9~12~35~36~37~38~39~42 9 - Electronic control, measuring, sensing and monitoring systems and devices for land vehicles, parts of land vehicles, groups of land vehicles and parts of groups of land vehicles; tire pressure monitoring systems; tire pressure and temperature monitoring and measuring machines and instruments; electronic machines and apparatus for measuring, monitoring and transmitting tire pressure and temperature; sensors; monitoring and sensing devices, apparatus and installations; measuring or testing machines and instruments; telecommunication machines and apparatus; electronic machines and apparatus, namely, tire monitors; electronic machines and apparatus for technological and scientific use comprising sensors, antennas, GPS antennas, transmitters, receivers and computer software; computer software; computer software for vehicle drive information, vehicle kinetic information and tire pressure information; terminal devices for collecting information which have saving data measured by remote monitoring and transmitting saved data on demand functions; data transmitting devices for

telecommunication; surveying apparatus and instruments; measuring apparatus and instruments; checking (supervision) apparatus and instruments; signalling apparatus and instruments; telematics apparatus, namely wireless Internet devices which provide telematic services and have a cellular phone function; navigation apparatus for vehicles in the nature of on-board computers; vehicle locating, tracking and security system comprised of an antenna and radio transmitter to be placed in a vehicle; global positioning system consisting of computers, computer software, transmitters, receivers, and network devices; satellite navigational system, namely a global positioning system; land vehicle locator and recovery device programmed to use global positioning systems and cellular telecommunications; mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for collection and management of data; computer software for operating satellite navigational systems and global positioning systems, and for use of global positioning systems for tracking, locating and security of vehicles and objects; computer software for management of groups of vehicles; computer hardware and software for use with satellite and/or GPS navigation systems for navigation purposes; computer software for use with route planners, electronic maps and digital dictionaries for navigation purposes; software for travel information systems for providing or displaying travel advice on petrol stations, car parks, restaurants, car dealers and other travel and transport-related information; software for information management for the transport and traffic sector; software for viewing electronic maps; downloadable electronic maps; software for operating route planners; route planners in the form of hand-held personal computers (hand-held computers); software for operating electronic digital dictionaries; location, orientation and navigation, and global positioning systems (GPS) consisting of computers, computer software, transmitters, global positioning system receivers (GPS) and/or satellite receivers; holders for hand-held computers; satellite and radio transmitter and receiver apparatus technology, namely processors, mobile telephones and receivers; telecommunications installations, networks and apparatus, namely fixing racks for telecommunications hardware, telecommunication switches; computer terminals, all in particular for the use of navigation systems, route

planners, and/or digital maps; software used in relation to tires, vehicle parts, vehicles and groups of vehicles; software for use in relation to the replacement, repair, inspection, installation, monitoring, management, maintenance, ordering or purchase of tires, vehicle parts and vehicles; software for management and maintenance of groups of vehicles; software to indicate maintenance requirements and maintenance scheduling for vehicles; software for use in relation to subscription services provided in relation to tires and vehicle parts; electronic databases relating to tires, vehicle parts, vehicles and groups of vehicles; electronic reports relating to tires, vehicle parts, vehicles and groups of vehicles; electronic publications relating to tires, vehicle parts, vehicles and groups of vehicles; electronic sensing, checking, monitoring and communication devices used in relation to vehicles, tires, vehicle parts and groups of vehicles; electronic sensors for tires, land vehicles and land vehicle parts; parts and fittings for all the aforesaid goods; all the aforesaid goods provided in relation to land vehicles, parts of land vehicles, groups of land vehicles and parts of groups of land vehicles.~12 - Automobiles, land vehicles and their parts and fittings; tires; retreaded tires; inner tubes for vehicles; wheels for vehicles; tread rubber for vehicles; bicycles and their parts and fittings; tires for bicycles; inner tubes for bicycles; wheels for bicycles; tread rubber for retreading tires for two-wheeled motor vehicles or bicycles; adhesive rubber patches for repairing tubes or tires; rims and covers for vehicle wheels; inner tubes for vehicle wheels; shock absorbers for vehicles; pneumatic shock absorbers [air springs for land vehicles]; shaft couplings or connectors [for land vehicles]; fenders for vessels; seat cushions for vehicles; treads for vehicles [tractor type]; hydraulic hoses, not of metal, for use in vehicles; vehicle suspension components; air springs; tire valves; electric bicycles; seat pads for vehicles; air suspension; engine mount.~35 - Computerized database management in relation to land vehicles, parts of land vehicles and groups of land vehicles; business management services, namely managing groups of land vehicles, parts of land vehicles and land vehicle performance data, and associated workforce; business consulting services relating to operations management services, logistics, distribution solutions, land vehicle and land vehicle part maintenance, and optimised land vehicle driving costs; data processing

services in relation to land vehicles, parts of land vehicles and groups of land vehicles; subscription services provided in relation to land vehicles, parts of land vehicles, groups of land vehicles and parts of groups of land vehicles; subscription services provided in relation to hire, leasing, rental, replacement, repair, inspection, maintenance, monitoring, management and hire purchase of tires and land vehicle parts; information, advice and consultancy provided in relation to all the aforesaid services.~36 - Land vehicle and land vehicle parts insurance services; provision of insurance policies covering damage of land vehicle parts; financial affairs in relation to land vehicles and parts of land vehicles; monetary affairs in relation land vehicles and parts of land vehicles; land vehicle finance services; financial services relating to motor vehicles; financial services for the purchase of vehicles; hire purchase services for land vehicles and parts of land vehicles; financial packages and services in relation to land vehicles and parts of land vehicles including subscription, leasing, purchase and rental; financial services relating to the maintenance of land vehicles; finance leasing in relation to vehicles and parts of vehicles; lease purchase financing of land vehicles and parts of land vehicles; financial services relating to the provision of loans for land vehicles and parts of land vehicles; financial planning and investment advisory services relating to land vehicles and parts of land vehicles; financial analysis and consultancy in relation to land vehicles and parts of land vehicles; financial services for land vehicle parts and services; information, advice and consultancy provided in relation to all the aforesaid services.~37 - Installation, maintenance, repair and replacement of land vehicles, parts of land vehicles, groups of land vehicles and parts of groups of land vehicles; information services provided in relation to maintenance, repair, performance and replacement of tires, by telecommunication, relating to tire pressure and temperature; providing information for land vehicle and land vehicle part repair and maintenance; installation, maintenance and repair of telematics and navigation apparatus for vehicles, including apparatus for transmitting vehicle data, messages and information on carriers of all kinds; installation, maintenance and repair of apparatus for locating land vehicles, anti-theft equipment for land vehicles, electronic navigation and tracking apparatus for use in land vehicles; inspection of

tires, land vehicles and parts of land vehicles prior to or to advise on maintenance and repair; retreading of tires; maintenance, inspection, installation and replacement services provided in relation to tires and land vehicle parts; information, advice and consultancy provided in relation to all the aforesaid services.~38 - Telecommunications; telecommunications services, namely transmission and delivery of digital data all in particular for transmission apparatus, location and anti-theft systems for use in land vehicles, navigation systems for land vehicles, devices enabling wireless access to land vehicles, parts of land vehicles and associated data and computerized databases; wireless transfer of data relating to land vehicles, parts of land vehicles and groups of land vehicles and their parts; electronic transmission of data and documents via computer terminals and mobile applications relating to land vehicles, parts of land vehicles and groups of land vehicles and their parts; telecommunications services relating to relating to land vehicles, parts of land vehicles and groups of land vehicles and their parts, traffic, transport and roadworks; broadcasting services relating to traffic, land transport and roadworks, land vehicles, parts of land vehicles and groups of land vehicles and their parts; telecommunications services to send/receive messages and orders via in-vehicle driver terminals; telecommunications services to update maps, firmware and software wirelessly; secure or non-secure telecommunications services, namely transmission and delivery of digital data, in particular for land navigation systems, land vehicle route planners and the use of electronic land maps; information, advice and consultancy provided in relation to all the aforesaid services.~39 - Land transport; tracking, locating and monitoring of land vehicles; providing of navigation and information services, namely information relating to performance and wear of land vehicles and land vehicle parts, traffic, road conditions and traffic jams; provision of information relating to land travel; consultancy relating to traffic, journeys and roadworks, namely monitoring traffic and receiving alerts from land vehicles; logistics and management in the field of tracking, locating and monitoring of land vehicles; rental of land vehicles and parts of land vehicles; all the aforesaid services also provided via a communications network or a mobile telephone or wireless navigation system; logistics and management in the

field of tracking, locating and monitoring of land vehicles, parts of land vehicles and groups of land vehicles; information, advice and consultancy provided in relation to all the aforesaid services.~42 - Providing non-downloadable and online computer programs for vehicle drive information, vehicle kinetic information and tire pressure information; process, systems, component, location and condition monitoring and quality and remote control services for land vehicles, parts of land vehicles and groups of land vehicles; technological consultancy; consultancy in the field of computer software design; development and design of navigation systems and route planners; product design in the field of land vehicles, parts of land vehicles and groups of land vehicles; design of computer software and hardware for use in relation to land vehicles and parts of land vehicles; development and design of computer software for use with navigation systems and route planners and with electronic maps and digital dictionaries; development and design of telecommunications and data communications services and networks; platform as a service (PAAS); software as service (SAAS); software as a service (SAAS) services featuring software for tracking and monitoring in the field of land vehicles, parts of land vehicles and management of groups of land vehicles; design, development, updating and maintenance of software for compiling and recovering information on the location of vehicles, route reconstruction, driver activities; creation of databases on traffic and information relating to travel; product design; design, maintenance and development of computer software for use in relation to the replacement, repair, inspection, installation, monitoring, management, maintenance, ordering, purchase or hire purchase of tires, land vehicle parts, land vehicles and groups of vehicles; process, systems, component, location, and condition monitoring and remote control services for and vehicles, parts of land vehicles, and groups of land vehicles; technical analysis and consulting services related to the selection, condition, maintenance, rethreading or replacement of land vehicle tires and land vehicle parts; technical analysis and consulting services related to the selection, condition, maintenance or replacement of land vehicle component parts, spare parts and accessories; providing an online platform for managing information and data associated with tires, land vehicle parts, land vehicles and groups of land vehicles;

provision of technical reports and information in relation to tires, land vehicle parts, land vehicles and groups of land vehicles; technical data monitoring, analysis and reporting; provision of technical notifications and technical reports concerning tires, land vehicle parts, land vehicles and groups of land vehicles; information, advice and consultancy provided in relation to all the aforesaid services; technical consultancy in connection with telecommunications services; secure or non-secure storage services, namely the electronic storage of digital data, photographs, audio files, data, information and image signals, all in particular for land navigation systems, land vehicle route planners and the use of electronic land maps; providing of temporary access to non-downloadable software providing map images and geographical and itinerary information obtained with the aid of a global positioning system (GPS); providing of temporary access to non-downloadable software relating to land vehicles, parts of land vehicles and groups of land vehicles and their parts; advice, information and consultancy provided in relation to all the aforesaid services.
