الإمارات العربية المتحدة وزارة الاقتصاد

management; computer data processing services for quantum computing and quantum programming; arranging and conducting trade show exhibitions in the field of computers, computer services, information technology, artificial intelligence, cloud computing, blockchain technology, quantum computing, database management and electronic business transactions via a global computer network; business consulting services for companies regarding artificial intelligence; business consulting services for companies regarding computer systems that integrate Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) functions and capable of understanding general human queries and formulating responses; business consulting services for companies relating to cloud computing; business consulting services for companies regarding blockchain technology; business consulting services for companies regarding quantum computing, quantum programming and for developing and testing quantum algorithms; business consulting services for companies regarding information technology; analyzing and compiling business data; systemization of data in computer databases.~36 - Insurance services; financial services; financial affairs; services connected with monetary affairs; banking affairs; real estate affairs; hire-purchase financing services; capital investment; financial advice services; stock exchange quotations; lending (financial services); financial information and operations; financial transactions; mutual funds (investment); fund management and investment services; savings services; actuarial services; factoring; credit agency services; real estate appraisal; real property management; money lending in the field of purchase or rental of computer products and services; capital investment

consultation; financial analysis and consultation; financial management; financial planning; investment services, namely, the acquisition of real property, consultation, development and management services relating thereto; financial valuation of new technologies for others; venture capital funding services to emerging and start-up companies.~42 - Computer programming; Software as a service (SaaS) services featuring software for data management; software as a service (SaaS) services featuring software for cloud computing; software as a service (SaaS) services featuring software for artificial intelligence; software as a service (SaaS) services featuring software for cognitive computing; software as a service (SaaS) services featuring software for blockchain technology; software as a service (SaaS) services featuring software for quantum computing and quantum programming; software as a service (SaaS) services featuring software for constructing, analyzing and running quantum programs and quantum algorithms; software as a service (SaaS) services featuring software for developing and testing quantum algorithms; computer programming and computer consulting services for artificial intelligence; computer programming and computer consulting services for cognitive computing; computer programming and computer consulting services for information management; computer programming and computer consulting services for data management; computer programming and computer consulting services for cloud computing; computer programming and computer consulting services for blockchain technology; computer programming and computer consulting services for quantum computing; computer programming and computer consulting services for software as a service (SaaS); design, installation, updating and maintenance of software;

الإمارات العربية المتحدة وزارة الاقتصاد

computer software and hardware design for the benefit of third parties, and professional advisory services in the field of computers; technical support services, namely, troubleshooting of computer program and software problems; computer services, namely, design, creation and maintenance of websites for third parties; analysis of computer systems, integration of computer networks and databases, computer programming services for others, all relating to commercial interactions on global computer networks; design of systems for interconnection of computers and software, namely, electronic connection of computers and software to each other; computer software and hardware testing services (quality and technical controls); technical project studies in the field of computer hardware and software; consultancy services in the field of computer hardware, namely consultancy regarding computing research and development; computer advice and assistance concerning Internet use; rental of computers and software; scientific and industrial research, namely research and development of new products, biological research, bacteriological research, chemical research, cosmetology research, mechanical research, geological research, technological research, pharmaceutical research, scientific research for medical purposes; information technology consulting; computer system integration services; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for third parties; technical support services, namely, troubleshooting computer program problems; computer system design services for third parties; design of systems for interconnection of computers and computer programs, namely, integration of computer systems and computer networks; computer program and computer hardware

الإمارات العربية المتحدة وزارة الاقتصاد

testing services, namely testing of software, computers and servers to ensure proper functioning thereof; cloud computing services pertaining to services for computer hardware and software integrated into a network for dynamic provisioning, virtualization, and consumption metering of computer resources; providing virtual computer systems and virtual computer environments through cloud computing; design and development of software for cloud storage of data; cloud computing hosting provider services; electronic storage of electronic data and data recovery; data security service; computer support services with respect to software rendered by computer specialists; design of computer hardware for computer networks; design and development of computers; quantum computing; consulting services with respect to computer and Internet security and data encryption; technical support services, namely computer hardware problem solving.
