Panasonic GREEN IMPACT

International Trademark Registration

No.: 1706081 Date: 2022/06/23
Holder's Name: Panasonic Holdings Corporation
Holder's Address: 1006, Oaza Kadoma, Kadoma-shi Osaka 571-8501 (JP)
Class(es) : Goods and Services:

7~9~11~35~36~41~42 7 - Power-operated hand-held tools; motors and engines, except for land vehicles; machine coupling and transmission components, except for land vehicles; agricultural implements, other than hand-operated hand tools; incubators for eggs; automatic vending machines; welding machines; industrial robots; soldering apparatus, gas-operated; soldering apparatus, electric; machines for mounting IC chips on circuit boards; semiconductor manufacturing apparatus and machines; electric arc welding machines and apparatus; cutting machines; metal cutting machines and apparatus; electronic component placement machines and apparatus; automatic machines for inserting electronic components into printed circuit boards; feeders for electronic circuit assembly machines and semiconductor manufacturing machines; electronic component feeding machines and apparatus for manufacturing electronic circuit boards; flip chip bonding machines for manufacturing semiconductors; electronic circuit assembly machines; laser processing machines and apparatus for metalworking; engraving machines; condensing installations; electric power-operated hand tools; chucks for power drills; grinding machines; saws [machines]; blades for electric power-operated hand tools; heat exchangers [parts of engines]; extracting machines; dispensing machines for packaging or wrapping medicines; printing machines; 3D printers; electric motors [other than for land vehicles]; driving motors other than for land vehicles; electricity

generators; wind-powered electricity generators; AC generators [alternators]; solar power generating apparatus; centrifugal blowers; axial flow blowers; reduction gears [other than for land vehicles]; lifting machines; elevators [lifts]; electric door openers; automatic door opening apparatus [electric]; curtain drawing devices, electrically operated; electric washing machines; washing machines [laundry]; dish washing machines; drums for metalworking machines; compressors [machines]; pumps for machines; electric pumps; mixing machines; food mixing machines; food cutting machines; food chopping machines; apparatus for use in processing food; electric hand mixers for household purposes; electric food processors for household use; electric coffee mills; electric blenders for household purposes; electric juicers for household purposes; electric meat grinders for household purposes; rice polishing machines; electric ice crushers; garbage disposals; machines and apparatus for cleaning, electric; electric vacuum cleaners; electric floor polishers; blowing machines; air suction machines; dust filters and bags for vacuum cleaners; electric dust collecting machines; apparatus for aerating water; packaging machines; filters for motors and engines; gas filters for engines; vending machines; beverage dispensers for vending machines; agricultural machines; plant growth chambers and incubators for agricultural purposes; composting machines; automatic transportation machines for supplying chemical materials in production lines; exhaust gas treatment apparatus; urethane foaming machines; painting and coating machines; apparatus for disposal and recovery of waste products and scraps; chemical processing machines for waste solvent recovery and recycling; parts and fittings for all the aforesaid goods.~9 - Scientific research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, detecting, testing, inspecting and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; mechanisms for coin-operated apparatus; cash registers, calculating devices; computers and computer peripheral devices; fire-

extinguishing apparatus; cameras; camera cases; digital still cameras; digital photo frames; batteries; dry cells; rechargeable batteries; electric accumulators; electric batteries for vehicles; electric batteries for electric vehicles; batteries for mobile phones; battery chargers; nickel cadmium batteries; nickel-metal hydride batteries; lithium batteries; lithium ion batteries; fuel cells; solar batteries; electric converters; solar panels for electricity generation; battery chargers for electric vehicles; electric wiring devices and instruments; sensor switches, electric; electrical connectors; electric switches; electric sockets; dimmer switches; time switches; magnetic switches; light dimmers; switchboards; electric switch boxes; electric cables; electricity conduits; electricity ducts; electric cable racks; lighting ballasts; circuit breakers; electro-magnetic switches; electric circuit protectors; thermal surge protectors; power distributing boxes; electrical outlets; power strips; current converters; electrical outlet covers; electrical outlet plates; antennas; aerials; distribution boards [electricity]; electric power monitoring units; control panels [electricity]; electronic indicator panels; terminals [electricity]; indicator lights; signalling lamps; modular jacks for telephones; electrical adaptors; power adapters; earth terminals; electrical power extension cords; modular jacks for networks; electric wiring ducts; warning apparatus and instruments; video intercoms; intercoms; gas leak alarms; anti-theft warning apparatus; glass break detectors; passive infrared detectors; infrared detectors; electric door chimes; radio receivers and transmitters; buzzers; fire alarms; fire detectors; emergency alarms; electric warning lights; emergency signalling lights; emergency warning lights; electric locks; video surveillance systems; access control devices; face recognition equipment for access controls; iris recognition access control systems; cameras for iris recognition security; surveillance cameras; illuminated exit signs; apparatus and instruments for remote monitoring; apparatus and instruments for remote communication; apparatus and instruments for remote controlling; radios; audio tape recorders and players; digital audio players and recorders; digital video players and recorders; portable media players; MP3 players; cases for portable media players; audio speakers; stereo tuners; amplifiers; power amplifiers; microphones; record players; record player turntables; digital voice recorders; digital sound

processors; headphones; earphones; stereos; stereo components; audio mixers; audio head cleaning apparatus; optical fiber cables; audio and video cables; wireless microphone systems comprising microphones, transmitters and receivers, speakers, amplifiers and tuners; audio equalizers; electronic audio signal processors; car audio apparatus; rearview cameras for vehicles; rearview monitors for vehicles; woofers; subwoofers; automatic disc changers; video apparatus; television sets; plasma televisions; plasma display panels; stands for televisions; mounting brackets adapted for televisions; liquid crystal display (LCD) televisions; liquid crystal displays; liquid crystal display panels; wireless liquid crystal display (LCD) monitors; organic light emitting diodes (OLED) displays; organic light emitting diodes (OLED) televisions; organic light emitting diodes (OLED); 3D televisions; audio and video player-combined televisions; video tuners; projectors; liquid crystal display (LCD) projectors; lenses for projectors; video tape recorders; video tape players; camcorders; tripods for cameras; DVD recorders; DVD players; cable television receivers; set top boxes; computer hardware and software for displaying educational materials; electronic display boards; video cameras for broadcasting; computer hardware and software for use in DVD authoring; light emitting diode displays; in-vehicle cameras; network monitoring cameras; video surveillance cameras; live image switchers; downloadable electronic publications; video monitors; video switchers; video mixers; home theater systems, comprising digital video players, audio amplifiers and audio speakers; video signal splitters; image recognition apparatus; three-dimensional eyeglasses; satellite receivers; optical disc drives; optical disc recorders; optical disc players; communication apparatus; facsimile machines; telephones; mobile phones; smartphones; smart watches; accessories for mobile phones, namely, battery packs, cases, lanyards, chargers, holders, power supply adapters, headsets, earphones and microphones; hands-free kits for mobile phones; cordless telephones; telephone answering machines; private branch exchanges; global positioning system [GPS] apparatus; transceivers; encoding and decoding apparatus; navigation apparatus for vehicles [on-board computers]; car navigation systems; digital signage; remote controllers; transmitters and receivers for remote controls; apparatus for distributing or

controlling electricity; electric power controllers; programmable logic controllers; computers; computer peripheral devices; tablet computers; mobile computers; wearable computers; hard disc drives; USB cables; image scanners; printers for computers; empty toner cartridges for computer printers; photo printers; video printers; digital color copiers; multi-function copiers; multi-function printers; electronic blackboards; electronic whiteboards; PC cards; computer keyboards; floppy disk drives; electronic card readers; electronic card readers and writers; bar code readers; bar code scanners; electronic mobile data terminals; electronic cash registers; electronic calculators; routers; monitors [computer hardware]; ethernet adapters; computer port replicators; downloadable electronic maps; downloadable image and video files; downloadable electronic data files for computer programs; pre-recorded DVDs; downloadable computer programs; computer software for processing images and graphics; scientific research and laboratory apparatus; computer hardware and software for image recognition for security and surveillance; computer hardware and software for video surveillance of factory production lines; radio-frequency modulators; computer networks; computer servers; data storage media; blank video tapes; head cleaning tapes for audio and video tape recorders and players; blank audio tapes; blank floppy discs; blank optical discs; memory cards; IC memory cards; dosimeters; counters; ammeters; thermometer, not for medical purposes; voltmeters; weighing machines; pedometers; calorie consumption monitors for use during sporting activities; exercise intensity and pitch monitors for use during sporting activities; electricity meters; gas meters; water meters; wattmeters; distance measuring apparatus; sensors; light-emitting diodes; microcomputers; semi-conductors; semiconductor memory devices; integrated circuits; oxygen regulators; signal tuners; radio frequency modulators; coin validators; coin sorters; banknote validators; banknote sorters; electric power supply modules; DC/DC converters; inductors [electricity]; capacitors; power capacitors; diodes; transistors; electric signal filters; electromagnetic noise reduction filters; optical modulators; optical transmitters; optical sensors; optical connectors; optical lenses; electric circuits; transformers; thermistors; varistors; oscillators; acousto-optic modulators; electric resistors; potentiometers;

thermal cutoffs; encoders; magneto-resistive sensors; electro-magnetic coils; electric choke coils; current sensors; touch panels; remote controls; duplexers; surface acoustic wave devices; surface acoustic wave filters; baluns; electric power distributors; wireless communication devices; radio frequency amplifiers; frequency synthesizers; laser diodes; magnetic cores; fuses; electric relays; solenoid valves [electromagnetic switches]; electric power supplies; electric inverters; electric timer switches; electric circuit boards; printed circuit boards; circuit overload protector devices; ionization apparatus for scientific or laboratory use; ionization apparatus, not for the treatment of air or water; magnetron oscillators; internal cooling fans for electronic devices; internal cooling fans for communication devices; lasers, not for medical purposes; marking gauges for joinery purposes; ultrasonic vermin repellent devices; luminous or mechanical road signs; uninterruptible electrical power supplies; time clocks [time recording devices]; power line communication adapters; temperature indicators; moisture meters; microscopes; protective helmets; riding helmets; protective helmets for sports; humanoid robots with artificial intelligence; humanoid robots with artificial intelligence for personal or hobby use; robots for laboratory use; temperature controllers; electric terminal blocks; image processors; semiconductor inspection apparatus; incubators for bacteria culture; incubators for laboratory use; plant growth chambers for laboratory use; clean benches for laboratory use; biological safety cabinets for laboratory use; computer hardware and software for VLC (visible light communications) for the transmission of electronic data, namely video, music, image, text and sound; computer hardware and software for Internet of Things (IoT); computer hardware and software for machine-to-machine (M2M) communication; computer hardware and software for text-to-speech converting; computer hardware and software for management of customer information; computer hardware and software for point-of-sales [POS] systems; computer database servers; computer groupware; downloadable cloud computing software; electronic control units for vehicles; electronic control units for vehicle batteries; head-up displays for vehicles; sonars; digital panel meters; electronic data archiving apparatus; electronic data storing apparatus; clothing for protection against accidents, irradiation and fire;

gloves for protection against accidents, irradiation and fire;
parts and fittings for all the aforesaid goods.~11 - Apparatus
and installations for lighting, heating, cooling, steam
generating, cooking, drying, ventilating, water supply and
sanitary purposes; lighting apparatus and installations;
electric light bulbs; incandescent lamps; miniature light
bulbs; flashlights [torches]; electric lanterns; motion sensitive
security lights; discharge lamps; stage lighting apparatus;
wall lights; ceiling lights; germicidal lamps; chandeliers;
downlights; desk lights; sockets for electric lights; lanterns;
spotlights; safety lamps; light diffusers; searchlights; cycle
lights; electric fans; portable searchlights; pen lights;
installations for cooking; electric cooking utensils;
microwave ovens; bread baking machines; electric kettles;
electric cooking pots; electric pressure cookers; electric rice
cookers; electric rice warmers; electric food warmers; electric
roasters; cooking ovens; toasters; electric sandwich toasters;
electric coffee makers; electric ice cream makers; electric
cooking stoves; gas cookers; induction cookers; electric
cookers; electric cooking pans; electric fermenting machines
for food products for household purposes; sinks; faucets;
electric flying pans; refrigerators; gas refrigerators; freezers;
water dispensers; heating and cooling apparatus for
dispensing hot and cold beverages; water coolers; ice makers;
cool boxes, electric; refrigerating display cabinets;
refrigerating showcases; freezing showcases; heat exchanger-
typed air cooling units; ventilating apparatus and instruments;
ventilating fans for household use; dehumidifiers;
humidifiers; air curtains; ceiling fans; ventilating fans;
electrostatic precipitators for cleaning air; electric air blowers
for air conditioning or ventilating; air purifying apparatus and
machines; filters for air purifiers; range hoods; air filtering
installations; installations for air heating; air conditioners; air
conditioners for vehicles; air filters for air conditioners; heat
exchangers, not parts of machines, for air conditioning;
electrically heated carpets; electric space heaters; electric
blankets, not for medical purposes; electric radiant heaters;
hot-water space heating apparatus; electric heating apparatus;
electric foot warmers; floor heating apparatus; heaters for
vehicles; electric water heaters; gas fired heaters; water
heaters; gas water heaters; heat pumps; solar water heaters;
waste water treatment apparatus; water supply installations;
watering installations, automatic; sanitary installations and

apparatus; toilet stool units with a washing water squirter; sauna apparatus; showers; shower apparatus; shower heads; water boilers; bathtubs; bathroom installations; bathtub jets; whirlpool baths; toilets; toilet bowls; water ionizers; bidets; portable toilets; portable bidets; wash-hand basins [parts of sanitary installations]; sterilizers; water softening apparatus; water purifying apparatus; drying apparatus; clothes drying machines; electric clothes drying machines; electric hand dryers; electric hair dryers; electric dish dryers; dish dryers; electric hair steamers; steam facial apparatus [saunas]; electric facial pore cleaning instruments; electric autoclaves; facial saunas; fabric steamers; watering machines for agricultural purposes; fog generators for air conditioning, purifying and sterilising purposes; ventilation hoods; air deodorizing apparatus; apparatus for generating ultrapure water; cooling water circulation apparatus; hazardous liquid treatment apparatus; air nozzles for air conditioning; thermal incineration installations; waste liquid solvent treatment recovery and recycling installations; wash-hand bowls [parts of sanitary installations]; automatic temperature regulators for central heating radiators; fan coil units for air conditioning; ionisation apparatus for the treatment of air or water; ozone water generators; refrigerating containers; freezing containers; coffee roasters; parts and fittings for all the aforesaid goods.~35 - Advertising; business management, organization and administration; office functions; providing information concerning commercial sales; business information; commercial information agencies; rental of photocopying machines; publicity material rental; rental of vending machines; rental of office machinery and equipment; advertising and publicity services; providing employment information; arranging newspaper subscriptions for others; providing information or news in the field of business; data processing services [office function]; commercial information and advice for consumers [consumer advice shop]; arranging subscriptions to telecommunication services for others; business information or consulting services relating to the electric energy industry; business management analysis and business consultancy; marketing research or analysis; drawing up of financial statements; personnel relocation services; business planning services and consultancy relating thereto; inventory management services and consultancy relating thereto; sales management services and consultancy

relating thereto; business process management services and consultancy relating thereto; client and customer management services and consultancy relating thereto; business management and administration of the purchase and sale of goods and consultancy relating thereto; telephone answering services and consultancy relating thereto; providing multilingual business information and consultancy relating thereto; computerized production business management services and consultancy relating thereto; energy business management and monitoring services and consultancy relating thereto; management of customer information and consultancy relating thereto; computerized data management services; design, production and distribution of advertising materials; billing services in electronic commerce transactions; business consulting services in the fields of energy consumption and usage conservation to improve energy efficiency; personnel management services and consultancy thereto; collecting, providing and analysis of customer information; business information analysis; business research and analysis of behavior patterns of customers, employees and users; business research and analysis of moving patterns of objects, cargos and materials; organization or management of exhibitions trade fairs for commercial and advertising purposes; business consultancy services in the field of agriculture; clerical employment agency services; business management in the field of environmental impact, conservation, preservation and protection, and providing information and consultancy relating thereto.~36 - Insurance services; real estate affairs; financial and monetary transaction services; issuance of credit cards; electronic payment services; electronic funds transfer services; providing information in the field of real estate; real estate brokerage; management of buildings; leasing or renting of buildings; purchase and sale of buildings; land management; leasing of land; purchase and sale of land; real estate information; real estate agency services; real estate appraisal; elderly housing agency services; financial loan consultation; insurance consultancy and information; insurance brokerage; providing funding for the development of new business and technology; venture capital funding services to emerging and start-up companies; investment trust management; venture capital fund management; financial management; advisory

services relating to financial investment; loans [financing]; financing of loans; financial advisory, management and consultancy services; financial analysis; financial appraisal services; provision of financial information relating to the finance industry involved in environmentally focused investments; charitable fund raising services to promote awareness of environmental impact, conservation, preservation and protection; providing project grants for environmental awareness projects.~41 - Education; providing of training; entertainment; entertainment information; education information; video production; providing electronic publications [not downloadable]; provision of sports facilities; physical education; beauty arts instructions; hair dressing instructions; online game services; providing recreation facilities; arranging and conducting of seminars; photography; providing information on photography; publication of books; presentation of live show performances; direction or presentation of plays; presentation of musical performance; movie showing; production of radio or television programs; information services relating to sports facilities; information services relating to amusement or entertainment facilities; information services relating to educational facilities; rental of sound recordings; rental of camcorders; rental of radio and television sets; rental of record players; rental of stadium facilities; rental of lighting apparatus for theatrical sets or television studios; film production, other than advertising films; film distribution; rental of video surveillance cameras; production and distribution of educational and instructional publications; consultancy relating to online educational services; business education services; technical training services; design, production and distribution of digital contents, in the form of electronic publications featuring news, traffic and travel information, maps and entertainment; providing online non-downloadable newspaper; consultancy relating to education in the field of healthcare; consultancy relating to video production; educational services relating to foodstuffs, nutrition and health; education and training relating to nature conservation and the environment, and providing information related thereto; arranging, conducting and organization of seminars and events in the field of environmental impact, conservation, preservation and protection; providing recreational areas in the nature of play areas for children.~42

- Scientific and technological research; industrial analysis, industrial research and industrial design services; design and development of computer hardware and software; computer software design; computer programming; maintenance of computer software; computer system design; configuration of computer systems; testing and research services relating to electric and electronic machines, apparatus and instruments; computer rental; providing temporary use of non-downloadable computer software; website design; hosting computer sites [websites]; updating of computer software; recovery of computer data; hosting and maintaining the websites of others; file sharing services, namely, hosting and maintenance of a website featuring technology enabling users to upload and download electronic files; photo sharing services, namely, hosting and maintenance of a website featuring technology enabling users to upload, view, and download digital photos; providing non-downloadable computer software for use in digital image processing; providing non-downloadable computer software for browsing information on the Internet; electronic data storage; rental of electronic storage space on servers on the Internet; rental of web servers; providing meteorological information; technological advice relating to operation of computers, automobiles and other machines, apparatus and instruments; testing and research services in the field of electricity; architectural design; designing; cartography and mapping services; hosting and maintenance of a website featuring technology enabling users to upload and download electronic files; hosting and maintenance of a website featuring technology enabling users to edit photos, create photo albums and upload photos and photo albums; hosting and maintenance of a website featuring technology that enables online electronic conference systems via cloud computing; computer software diagnostic services; providing computer systems for remote desktop solutions through cloud computing; computer system monitoring and maintenance; computer system design and installation; computer system technical support services; technological information relating to equipment inspection; technological advice relating to information security diagnosis; technological advice relating to assessment of information security vulnerability; technological information relating to data and information analysis; technological advice relating to cloud computing;

technological advice relating to business information security and protection; information technology advice relating to Internet of Things (IoT); information technology advice relating to machine-to-machine (M2M) communication; information technology advice relating to digital content distribution; technological advice relating to identification and authentication of persons; information technology advice relating to billing in electronic commerce transactions; technological information relating to remote video monitoring; technological information relating to operation and control of plant factory systems; technological information relating to operation and control of agricultural apparatus and systems; technological information relating to management and control of plant cultivation; technological information relating to operation and control of water treatment systems; technological information relating to monitoring of air contaminants and pollutants; technological advice relating to visualization and analysis of air flow; technological information relating to operation and control of autonomous-driving vehicles; design, development and maintenance of computer systems and software for remote access to computer terminals and networks; design, development and maintenance of computer systems and software for scanning, detecting and eliminating of viruses, spyware and malware; design, development and maintenance of computer systems and software for search, analysis and detection of security incidents and access logs; design, development and maintenance of computer systems and software for assessment of information security vulnerability; design, development and maintenance of computer systems and software for data and information analysis; design, development and maintenance of computer systems and software for cloud computing; design, development and maintenance of computer systems and software for sales management; design, development and maintenance of computer systems and software for computer database searches; design, development and maintenance of computer systems and software for providing storage, archiving, backup, and management of electronic data via network connection; design, development and maintenance of computer systems and software for detecting and analyzing the presence of individuals or objects; design, development and maintenance of computer systems and software for

detecting and analyzing the location, staying time and moving route of individuals or objects; design, development and maintenance of computer systems and software for computer file management; design, development and maintenance of computer systems and software for VLC (visible light communications) for the transmission of electronic data, namely video, music, image, text and sound; design, development and maintenance of computer systems and software for Internet of Things (IoT); design, development and maintenance of computer systems and software for machine-to-machine (M2M) communication; design, development and maintenance of computer systems and software for video surveillance; design, development and maintenance of computer systems and software for text-to-speech converting; design, development and maintenance of computer systems and software for remote video monitoring; design, development and maintenance of computer systems and software for management of customer information; design, development and maintenance of computer systems and software for point-of-sales [POS] systems; design, development and maintenance of computer systems and software for operation and control of plant factory systems; software as a service [SaaS]; software as a service [SaaS] for management and control of mobile computer or communication devices; software as a service [SaaS] for data storage management; software as a service [SaaS] for scanning, detecting and eliminating of viruses, spyware and malware; software as a service [SaaS] for data and information analysis; software as a service [SaaS] for cloud computing; software as a service [SaaS] for sales management; software as a service [SaaS] for client and customer management; software as a service [SaaS] for detecting and analyzing the presence of individuals or objects; software as a service [SaaS] for detecting and analyzing the location, staying time and moving route of individuals or objects; software as a service [SaaS] for Internet of Things (IoT); software as a service [SaaS] for machine-to-machine (M2M) communication; software as a service [SaaS] for digital content distribution; software as a service [SaaS] for text-to-speech converting; software as a service [SaaS] for computerized production management; software as a service [SaaS] for remote video monitoring; software as a service [SaaS] for management of customer

information; software as a service [SaaS] for point-of-sales [POS] systems; software as a service [SaaS] for virtual reality image processing; analysis of computer database performance; cloud computing; consultancy relating to cloud computing; digitization of documents [scanning]; infrastructure as a Service [IaaS]; hosting and maintenance of computer servers; design, development and hosting of computer databases; electronic storage of archived data; computer security consultancy services [firewalls]; technical verification and validation of product operation; technical verification and validation of computer networks; technical verification and validation of computer systems; product design; analysis and evaluation of products; structural analysis and evaluation of buildings; materials testing and analysing; chemical testing, analysis and evaluation services; testing and analysis of communication network connection; consultancy relating to research and development of products; research and development of new products for others; technical inspection services; consultancy relating to design, programming and maintenance of computer software; creating web sites for others; rental of computer software; technical consultancy relating to the design of computer hardware, software and computer peripherals; computer technology information; hosting platforms on the internet; installation of computer software; design of telecommunication machines and apparatus and radio communication machines and apparatus, and consultancy relating to such design; design and development of computer hardware, software and databases; rental of memory space for servers on the Internet; rental of computer servers; rental of measuring or testing machines and instruments; engineering relating to measuring or testing machines and instruments; design of measuring or testing machines and instruments; design and development of navigation systems; architectural research; research on city planning; testing or research on prevention of pollution; testing or research on electricity; testing or research on civil engineering; conducting surveys on energy consumption and providing information thereof; consultancy and information in the field of energy saving and efficiency; surveying; architectural services; construction drafting; architectural consultation; providing information in the field of architectural design; geological surveys or research; design of building interiors and exteriors;

monitoring of computer systems by remote access;
environmental assessment services; environmental
monitoring services; research in the field of environmental
impact, conservation, preservation and protection; providing
technological information about environmental impact,
conservation, preservation and protection; environmental
testing and inspection services; engineering services in the
field of environmental technology; technical consultancy in
the field of environmental science; product design services in
the field of environmental technology; platform as a service
[PaaS].

Trademark

Description:

Disclaimer:

Anyone who wishes to object to the protection of this mark in the UAE must inform the Trademarks and Intellectual Property Works Departments in writing, on the Ministry of Economy website, within 30 days from the date of issuance of this Trademark Bulletin.

The Trademarks Department
announces the publication of
Representation of the Mark

International Trademark Registration

No.: 1706155

Date: 2022/10/12

Holder's Name:

HELLENiQ ENERGY Holdings Société Anonyme

Holder's Address:

8A Chimarras str. GR-151 25 Marousi (GR)

Class(es) :

Goods and Services:

4~6~7~9~11~12~35~37~38~39~40~42

4 - Electrical energy; electrical energy from renewable sources; electrical energy from wind power; electrical energy from solar power; electrical energy from hydroelectric power; industrial oils and greases; gas oil, petrol (gasoline), gases (fuel) and fuel oil, lubricants and greases for industrial purposes; biofuels; biomass fuel; non chemical additives to motor fuel, vaporised fuel mixtures.~6 - Metal pipes; distribution networks (metal couplings); metal cables; metal wires; copper wire not insulated.~7 - Adaptors for pipes [parts of machines]; air pumps; compressed air sprayers; grease guns operated by compressed air; air condensers; filters for cleaning cooling air, for engines; machine tools, in particular motorised and hydraulic processing units for the use of rotating and oscillating tools, fixing devices for workpieces based on clamping, adhering and vacuum technology, linear and rotation axes, suction devices, tool cooling devices, safety devices and cnc control apparatus; internal combustion engine igniters; motor fans; wind generators; pumps (vacuum) [machines]; pumps [engine or engine parts]; pumps [engines]; engine shafts; power generators; handling machines [loading and unloading]; dynamos; control cables for machines, engines or motors; engines; extractors (mine); earthworks (machinery for work); electricity (generators); alternator belts; engine boilers; mines (mining machines); mines (drilling rigs); backup

generator arrays; hydraulic turbines; waste disposals.~9 - Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; mechanisms for coin-operated apparatus; cash registers, calculating devices; computers and computer peripheral devices; fire-extinguishing apparatus; charging stations for electric vehicles; electrical networks (lines) metal; optical and mechanical measuring devices.~11 - Steam generators; cooking apparatus; cooling apparatus; drying apparatus; ventilation and water supply apparatus; lighting installations; heating installations; steam production installations; heating (cooking) installations; ventilation installations; water distribution installations and sanitary facilities.~12 - Vehicles; machines for locomotion by land, air or water.~35 - Advertising; business management, organization and administration; office functions; holding company services, namely, business management services and business administration services for subsidiaries and affiliates; holding company services, namely, providing business promotion and business consultancy services for subsidiaries and affiliated companies; commercial holding company services performed for subsidiaries and affiliated companies, namely, business, operations and business risk management; holding company services, namely, business management services provided for subsidiaries and affiliated companies; holding company services, namely, providing business management, business administration, business promotion, and business consultancy services for others; commercial holding company services performed for others, namely, business, operations and business risk management; holding company services, namely, business management services provided to others; business consulting and information services; brand promotion services, namely, promoting

the goods and services of others; business management for a trade company and for a service company; energy price comparison services; electronic order processing; import-export agencies in the field of energy; procurement of contracts concerning energy supply; billing services in the field of energy; assistance and consultancy services in the field of business management of companies in the energy sector; acquisition of business information relating to company activities; business management of electric vehicle fleet.~37 - Installation, maintenance and repair of machinery; maintenance of energy consumption reduction system; installation and repair of electrical appliances; repair of electricity transmission lines; quarry exploitation; ore mining; construction of structures for the storage of natural gas; construction of structures for the production of natural gas; natural gas refueling service for motor vehicles; waste removal [cleaning]; construction of structures for the transportation of natural gas; construction services; providing of services, namely maintenance and/or regular servicing for vehicles; construction services; installation and repair services of vehicles; mining extraction, oil and gas drilling; building construction; repair of vehicles; installation services of vehicle security devices; vehicle battery charging; installation of electric vehicle charging infrastructure; maintenance of electric vehicle charging infrastructure.~38 - Telecommunications.~39 - Distribution, transport and storage of gas and/or electricity; water supplying; transport by pipeline; distribution of renewable energy; distribution of wind energy; distribution of solar energy; distribution of hydroelectric energy; transportation of waste; electricity storage; transport and distribution of natural gas and liquefied gas; waste disposal [transportation]; disposal [transport] of waste; electricity distribution services; waste removal [transport]; waste removal (transportation); distribution and transmission of electricity; distribution of electricity; storage of electricity; transport of natural gas; electricity distribution; storage of liquefied natural gas on ships; removal of waste; transport of liquefied natural gas by sea; supply of electricity; waste transport; electricity distribution via wires; public utility services in the nature of natural gas distribution; marine transport of liquefied

natural gas; waste collection; electricity supply and distribution; distribution of electricity to households; storage of waste; electricity supply services; waste storage; transport and storage of waste; electricity distribution and supply.~40 - Generation of electricity from solar energy; recycling of waste materials; treatment [recycling] of waste; recycling of waste; generation of electricity; processing of hydrocarbons; upcycling [waste recycling]; waste disposal [treatment of waste]; destruction of waste and trash; generation of electricity from wave energy; treatment of natural gas; recycling of refuse and waste; incineration of waste and trash; recycling and waste treatment; waste destruction; recycling of waste and trash; waste and trash (incineration of -); recycling of waste products; electricity generation; incineration and destruction of waste; incineration of waste; generation of electricity from geothermal energy; generation of gas and electricity; natural gas liquefaction services; waste processing [transformation]; generating of electricity; treatment of waste; waste management services [recycling]; waste processing; waste treatment; burning of refuse and waste; processing of hydrocarbon derivatives; waste and trash (recycling of -); generation of electricity from wind energy; waste recycling services; waste incineration; treatment of waste materials; processing of natural gas; treatment [transformation] of waste; waste and trash (destruction of -); production of electrical power from renewable sources; waste treatment [transformation]; electricity generating; waste materials processing; air purification and treatment of water; printing services; food and drink preservation; production of energy; oil refinery services.~42 - Scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; design and development of computer hardware and software; conducting evaluations, quality evaluation research and reports related to the fields of refinery of petrochemical and natural gas.

Blue and green.

9~16~35~37~39~40~42~45 9 - Downloadable computer software for gathering, entering, storing, tracking, reviewing, organizing and analyzing information in the field of cleaning, maintaining, repairing and sanitizing buildings, vehicles and equipment, and for generating reports and displaying information in the field of cleaning, maintaining, repairing and sanitizing buildings, vehicles and equipment; downloadable computer software for database management; downloadable computer software in the field of project management and cost management of construction projects; downloadable computer software for image processing; downloadable computer software in the field of analyzing and evaluating railway operations and railway technology; downloadable computer software for controlling, operating and managing railways and railway technology; downloadable computer software for creating searchable databases; downloadable computer software for global positioning systems; downloadable computer software for the collection, entering, storing, tracking, reviewing, organizing and analyzing statistical data in the field of operations, design and maintenance of railways and railway technology; downloadable electronic publications in the field of railways and railway technology; downloadable computer software for providing access to electronic publications in the field of railways and railway technology.~16 - Publications in the fields of railways, railway technology, construction

practices, construction supervision, construction project management, construction project cost management, management of public infrastructure, transportation, engineering, environmental management, energy use management and conservation, telecommunications and safety practices in project delivery.~35 - Business management; contract administration services in the field of transportation of goods and passengers, notably by bus, truck and car, rail, boat and air; contract administration for engineering, design and construction work; construction cost management; road traffic control and traffic management services, namely providing placement of road and traffic control personnel.~37 - Development of land, namely construction of land-based facilities; building construction supervision; renovation and restoration of buildings; consultation in building construction supervision; project management in the field of building construction; construction management [supervision] relating to roads and highways; bridge construction services; installation, renovation, repair and maintenance of wireless infrastructure systems and wireless communication systems, namely, installation, renovation, repair and maintenance of cellular phone transmission towers, cellular television towers and radio transmission towers; maintenance services, namely, maintenance of external networks utilized in infrastructures for public utility in the form of sewer management; installation of underground utility lines, namely, installation of water, sewage, oil and gas pipelines, installation of cables for cable television and internet systems, and electric and telephone lines; construction management of natural gas plants, conventional oil batteries and water handling facilities that manage pressure tapping of water, sewer lines and water leaks; pipeline construction management services; construction of transportation facilities in the framework of transportation engineering; construction project management [construction supervision] relating to transportation facilities in the framework of transportation engineering; maintenance of transportation facilities in the framework of transportation engineering; land reclamation services; road traffic control and traffic management services, namely installation and maintenance of road traffic barricades and road traffic signs; maintenance services, namely, maintaining of apparatus and installations for external networks utilized in public utility

infrastructure.~39 - Energy distribution, heat distribution, water distribution and waste collection in the context of management and supervision of public utility projects and services; infrastructure management, namely public utility services in the nature of electrical power and energy distribution, natural gas distribution, potable water distribution, collection of storm water and sanitary water, and solid waste collection; transportation services, namely, transportation planning of roads and railways; public utility services in the form of electricity distribution, natural gas distribution and water distribution; road traffic control and traffic management services, namely providing road and traffic information; road traffic control and traffic management services, namely rental of road traffic barricades and road traffic signs.~40 - Energy generation, water generation and soil, waste or water treatment services [environmental remediation services] in the framework of management and supervision of infrastructure projects.~42 - Software as a service (SaaS) featuring software for gathering, entering, storing, tracking, reviewing, organizing and analyzing information in the field of cleaning, maintaining, repairing and sanitizing buildings, vehicles and equipment, and for generating reports and displaying information in the field of cleaning, maintaining, repairing and sanitizing buildings, vehicles and equipment; software as a service (SaaS) featuring software for database management; software as a service (SaaS) featuring software in the field of project management and cost management of construction projects; software as a service (SaaS) featuring software for image processing; software as a service (SaaS) featuring software in the field of analyzing and evaluating railway operations and railway technology; software as a service (SaaS) featuring software for controlling, operating and managing railways and railway technology; software as a service (SaaS) featuring software for creating searchable databases; software as a service (SaaS) featuring software for global positioning systems; software as a service (SaaS) featuring software for the collection, entering, storing, tracking, reviewing, organizing and analyzing statistical data in the field of operations, design and maintenance of railways and railway technology; software as a service (SaaS) featuring software for providing access to electronic publications in the field of railways and railway technology; engineering services in the

fields of aerospace engineering, chemical engineering, mechanical engineering, electrical engineering, environmental engineering, geotechnical engineering, highway engineering, mining engineering, sanitation engineering, software design engineering, structural engineering, telecommunications hardware engineering, telecommunications software engineering, traffic engineering, and water management engineering; environmental assessment services; environmental monitoring services; consulting services relating to design services in urban redevelopment; engineering services relating to urban redevelopment; geological surveying; mineral and oil assaying; consultation and research in the field of geology; consulting services relating to planning of aviation infrastructure systems; material testing services; design of industrial spaces, namely, technical design, mechanical design and drafting of construction plans for buildings; engineering project management in the field of telecommunication networks, namely, in the field of fiber optic cables, telephone lines and radio, and microwave and satellite networks, for others; provision of consulting services, namely, environmental assessments to evaluate the significance of environmental hazards on municipal, suburban, rural and urban land, water and air; consultancy services relating to research in the field of environmental protection in the mining industry; consultancy and advisory services in the field of scientific research relating to the natural environment; architectural services relating to the development of land and site closures; technological consulting in the field of waste management; air quality control services; infrastructure design services, namely design, development, engineering and planning of transportation networks in the field of construction of buildings, roads and railways; preliminary and final construction planning services in the field of municipal infrastructure, namely, construction planning in the field of municipal roads and sidewalks, water distributions and treatments, land use planning, utilities and lighting; design and construction planning services in the field of road traffic control and traffic management, namely in the field of management of lane closures, short and long term traffic management projects; architectural design services in the fields of traffic management and special event traffic plans

for others; engineering services in the field of waste water and geotechnology; design of produced water retention pond and dam safety systems; energy feasibility studies; energy management services, namely, environmental assessment services and advice relating thereto for obtaining permits; engineering services, namely, design of transportation facilities in the framework of transportation engineering; engineering services, namely, engineering consultancy and advice in the field of operation of transportation facilities in the framework of transportation engineering; engineering services, namely, planning of transportation facilities in the framework of transportation engineering; pipeline construction planning services; roads and highways construction planning services.~45 - Providing information in the fields of safety namely, fire safety and life safety of construction workers and building safety codes; analysis and consultation pertaining to job site safety; consultation services in the field of the safety needs of commercial and industrial companies; consulting in the field of workplace safety; occupational safety risk assessment; safety consultation in the field of construction site inspection and assessment; reviewing standards and practices to assure compliance with environmental regulations.
