ticket dispensing terminals, automatic teller machines (ATM); electronic components used in the electronic parts of machines and apparatus: semi-conductors, electronic circuits, integrated circuits, chips [integrated circuits], diodes, transistors [electronic], magnetic heads for electronic apparatus, electronic locks, photocells, remote control apparatus for opening and closing doors, optical sensors; counters and quantity indicators for measuring the quantity of consumption, automatic time switches; clothing for protection against accidents, irradiation and fire, safety vests and life-saving apparatus and equipment; eyeglasses, sunglasses, optical lenses and cases, containers, parts and components thereof; apparatus and instruments for conducting, transforming, accumulating or controlling electricity, electric plugs, junction boxes [electricity], electric switches, circuit breakers, fuses, lighting ballasts, battery starter cables, electrical circuit boards, electric resistances, electric sockets, transformers [electricity], electrical adapters, battery chargers, electric door bells, electric and electronic cables, batteries, electric accumulators, solar panels for production of electricity; alarms and anti-theft alarms, other than for vehicles, electric bells; signalling apparatus and instruments, luminous or mechanical signs for traffic use; fire extinguishing apparatus, fire engines, fire hose and fire hose nozzles; radar apparatus, sonars, night vision apparatus and instruments; decorative magnets; metronomes.~16 - Paper and cardboard; paper and cardboard for packaging and wrapping purposes, cardboard boxes; paper towels; toilet paper; paper napkins; plastic materials for packaging and wrapping purposes; printing blocks and types; bookbinding material; printed publications; printed matter; books, magazines, newspapers, bill books, printed dispatch notes, printed vouchers, calendars; posters; photographs [printed]; paintings; stickers [stationery]; postage stamps; stationery, office stationery, instructional and teaching material [except furniture and apparatus]; writing and drawing implements; artists' materials; paper products for stationery purposes; adhesives for stationery purposes, pens, pencils, erasers, adhesive tapes for stationery purposes, cardboard cartons [artists' materials], writing paper, copying paper, paper rolls for cash registers, drawing materials, chalkboards, painting pencils, watercolors [paintings]; office requisites; paint rollers and paintbrushes for painting.~18 - Unworked or

semi-worked leather and animal skins, imitations of leather, stout leather, leather used for linings; goods made of leather, imitations of leather or other materials, designed for carrying items, included in this class; bags, wallets, boxes and trunks made of leather or stout leather; keycases, trunks [luggage], suitcases; umbrellas; parasols; sun umbrellas; walking sticks; whips; harness; saddlery; stirrups; straps of leather (saddlery).~28 - Games and toys; arcade video game machines; game apparatus and machines for use with an external display screen and monitor, including those coin-operated; toys for animals; toys for outdoor playgrounds, parks and game parks; gymnastic and sporting articles not included in other classes; fishing tackle, artificial fishing bait, decoys for hunting and fishing; artificial Christmas trees, ornaments for Christmas trees, artificial snow for Christmas trees, rattles (playthings), novelties for parties, novelty toys for playing jokes and for parties, paper party hats.~35 - Advertising, marketing and public relations; organization of exhibitions and trade fairs for commercial or advertising purposes; development of advertising concepts; provision of an online marketplace for buyers and sellers of goods and services; office functions; secretarial services; arranging newspaper subscriptions for others; compilation of statistics; rental of office machines; systemization of information into computer databases; telephone answering for unavailable subscribers, business management, business administration and business consultancy; accounting; commercial consultancy services; personnel recruitment, personnel placement, employment agencies, import-export agencies; temporary personnel placement services; auctioneering; the bringing together, for the benefit of others, of a variety of goods, namely, chemicals used in industry, science, photography, agriculture, horticulture and forestry, manures and soils, unprocessed artificial resins and unprocessed plastics, fire extinguishing compositions, adhesives not for medical, household and stationery purposes, paints, varnishes, lacquers, preservatives against rust, preservatives against deterioration of wood, thinners and binders for paints, pigments, preservatives for metals, shoe dyes, printing dyes and ink, toners, colorants for food, pharmaceuticals and beverages, raw natural resins, metals in foil and powder form for painters, decorators, printers and artists, bleaching and cleaning preparations, detergents other than for use in

manufacturing operations and for medical purposes, laundry bleach, fabric softeners for laundry use, stain removers, dishwasher detergents, perfumery, non-medicated cosmetics, fragrances, deodorants for personal use and animals, soaps, dental care preparations, dentifrices, denture polishes, tooth whitening preparations, mouth washes, not for medical purposes, abrasive preparations, emery cloth, sandpaper, pumice stone, abrasive pastes, polishing preparations for leather, vinyl, metal and wood, polishes and creams for leather, vinyl, metal and wood, wax for polishing, industrial oils and greases, cutting fluids, dust absorbing, wetting and binding compositions, solid fuels: coal, firewood, liquid and gas fuels, petrol, diesel oil, liquified petroleum gas, natural gas, fuel oil and their non-chemical additives, candles, wicks, semi-finished wax, wax and paraffin for lighting purposes, electrical energy, pharmaceutical and veterinary preparations for medical purposes, chemical preparations for medical and veterinary purposes, chemical reagents for pharmaceutical and veterinary purposes, medicated cosmetics, dietary supplements for pharmaceutical and veterinary purposes, dietary supplements, nutritional supplements, medical preparations for slimming purposes, food for babies, herbs and herbal beverages adapted for medicinal purposes, dental preparations and articles: teeth filling material, dental impression material, dental adhesives and material for repairing teeth, sanitary preparations for medical use: hygienic pads, hygienic tampons, plasters, materials for dressings, diapers made of paper and textiles for babies, adults and pets, preparations for destroying vermin, herbicides, fungicides, preparations for destroying rodents, deodorants, other than for human beings or for animals, air purifying preparations, air deodorising preparations, disinfectants, antiseptics, detergents for medical purposes, medicated soaps, disinfectant soaps, antibacterial hand lotions, ores of non-precious metal, common metals and their alloys and semi-finished products made of these materials, irons for construction, mats and stirrups of common metals for buildings, common metals in the form of plate, billet, stick, profile, sheet and sheeting, goods and materials of common metal used for storage, wrapping, packaging and sheltering purposes, containers of metal (storage, transport), buildings of metal, frames of metal for building, poles of metal for building, metal boxes, packaging containers of

metal, aluminium foil, fences made of metal, guard barriers of metal, metal tubes, storage containers of metal, metal containers for the transportation of goods, ladders of metal, goods of common metal for filtering and sifting purposes, doors, windows, shutters, jalousies and their cases and fittings of metal, non-electric cables and wires of metal, ironmongery, small hardware of metal, screws of metal, nails, bolts of metal, nuts of metal, pegs of metal, flakes of metal, pitons of metal, metal chains, furniture casters of metal, fittings of metal for furniture, industrial metal wheels, door handles of metal, window handles of metal, hinges of metal, metal latches, metal locks, metal keys for locks, metal rings for carrying keys, metal pulleys, ventilation ducts, vents, vent covers, pipes, chimney caps, manhole covers, grilles of metal for ventilation, heating, sewage, telephone, underground electricity and air conditioning installations, metal panels or boards (non-luminous and non-mechanical) used for signalling, route showing, publicity purposes, signboards of metal, advertisement columns of metal, signaling panels of metal, non-luminous and non-mechanical traffic signs of metal, pipes of metal for transportation of liquids and gas, drilling pipes of metal and their metal fittings, valves of metal, couplings of metal for pipes, elbows of metal for pipes, clips of metal for pipes, connectors of metal for pipes, safes (strong boxes) of metal, metal railway materials, metal rails, metal railway ties, railway switches, bollards of metal, floating docks of metal, mooring buoys of metal, anchors, metal moulds for casting, other than machine parts, works of art made of common metals or their alloys, trophies of common metal, metal closures, bottle caps of metal, metal poles, metal pillars, scaffolding of metal, metal stakes, metal towers, metal pallets and metal ropes for lifting, loading and transportation purposes, metal hangers, ties, straps, tapes and bands used for load-lifting and load-carrying, wheel chocks made primarily of metal, metal profile laths for vehicles for the purposes of decoration, machines, machine tools and industrial robots for processing and shaping wood, metals, glass, plastics and minerals, 3D printers, construction machines and robotic mechanisms (machines) for use in construction: bulldozers, diggers (machines), excavators, road construction and road paving machines, drilling machines, rock drilling machines, road sweeping machines, lifting, loading and transmission machines and robotic

mechanisms (machines) for lifting, loading and transmission purposes: elevators, escalators and cranes, machines and robotic mechanisms (machines) for use in agriculture and animal breeding, machines and robotic mechanisms (machines) for processing cereals, fruits, vegetables and food, machines for preparing and processing beverages, engines and motors, other than for land vehicles, parts and fittings therefor: hydraulic and pneumatic controls for engines and motors, brakes other than for vehicles, brake linings for engines, crankshafts, gearboxes, other than for land vehicles, cylinders for engines, pistons for engines, turbines, not for land vehicles, filters for engines and motors, oil, air and fuel filters for land vehicle engines, exhausts for land vehicle engines, exhaust manifolds for land vehicle engines, engine cylinders for land vehicles, engine cylinder heads for land vehicles, pistons for land vehicle engines, carburetors for land vehicles, fuel conversion apparatus for land vehicle engines, injectors for land vehicle engines, fuel economisers for land vehicle engines, pumps for land vehicle engines, valves for land vehicle engines, starter motors for land vehicles, dynamos for land vehicle engines, sparking plugs for land vehicle engines, bearings (parts of machines), roller or ball bearings, machines for mounting and detaching tires, alternators, current generators, electric generators, current generators operated with solar energy, painting machines, automatic spray guns for paint, electric, hydraulic and pneumatic punching machines and guns, electric adhesive tape dispensers [machines], electric guns for compressed gas or liquid spraying machines, electric hand drills, electric hand saws, electric jigsaw machines, spiral machines, compressed air machines, compressors (machines), vehicle washing installations, industrial robots with the abovementioned functions, electric and gas-operated welding apparatus, electric arc welding apparatus, electric soldering apparatus, electric arc cutting apparatus, electrodes for welding machines, industrial robots (machines) with the abovementioned functions, printing machines, packaging machines, filling, plugging and sealing machines, labellers (machines), sorting machines, industrial robots (machines) with the abovementioned functions, electric packing machines for plugging and sealing of plastics, machines for textile processing, sewing machines, industrial robots (machines) with the abovementioned functions, pumps other

than parts of machines or engines, fuel dispensing pumps for service stations, self-regulating fuel pumps, electric kitchen machines for chopping, grinding, crushing, mixing and mincing foodstuff, washing machines, laundry washing machines, dishwashers, spin driers (not heated), electric cleaning machines for cleaning floors, carpets or floorings, vacuum cleaners and parts thereof, automatic vending machines, galvanizing and electroplating machines, electric door openers and closers, gaskets for engines and motors, forks, spoons, knives and non-electric cutters, slicers, peelers for kitchen use, made of precious metals, side arms and blades (weapons), tools and apparatus for personal beauty care use: tools and apparatus for shaving, depilation, manicure and pedicure, electric hand implements for straightening and curling hair, scissors, hand-operated [non-electric] hand tools for the repair of machines, apparatus and vehicles and for use in construction, agriculture, horticulture and forestry, none of them being power tools, electric or non-electric irons, steam irons, handles for hand-operated hand tools, measurement apparatus and equipment for scientific, nautical, topographic, meteorologic, industrial and laboratory purposes, thermometers, not for medical purposes, barometers, ammeters, voltmeters, hygrometers, testing apparatus not for medical purposes, telescopes, periscopes, directional compasses, speed indicators, laboratory apparatus, microscopes, magnifying glasses, stills, binoculars, ovens and furnaces for laboratory experiments, apparatus for recording, transmission or reproduction of sound or images, cameras, photographic cameras, television apparatus, video recorders, CD and DVD players and recorders, MP3 players, computers, desktop computers, tablet computers, wearable technological devices (smart watches, wristbands, head-mounted devices) microphones, loudspeakers, earphones, telecommunications apparatus, apparatus for the reproduction of sound or images, computer peripheral devices, cell phones, covers for cell phones, telephone apparatus, computer printers, scanners [data processing equipment], photocopiers, magnetic and optical data carriers and computer software and programmes recorded thereto, downloadable and recordable electronic publications, encoded magnetic and optical cards, movies, tv series and video music clips recorded on magnetic, optical and electronic media, antennas, satellite antennas, amplifiers for antennas, parts of the aforementioned goods, electronic

ticket dispensing terminals, automatic teller machines (ATM), electronic components used in the electronic parts of machines and apparatus: semi-conductors, electronic circuits, integrated circuits, chips [integrated circuits], diodes, transistors [electronic], magnetic heads for electronic apparatus, electronic locks, photocells, remote control apparatus for opening and closing doors, optical sensors, counters and quantity indicators for measuring the quantity of consumption, automatic time switches, clothing for protection against accidents, irradiation and fire, safety vests and life-saving apparatus and equipment, eyeglasses, sunglasses, optical lenses and cases, containers, parts and components thereof, apparatus and instruments for conducting, transforming, accumulating or controlling electricity, electric plugs, junction boxes [electricity], electric switches, circuit breakers, fuses, lighting ballasts, battery starter cables, electrical circuit boards, electric resistances, electric sockets, transformers [electricity], electrical adapters, battery chargers, electric door bells, electric and electronic cables, batteries, electric accumulators, solar panels for production of electricity, alarms and anti-theft alarms, other than for vehicles, electric bells, signalling apparatus and instruments, luminous or mechanical signs for traffic use, fire extinguishing apparatus, fire engines, fire hose and fire hose nozzles, radar apparatus, sonars, night vision apparatus and instruments, decorative magnets, metronomes, surgical, medical, dental and veterinary apparatus and instruments, furniture especially made for medical purposes, artificial limbs and prostheses, medical orthopaedic articles: corsets for medical purposes, orthopaedic shoes, elastic bandages and supportive bandages, surgical gowns and surgical sterile sheets, adult sexual aids, condoms, babies' bottles, babies' pacifiers, teats, gum massagers for babies, bracelets and rings for medical purposes, anti-rheumatism bracelets, anti-rheumatism rings, lighting installations, lights for vehicles and interior-exterior spaces, heating installations using solid, liquid or gas fuels or electricity: central heating boilers, boilers for heating installations, radiators [heating], heat exchangers, not parts of machines, stoves, kitchen stoves, solar thermal collectors [heating], steam, gas and fog generators: steam boilers, other than parts of machines, acetylene generators, oxygen generators, nitrogen generators, installations for air-conditioning and ventilating, cooling

installations and freezers, electric and gas-powered devices, installations and apparatus for cooking, drying and boiling: cookers, electric cooking pots, electric water heaters, barbecues, electric laundry driers, hair driers, hand drying apparatus, sanitary installations: taps [faucets], shower installations, toilets [water-closets], shower and bathing cubicles, bath tubs, toilet seats, sinks, wash-hand basins [parts of sanitary installations], washers for water taps, stuffings (tap valves), water softening apparatus, water purification apparatus, water purification installations, waste water purification installations, electric bed warmers and electric blankets, not for medical use, electric pillow warmers, electric or non-electric footwarmers, hot water bottles, electrically heated socks, filters for aquariums and aquarium filtration apparatus, industrial type installations for cooking, drying and cooling purposes, pasteurizers and sterilizers, motor land vehicles, motorcycles, mopeds, engines and motors for land vehicles, clutches for land vehicles, transmissions, transmission belts and transmission chains for land vehicles, gearing for land vehicles, brakes, brake discs and brake linings for land vehicles, vehicle chassis, automobile bonnets, vehicle suspension springs, shock absorbers for automobiles, gearboxes for land vehicles, steering wheels for vehicles, rims for vehicle wheels, bicycles and their bodies, handlebars and mudguards for bicycles, vehicle bodies, tipping bodies for trucks, trailers for tractors, frigorific bodies for land vehicles, trailer hitches for vehicles, vehicle seats, head-rests for vehicle seats, safety seats for children, for vehicles, seat covers for vehicles, vehicle covers (shaped), sun-blinds adapted for vehicles, direction signals and arms for direction signals for vehicles, windscreen wipers and wiper arms for vehicles, inner tubes and tires for vehicle wheels, tubeless tires, tire-fixing sets comprised of tire patches and tire valves for vehicles, windows for vehicles, safety windows for vehicles, rearview mirrors and wing mirrors for vehicles, anti-skid chains for vehicles, luggage carriers for vehicles, bicycle and ski carriers for cars, saddles for bicycles or motorcycles, air pumps for vehicles, for inflating tires, anti-theft alarms for vehicles, horns for vehicles, safety belts for vehicle seats, air bags (safety devices for automobiles), baby carriages, wheelchairs, pushchairs, wheelbarrows, shopping carts, single or multi-wheeled wheelbarrows, shopping trolleys, grocery carts,

handling carts, rail vehicles, locomotives, trains, trams, waggons, cable cars, chairlifts, vehicles for locomotion by water and their parts, other than their motors and engines, vehicles for locomotion by air and their parts, other than their motors and engines, firearms, air pistols (weapons), spring-loaded firearms, adapted cases and shoulder straps therefor, heavy weapons, mortars and rockets, fireworks, sprays for personal defence purposes, jewellery, imitation jewellery, gold, precious stones and jewellery made thereof, cufflinks, tie pins, statuettes and figurines of precious metal, clocks, watches and chronometrical instruments, chronometers and their parts, watch straps, trophies made of precious metal, rosaries, musical instruments and cases for musical instruments, paper and cardboard, paper and cardboard for packaging and wrapping purposes, cardboard boxes, paper towels, toilet paper, paper napkins, plastic materials for packaging and wrapping purposes, printing blocks and types, bookbinding material, printed publications, printed matter, books, magazines, newspapers, bill books, printed dispatch notes, printed vouchers, calendars, posters, photographs [printed], paintings, stickers [stationery], postage stamps, stationery, office stationery, instructional and teaching material [except furniture and apparatus], writing and drawing implements, artists' materials, paper products for stationery purposes, adhesives for stationery purposes, pens, pencils, erasers, adhesive tapes for stationery purposes, cardboard cartons [artists' materials], writing paper, copying paper, paper rolls for cash registers, drawing materials, chalkboards, painting pencils, watercolors [paintings], office requisites, paint rollers and paintbrushes for painting, rubber, gutta-percha, gum, asbestos, mica and semi-finished synthetic goods made from these materials in the form of powder, bars, panels and foils, insulation, stopping and sealing materials: insulating paints, insulating fabrics, insulating tape and band, insulation covers for industrial machinery, joint sealant compounds for joints, gaskets, O-rings for sealing purposes (other than gaskets for motors, cylinders and washer for water taps), flexible pipes made from rubber and plastic, hoses made of plastic and rubber for vehicles, junctions for pipes of plastic and rubber, pipe jackets of plastic and rubber, hoses of textile material, junctions for pipes, not of metal, pipe jackets, not of metal, connecting hose for vehicle radiators, profile laths made of synthetic materials for

vehicles for the purposes of decoration, unworked or semi-worked leather and animal skins, imitations of leather, stout leather, leather used for linings, goods made of leather, imitations of leather or other materials, designed for carrying items, bags, wallets, boxes and trunks made of leather or stout leather, keycases, trunks [luggage], suitcases, umbrellas, parasols, sun umbrellas, walking sticks, whips, harness, saddlery, stirrups, straps of leather (saddlery), sand, gravel, crushed stone, asphalt, bitumen, cement, gypsum, plaster, concrete, marble blocks for construction, building materials (as finished products) made of concrete, gypsum, clay, potters' clay, stone, marble, wood, plastics and synthetic materials for building, construction, road construction purposes, non-metallic buildings, non-metallic building materials, poles, not of metal for power lines, barriers not of metal, natural and synthetic coverings in the form of panels and sheets, being building materials, bitumen cardboard for roofing, bitumen covering for roofing, doors and windows of wood and synthetic materials, traffic signs not of metal, non-luminous and non-mechanical, for roads, monuments and statuettes of stone, concrete and marble, building glass, prefabricated swimming pools not of metal (structures), aquarium sand, furniture, made of any kind of material, mattresses, pillows, air mattresses and cushions, not for medical purposes, water beds, mirrors, beehives, artificial honeycombs and sections of wood for honeycombs, bouncing chairs for babies, playpens for babies, cradles, infant walkers, display boards, frames for pictures and paintings, identity plates, identification bracelets, name plates, identification tags, made of wood or synthetic materials, packaging containers of wood or plastics, casks for use in transportation or storage, barrels, storage drums, tanks, boxes, storage containers, transportation containers, chests, loading pallets and closures for the aforementioned goods, of wood or plastics, small hardware goods of wood or synthetic materials, furniture fittings, of wood or synthetic materials, opening and closing mechanisms of wood or synthetic materials, ornaments and decorative goods of wood, cork, reed, cane, wicker, horn, bone, ivory, whalebone, shell, amber, mother-of-pearl, meerschaum, beeswax, plastic or plaster namely figurines, holiday ornaments for walls, sculptures, trophies, baskets, not of metal, fishing baskets, kennels, nesting boxes and beds for household pets, portable

ladders and mobile boarding stairs of wood or synthetic materials, bamboo curtains, roller indoor blinds [for interiors], slatted indoor blinds, vertical indoor blinds, bead curtains for decoration, curtain hooks, curtain rings, curtain tie-backs, curtain rods, non-metal wheel chocks, hand-operated non-electric cleaning instruments and appliances: brushes, except paintbrushes, steel chips for cleaning, sponges for cleaning, steel wool for cleaning, cloths of textile for cleaning, gloves for dishwashing, non-electric polishing machines for household purposes, brooms for carpets, mops, toothbrushes, electric toothbrushes, dental floss, shaving brushes, hair brushes, combs, non-electric household or kitchen utensils, [other than forks, knives, spoons], services [dishes], pots and pans, bottle openers, flower pots, drinking straws, non-electric cooking utensils, ironing boards and shaped covers therefor, drying racks for washing, clothes drying hangers, cages for household pets, indoor aquariums, vivariums and indoor terrariums for animals and plant cultivation, ornaments and decorative goods of glass, porcelain, earthenware or clay namely statues, figurines, vases and trophies, mouse traps, insect traps, electric devices for attracting and killing flies and insects, fly catchers, fly swatters, perfume burners, perfume sprayers, perfume vaporizers, electric or non-electric make-up removing appliances, powder puffs, toilet cases, nozzles for sprinkler hose, nozzles for watering cans, watering devices, garden watering cans, unworked or semi-worked glass, except building glass, mosaics of glass and powdered glass for decoration, except for building, glass wool other than for insulation or textile use, ropes, strings, rope ladders, hammocks, fishing nets, tents, awnings, tarpaulins, sails, vehicle covers, not fitted, bags of textile, for packaging, padding and stuffing materials, except of rubber and plastics, wool and cotton, synthetic fibers for textile use, raw spun fiber, glass fibers for textile use, yarns and threads for textile use, threads and yarns for sewing, embroidery and knitting, thread, elastic yarns and threads for textile use, woven or non-woven textile fabrics, textile goods for household use, curtains, bed covers, sheets (textile), pillowcases, blankets, quilts, towels, flags, pennants, labels of textile, swaddling blankets, sleeping bags for camping, clothing, underwear and outer clothing, other than special purpose protective clothing, socks, mufflers [clothing], shawls, bandanas, scarves, belts

[clothing], footwear, shoes, slippers, sandals, headgear, hats, caps with visors, berets, caps [headwear], skull caps, laces and embroidery, guipure lace, festoons, ribbons (haberdashery), ribbons and braid, reinforcing tapes for clothing, cords for clothing, letters and numerals for marking linen, embroidered emblems, badges for wear, not of precious metal, shoulder pads for clothing, buttons for clothing, fastenings for clothing, eyelets for clothing, zippers, buckles for shoes and belts, rivet buttons, adhesive tapes [haberdashery], fasteners, pins, other than jewellery, needles, sewing needles, needles for sewing machines, lacing needles, needles for knitting and embroidery, boxes for needles, needle cushions, artificial flowers, artificial fruits, hair pins, hair buckles, hair bands, decorative articles for the hair, not made of precious metal, wigs, hair extensions, electric or non-electric hair curlers, other than hand implements, carpets, rugs, mats, prayer rugs, linoleum, artificial turf, linoleum for covering floors, gymnasium mats, wallpaper, wall hangings not of textile, games and toys, arcade video game machines, game apparatus and machines for use with an external display screen and monitor, coin-operated, toys for animals, toys for outdoor playgrounds, parks and game parks, gymnastic and sporting articles, fishing tackle, artificial fishing bait, decoys for hunting and fishing, artificial Christmas trees, ornaments for Christmas trees, artificial snow for Christmas trees, rattles (playthings), novelties for parties, novelty toys for playing jokes and for parties, paper party hats, meat, fish, poultry and game, processed meat products, dried pulses, soups, bouillon, processed olives, olive paste, milks of animal origin, milks of herbal origin, milk products, butter, edible oils, dried, preserved, frozen, cooked, smoked or salted fruits and vegetables, tomato paste, prepared nuts and dried fruits as snacks, hazelnut spreads and peanut butter, tahini (sesame seed paste), eggs and powdered eggs, potato chips, coffee, cocoa, coffee or cocoa based beverages, chocolate based beverages, pasta, stuffed dumplings, noodles, pastries and bakery products based on flour, desserts based on flour and chocolate, bread, simit [Turkish ring-shaped bagel covered with sesame seeds], po?aç? [Turkish bagel], pita, sandwiches, katmer [Turkish pastry], pies, cakes, baklava [Turkish dessert based on dough coated with syrup], kaday?f [Turkish dessert based on dough], desserts based on dough coated with syrup, puddings, custard, kazandibi [Turkish pudding], rice pudding,

ke?kül [Turkish pudding], honey, bee glue for human consumption, propolis for food purposes, condiments for foodstuff, vanilla (flavoring), spices, sauces (condiments), tomato sauce, yeast, baking powder, flour, semolina, starch for food, sugar, cube sugar, powdered sugar, tea, iced tea, confectionery, chocolate, biscuits, crackers, wafers, chewing gums, ice-cream, edible ices, salt, cereal-based snack food, popcorn, crushed oats, corn chips, breakfast cereals, processed wheat for human consumption, crushed barley for human consumption, processed oats for human consumption, processed rye for human consumption, rice, molasses for food, agricultural and horticultural products, seeds, forestry products, live animals, fertilized eggs for hatching, plants, dried plants for decoration, fresh garden herbs, dried garden herbs for decoration, animal foodstuffs, malt not for human consumption, underlays for pets, cat litters, beers, preparations for making beer, mineral water, spring water, table water, soda water, fruit juices and vegetable juices [beverages], fruit and vegetable concentrates for making beverages and non-alcoholic fruit extracts for making beverages, soft drinks, energy drinks, protein-enriched sports beverages, alcoholic beverages (except beers), wines, raki [traditional Turkish alcoholic drink], whisky, liqueurs, alcoholic cocktails, tobacco, chewing tobacco, cigarettes, cigars, smokers' articles, made of precious metals: pipes, mouthpieces for cigars and cigarettes, ashtrays, tobacco boxes, pocket apparatus for rolling cigarettes, cigarette paper, tobacco pipes, firestones, lighters for smokers, electronic cigarettes and their cartridges, matches, enabling customers to conveniently view and purchase those goods, such services may be provided by retail stores, wholesale outlets, by means of electronic media or through mail order catalogues.~38 - Radio and television broadcasting services; telecommunication services; providing access to the Internet; news agencies.~41 - Education and training; arranging and conducting of conferences, congresses and seminars; sporting and cultural activities; entertainment; ticket reservation and booking services for entertainment, sporting and cultural events, including ticket reservation and booking services for theatres, cinemas, museums and concerts; publication and editing of printed matter, including magazines, books, newspapers, other than publicity texts; electronic publication services; production of movie films, radio and television

programmes; news reporters services; photographic reporting services; photography; translation.~42 - Scientific and industrial analysis and research services; engineering; engineering and architectural design services; testing services for the certification of quality and standards; computer services, namely, computer programming, computer virus protection services, computer system design, creating, maintaining and updating websites for others, computer software design, updating and rental of computer software, providing search engines for the internet, hosting websites, consultancy in the design and development of computer hardware, rental of computer hardware; industrial design services, other than engineering, computer and architectural design; graphic arts designing; authenticating works of art.~45 - Legal services, legal consultancy in the fields of intellectual and industrial property rights; security services for the physical protection of property and individuals; marriage agencies; funeral services; clothing rental; fire-fighting services; escorting in society (chaperoning); consultancy relating to workplace safety; social networking services.

apparatus and instruments; installation and maintenance services incorporating adaptation, integration and deployment of monitoring, measuring and testing instrumentation and sensors; construction, installation and renovation services namely piling, ground improvement, ground reinforcement, cement strengthening, grout reinforcement, maintenance and repair of foundations; stabilization, underpinning and strengthening of soil, earth and ground by cement and grout injection, by compaction and by insertion of reinforcing materials and piling; construction of buildings, public works, permanent and civil engineering structures, excavation of trenches or walls in the earth, injection of preparations into soil for their fortification or their waterproofing as well as for the laying of reinforcements or ties to fortify the earth; sealing of porous ground strata; tunnelling and ground drilling; tunneling and ground drilling for transportation systems, bridges, roadways, railroads, water, sewage and drains, electricity, gas, telecommunications, baggage handling tunnels, deep water drilling, ground stabilization and settlement control; repair, restoration, maintenance and underpinning of buildings, walls, bridges, tunnels, mines, airport runways, embankments, dams, docks, quays, jetties, piers, groynes and of moles; construction and maintenance of buildings for prevention, diminution and correction of building subsidence and settlement; construction and repair of houses, buildings, transportation systems, bridges, roadways, railroads, and dams, levies, seawalls, and tunnels; excavations, drilling pilots, wells, trenches, enclosures, or tunnels; installation of piling and retention systems; installation of pre-formed piles or piles cast in situ; digging trenches; ground improvement services for construction projects; constructing foundations for, and the maintenance of, wharves, jetties and other marine structures; ground vibro-compaction services; installation of vibro concrete columns; ground compaction services; soil mixing as part of construction services; ground stabilisation services; underpinning as part of construction services; installation of rock and soil anchors, nails and minipiles; provision of specialty grouting services, compaction grouting, jet grouting and fracture (compensation) grouting in the ground in new construction projects, repair and maintenance work, excavation support, and settlement control; ground modification services; civil engineering underground,

foundation work, in particular pile foundation, drilling and other special civil engineering underground works, including excavation and soil improving work; construction information; building supervision; building construction monitoring; building construction services incorporating monitoring, renovation and reconstruction of public infrastructure, namely mass transit systems, railways, highways, bridges, tunnels, ports, airports, dams, and levies; underwater construction; geo-environmental services as parts of construction services; installation of pipeline anchor systems and accessories; blasting operations; services involving building, repairing, maintaining and demolishing buildings and civil engineering structures; demolition; construction, maintenance and repair services for roads, tracks, runways, bridges, bridge abutments, stabilized land structures, earth stabilization structures by means of mechanical effect, earth stabilization devices, earthworks, retaining walls, dikes, tunnels, gutters, chambers, retention basins, reservoirs, silos and historical monuments, waste processing facilities; earthmoving; land clearing; dredging; repair and maintenance of aboveground storage tanks; land excavation relating to earth pollution removal; installation of utility and drainage systems; supervising in the field of construction; installing, maintenance and repairing of geotechnical and structural instrumentation, monitoring apparatus and instruments; rental of construction equipment; building project management as construction supervision; construction project management being construction supervision; construction, repair, maintenance and installation of infrastructures; engineering construction; civil engineering construction; electric appliance installation and repair; construction services, namely, building, public works and civil engineering construction services; repair, installation and maintenance of computers and computer network systems; repair, maintenance and installation of telecommunications systems; maintenance of plant and rough terrain mechanical handling equipment; installation of communications and data networks and systems, fire and safety systems, and security systems; rental of construction tools, machines and equipment; piling and civil construction services in the infrastructure and mining sectors; providing information in relation to the aforesaid services; leasing and rental of objects in connection with the provision of the

aforesaid services; consultancy, advisory and information services relating to all the aforesaid services.~38 - Communication by fiber optic networks and telecommunication access services; providing access to web sites on the Internet via computers, mobile phones and other electronic devices; electronic sending of data, messages and information and documentation via the Internet or other databases; providing access to computer, electronic and online databases; providing online communications links which transfer web site users to other local and global web pages; facilitating access to third party web sites via a universal login; providing online chat rooms and electronic bulletin boards; providing access to computer databases in the fields of business interaction; providing online forums for communication on topics of relating to building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; providing temporary internet access to use on-line non-downloadable software to enable users to program audio, video, text and other multimedia content; providing wireless telecommunications via electronic communications networks; wireless digital messaging, paging services, and electronic mail services, including services that enable a user to send and/or receive messages through a wireless data network; provision of connectivity services and access to electronic communications networks, for transmission or reception of audio, video or multimedia content; provision of telecommunications connections to electronic communication networks, for transmission or reception of audio, video or multimedia content; provision of access time to web-sites featuring multimedia materials; transmission of data by audio-visual apparatus controlled by data processing apparatus or computers; providing users with access time to electronic communications networks with means of identifying, locating, grouping, distributing, and managing data and links to third-party computer servers, computer processors and computer users; transmission of electronic media or information via computer and communication networks; all the aforesaid services provided in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling.~40 - Custom

manufacture of machines, plant and appliances for use in building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting, piling, injecting grout, compacting, grouting, mixing, underpinning, pumping and lifting; custom manufacture of stone and concrete components and structures; production of energy, energy generation; custom manufacture of scientific, monitoring, measuring, detecting, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, counting, alignment, calibrating, signalling, checking [supervision], life-saving, teaching apparatus and instruments; custom manufacture of geotechnical and structural apparatus and instrumentation; custom manufacture of indicators, controllers, sensors and sensor apparatus and instruments; custom manufacture of geodetic measurement systems; custom manufacture of monitoring, measuring and testing instrumentation; recycling services; processing and transforming of energy; processing and recycling of waste and trash; providing information in relation to the aforesaid services; leasing and rental of objects in connection with the provision of the aforesaid services; consultancy, advisory and information services relating to all the aforesaid services.~41

- Training and education in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; training and education in the fields of civil construction, computer sciences and the design, manufacture, and operation of monitoring, measuring and testing instrumentation and sensors; training and education in the fields of instrumentation and monitoring solutions for owners, infrastructure operators and engineers to enable them to identify and mitigate risk, optimize designs and methods, and document regulatory compliance in the field of ground engineering, foundation, retention and soil treatment solutions; organisation and management of training and education in the fields of building, construction, public and civil engineering work, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; organisation and management of training and education in the fields of the design, manufacture, and operation of monitoring, measuring and testing instrumentation and

sensors; safety training; arranging and conducting conferences, congresses, seminars, symposiums, and workshops in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; providing educational information related to news, education and training matters from searchable indexes and databases of information, including text, electronic documents, databases, graphics and audio visual information, on computer and communication networks in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling.~42 - Consultant engineer services; engineering, ground engineering, engineering design, engineering research, surveying, planning, monitoring, measuring and testing services in the fields of building, construction, public and civil engineering work, ground improvement and geotechnical work; geotechnical services, such as soil investigations; engineering project management services; engineering consultancy in the field of construction of buildings, public works, permanent and civil engineering structures, excavation of trenches or walls in the earth, injection of preparations into soil for their fortification or their waterproofing as well as for the laying of reinforcements or ties to fortify the earth; technological monitoring and inspection; technical monitoring, measuring and testing services; surveying the site for unexploded ordnance or unexploded bombs; blasting and explosives engineering services; consulting services in civil engineering and industrial engineering in the fields of stabilizing and sanitation of the ground; consulting in civil engineering and industrial engineering in the fields of sealing and protection against fire and rust; architecture and architectural consultancy services; advisory, consultancy or analytical services relating to material evaluation and testing; scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software for instrumentation and monitoring in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; provision of pre-design data evaluation, for consulting engineers; analysis of

technical data and related advice services, being in relation to drilling bore holes for soil investigations and providing soil data for consulting engineers; civil engineering design services; conducting feasibility studies; industrial research services and consultancy related thereto, all relating to science, technology, engineering, manufacturing, monitoring, measuring and testing; industrial design services and research and consultancy related thereto, all relating to instrumentation and monitoring in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; design of piling and retention systems; design of pre-formed piles or piles cast in situ; design of rock and soil anchors, nails and minipiles; design of prestressed, post-tensioned concrete material; design of pipeline anchor systems and accessories; design of engineered helical (or "screw") piles and pipeline anchor systems to control pipeline buoyancy and prevent floating of pipelines in extremely wet areas; design of piling solutions and ground improvement solutions and foundation systems; design of post-tension cable systems to the construction industry; structures design services; technological monitoring and inspection services in the fields of building, construction, public and civil engineering work and geotechnical work; technological inspection services for large tanks in the petroleum and petrochemical industries to ensure compliance with applicable codes and standards; conducting technical tests and checks and technical measurements; preparation of technical surveys, especially geological surveys, as well as of scientific surveys; construction drafting; subsoil testing, in particular pressure sounding; structural health monitoring using fiber optic sensing; providing temporary use of non-downloadable web-based monitoring software to provide a full site overview in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; building information modelling services to support digitisation of ground engineering; website security services, computer support services, computer programming, software development and design services, repair, installation and maintenance of computer software, technical support services, namely troubleshooting in the nature of diagnosing computer hardware and software

problems all relating to instrumentation and monitoring in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; application service provider (ASP) featuring software to enable or facilitate the uploading, downloading, streaming, posting, displaying, blogging, linking, sharing or otherwise providing electronic media or information over communication networks in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; development of software modules to process input from sensing devices and for real-time control of compensation grouting, ground freezing, and tunnel boring machines; storage and archiving of data on, in or out of computer databases in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; consultancy in the field of energy efficiency and sustainability; technical data analysis; technical data analysis relating to trends, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; land surveying; material testing; mechanical engineering and electrical engineering; software development and maintenance of construction and construction-related processes; back office operations, namely IT support services, for the construction industry; computer consultancy services for the construction industry; technical research, namely analysis services and expert appraisals in the field of building, construction, public and civil engineering work, ground improvement and geotechnical work; technical research, namely carrying out expert appraisals, reports, studies, analyses and development of concepts and preliminary engineering drafts in the field of security, environment, energy, building, construction, public and civil engineering work, ground engineering and improvement and geotechnical work; deformation monitoring services to assess risk, control for potential damage and evaluate remediation measures; monitoring settlement services to provide early detection, to identify rates of change and risk and to help to control corrective actions; structural monitoring services to provide data for evaluating changes in

the performance of a structure; structural monitoring services, namely documentation and control for effects from nearby construction, such as vibration or changes in ground support, that might degrade the performance of the structure; monitoring vibration, dust and/or noise from construction activities; construction control and testing services; rental of monitoring, measuring and testing instrumentation and sensors; environmental engineering; mechanical and electrical engineering; preparation of engineering reports in relation to the aforesaid services; leasing and rental of objects in connection with the provision of the aforesaid services.~45 - Security services; security services for the protection of property and individuals; night guards; security for construction sites; alarm monitoring services; provision of alarms to authorized users via project websites, email, and messaging; legal services; legal and regulatory advisory services; legal assistance; occupational safety services; safety auditing to improve the safety of workers within the excavation and for the safety and stability of adjacent structures; preparation of legal reports in relation to the aforesaid services; leasing and rental of objects in connection with the provision of the aforesaid services; consultancy, advisory and information services relating to all the aforesaid services.

7 - Machines and machine tools for use in building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting, piling, injecting grout, compacting, grouting, mixing, underpinning, pumping and lifting; ground improvement machines and equipment; machines and machine tools for use in the improvement of the engineering properties of the ground; lifting platforms; drilling machines; excavators; machines for use in digging trenches or building walls; machines for injecting product into the ground; machines and machine tools for use in the construction of piles; pile drivers and compacting machines; depth vibrators; machines for mixing grout; tunnel grouting machines; machines and machine tools for use in mixing and pumping of bentonite and polymers used as lubricants for microtunnel and pipejack construction; pumps; water pumps, air pumps and grout pumps; machines and machine tools for use in the grouting, construction of slurry and diaphragm walls; machines and machine tools for use in the formation of ground anchorages; machines and equipment for the compaction and stabilisation of soil; vibro-compaction machines and equipment; vibrators [machines] for industrial use; machines and equipment for soil mixing and injection; drilling rods; parts of drilling machines; rotary percussive machines and equipment; drilling rigs, floating or non-floating; grout pumps; high pressure ram and piston pumps;

agitation tanks as parts of machines; floating plant including floating cranes, piling rigs and barges; cranes; pumping equipment; parts and fittings for the aforesaid goods.~9 - Scientific, monitoring, measuring, detecting, sensing, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, counting, alignment, calibrating, signalling, checking [supervision], life-saving, apparatus and instruments; geotechnical and structural monitoring and measuring apparatus and instruments; electronic indicators, controllers, sensors and sensor apparatus and instruments; geodetic measurement systems; data acquisition instruments for use in building and construction industry; instrumentation for excavation support monitoring namely strain gauges and load cells to monitor struts and braces, automated total stations, inclinometers, and shape arrays to monitor deformation of the excavation walls and settlement monitoring for adjacent buildings; instrumentation for deformation monitoring, namely automated total stations, inclinometers, extensometers, piezometers, tiltmeters, and crackmeters; instrumentation for monitoring settlement, namely rod extensometers, inclinometers, and shape arrays to monitor subsurface movements, and automated total stations, beam sensors, hydrostatic level cells, tiltmeters, and crackmeters to monitor movements above grade; structural instruments, namely crackmeters and jointmeters, tiltmeters and beam sensors, hydrostatic level cells, strain gauges and load cells, laser extensometers and laser scanners, fiberoptic strain and temperature sensors, AMTS automated total stations and prisms, automated vibration monitors, project site webcams; geotechnical instruments, namely shape arrays and inclinometers, piezometers and pressure cells, MPBX rod extensometers and anchors; test and construction control instruments, namely thermistor strings for ground freezing, sensors for controlling compensation grouting, sensors for drilling alignment and borehole deviation; construction control and testing instrumentation for monitoring and measuring surface effects as well as grouting parameters; equipment for measuring tensile stress applied by a prestressed bar; equipment for measuring the strain of prestressed or reinforced concrete, and for measuring the strain of steel wires, cables and strands or the like in motion or not; vibration, noise and dust monitoring systems; monitoring systems for retaining walls, large slab

movements, sewer deformation and tunnel deformation and track twist and cant calculations; drilling inclination monitoring systems; measuring instruments, namely autonomous driller-operated drill rig alignment systems; apparatus and instruments for structural health monitoring using fiber optic sensing; web based monitoring software program to provide a full site overview for use in building and construction industry; application programming interface and accompanying software that enables the monitoring, processing, displaying, storing and transmitting of construction data and information for use in building and construction industry; measurement systems capable of displaying the surface settlement in real time, as well as writing and reviewing grouting instructions to purpose built grouting pump containers, grout control monitors, grouting data (borehole position, grouting phases, initial grout pressure, final grout pressure, grout volume per step and cumulated, etc.) in real time with the site monitoring data; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; data processing apparatus, computers, computer software, computer software system for testing, monitoring and testing electronically recorded data, electronic apparatus for the provision and display of data, information monitoring and testing apparatus, electronic information gathering apparatus, data gathering apparatus, data acquisition goods, namely data loggers, controllers, interfaces, specialized enclosures, solar panels and batteries, all being goods for use in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling.~35 - Data collection, data management, commercial and business data analysis, data processing, electronic processing of data using computer software, automated data processing, computerised data verification, data transcription, database management, data retrieval services, compilation of data, data inputting services all being services in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; business management relating to civil engineering services; business management of construction projects; business management services, management consultancy services, business support

services, assistance to business, personnel management, outsourcing services, recruitment of computer staff, procurement services, supplies management services, stock management services, contract negotiation and management services, transaction processing services, being office functions; accounting services in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; business management of construction projects; business auditing relating to property and property management; supply chain management services; business management relating to transport; business management relating to rail transport; business management relating to transport logistics; business management relating to transport fleets; business management relating to vehicle fleets; business management relating to highway networks; business management relating to footway operations; business management relating to traffic sign operations; business management relating to road furniture operations; business management relating to transport networks; business management relating to transport network operations; business management provided in relation to facilities management services, the management of energy and utilities, health and safety, receptions, switchboards, building maintenance, security, cleaning, vending, landscaping, waste, pest control, mail systems and portering; business management in the field of built environments; business management services relating to the maintenance and provision of rough terrain and mechanical handling equipment; business management services for the collection, treatment and recycling of waste; business project management services; preparing business feasibility studies and reports in relation to the aforesaid services; leasing and rental of objects in connection with the provision of the aforesaid services.~37 - Construction services relating to civil engineering, namely for building, public works, and geotechnical projects; installation of scientific, monitoring, measuring, detecting, sensing, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, counting, alignment, calibrating, signalling, checking [supervision], life-saving, teaching apparatus and instruments, geotechnical and structural apparatus and instrumentation, indicators, controllers, sensors and sensor

apparatus and instruments; installation and maintenance services incorporating adaptation, integration and deployment of monitoring, measuring and testing instrumentation and sensors; construction, installation and renovation services namely piling, ground improvement, ground reinforcement, cement strengthening, grout reinforcement, maintenance and repair of foundations; stabilization, underpinning and strengthening of soil, earth and ground by cement and grout injection, by compaction and by insertion of reinforcing materials and piling; construction of buildings, public works, permanent and civil engineering structures, excavation of trenches or walls in the earth, injection of preparations into soil for their fortification or their waterproofing as well as for the laying of reinforcements or ties to fortify the earth; sealing of porous ground strata; tunnelling and ground drilling; tunneling and ground drilling for transportation systems, bridges, roadways, railroads, water, sewage and drains, electricity, gas, telecommunications, baggage handling tunnels, deep water drilling, ground stabilization and settlement control; repair, restoration, maintenance and underpinning of buildings, walls, bridges, tunnels, mines, airport runways, embankments, dams, docks, quays, jetties, piers, groynes and of moles; construction and maintenance of buildings for prevention, diminution and correction of building subsidence and settlement; construction and repair of houses, buildings, transportation systems, bridges, roadways, railroads, and dams, levies, seawalls, and tunnels; excavations, drilling pilots, wells, trenches, enclosures, or tunnels; installation of piling and retention systems; installation of pre-formed piles or piles cast in situ; digging trenches; ground improvement services for construction projects; constructing foundations for, and the maintenance of, wharves, jetties and other marine structures; ground vibro-compaction services; installation of vibro concrete columns; ground compaction services; soil mixing as part of construction services; ground stabilisation services; underpinning as part of construction services; installation of rock and soil anchors, nails and minipiles; provision of specialty grouting services, compaction grouting, jet grouting and fracture (compensation) grouting in the ground in new construction projects, repair and maintenance work, excavation support, and settlement control; ground modification services; civil engineering underground,

foundation work, in particular pile foundation, drilling and other special civil engineering underground works, including excavation and soil improving work; construction information; building supervision; building construction monitoring; building construction services incorporating monitoring, renovation and reconstruction of public infrastructure, namely mass transit systems, railways, highways, bridges, tunnels, ports, airports, dams, and levies; underwater construction; geo-environmental services as parts of construction services; installation of pipeline anchor systems and accessories; blasting operations; services involving building, repairing, maintaining and demolishing buildings and civil engineering structures; demolition; construction, maintenance and repair services for roads, tracks, runways, bridges, bridge abutments, stabilized land structures, earth stabilization structures by means of mechanical effect, earth stabilization devices, earthworks, retaining walls, dikes, tunnels, gutters, chambers, retention basins, reservoirs, silos and historical monuments, waste processing facilities; earthmoving; land clearing; dredging; repair and maintenance of aboveground storage tanks; land excavation relating to earth pollution removal; installation of utility and drainage systems; supervising in the field of construction; installing, maintenance and repairing of geotechnical and structural instrumentation, monitoring apparatus and instruments; rental of construction equipment; building project management as construction supervision; construction project management being construction supervision; construction, repair, maintenance and installation of infrastructures; engineering construction; civil engineering construction; electric appliance installation and repair; construction services, namely, building, public works and civil engineering construction services; repair, installation and maintenance of computers and computer network systems; repair, maintenance and installation of telecommunications systems; maintenance of plant and rough terrain mechanical handling equipment; installation of communications and data networks and systems, fire and safety systems, and security systems; rental of construction tools, machines and equipment; piling and civil construction services in the infrastructure and mining sectors; providing information in relation to the aforesaid services; leasing and rental of objects in connection with the provision of the

aforesaid services; consultancy, advisory and information services relating to all the aforesaid services.~38 - Communication by fiber optic networks and telecommunication access services; providing access to web sites on the Internet via computers, mobile phones and other electronic devices; electronic sending of data, messages and information and documentation via the Internet or other databases; providing access to computer, electronic and online databases; providing online communications links which transfer web site users to other local and global web pages; facilitating access to third party web sites via a universal login; providing online chat rooms and electronic bulletin boards; providing access to computer databases in the fields of business interaction; providing online forums for communication on topics of relating to building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; providing temporary internet access to use on-line non-downloadable software to enable users to program audio, video, text and other multimedia content; providing wireless telecommunications via electronic communications networks; wireless digital messaging, paging services, and electronic mail services, including services that enable a user to send and/or receive messages through a wireless data network; provision of connectivity services and access to electronic communications networks, for transmission or reception of audio, video or multimedia content; provision of telecommunications connections to electronic communication networks, for transmission or reception of audio, video or multimedia content; provision of access time to web-sites featuring multimedia materials; transmission of data by audio-visual apparatus controlled by data processing apparatus or computers; providing users with access time to electronic communications networks with means of identifying, locating, grouping, distributing, and managing data and links to third-party computer servers, computer processors and computer users; transmission of electronic media or information via computer and communication networks; all the aforesaid services provided in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling.~40 - Custom

manufacture of machines, plant and appliances for use in building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting, piling, injecting grout, compacting, grouting, mixing, underpinning, pumping and lifting; custom manufacture of stone and concrete components and structures; production of energy, energy generation; custom manufacture of scientific, monitoring, measuring, detecting, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, counting, alignment, calibrating, signalling, checking [supervision], life-saving, teaching apparatus and instruments; custom manufacture of geotechnical and structural apparatus and instrumentation; custom manufacture of indicators, controllers, sensors and sensor apparatus and instruments; custom manufacture of geodetic measurement systems; custom manufacture of monitoring, measuring and testing instrumentation; recycling services; processing and transforming of energy; processing and recycling of waste and trash; providing information in relation to the aforesaid services; leasing and rental of objects in connection with the provision of the aforesaid services; consultancy, advisory and information services relating to all the aforesaid services.~41

- Training and education in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; training and education in the fields of civil construction, computer sciences and the design, manufacture, and operation of monitoring, measuring and testing instrumentation and sensors; training and education in the fields of instrumentation and monitoring solutions for owners, infrastructure operators and engineers to enable them to identify and mitigate risk, optimize designs and methods, and document regulatory compliance in the field of ground engineering, foundation, retention and soil treatment solutions; organisation and management of training and education in the fields of building, construction, public and civil engineering work, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; organisation and management of training and education in the fields of the design, manufacture, and operation of monitoring, measuring and testing instrumentation and

sensors; safety training; arranging and conducting conferences, congresses, seminars, symposiums, and workshops in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; providing educational information related to news, education and training matters from searchable indexes and databases of information, including text, electronic documents, databases, graphics and audio visual information, on computer and communication networks in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling.~42 - Consultant engineer services; engineering, ground engineering, engineering design, engineering research, surveying, planning, monitoring, measuring and testing services in the fields of building, construction, public and civil engineering work, ground improvement and geotechnical work; geotechnical services, such as soil investigations; engineering project management services; engineering consultancy in the field of construction of buildings, public works, permanent and civil engineering structures, excavation of trenches or walls in the earth, injection of preparations into soil for their fortification or their waterproofing as well as for the laying of reinforcements or ties to fortify the earth; technological monitoring and inspection; technical monitoring, measuring and testing services; surveying the site for unexploded ordnance or unexploded bombs; blasting and explosives engineering services; consulting services in civil engineering and industrial engineering in the fields of stabilizing and sanitation of the ground; consulting in civil engineering and industrial engineering in the fields of sealing and protection against fire and rust; architecture and architectural consultancy services; advisory, consultancy or analytical services relating to material evaluation and testing; scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software for instrumentation and monitoring in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; provision of pre-design data evaluation, for consulting engineers; analysis of

technical data and related advice services, being in relation to drilling bore holes for soil investigations and providing soil data for consulting engineers; civil engineering design services; conducting feasibility studies; industrial research services and consultancy related thereto, all relating to science, technology, engineering, manufacturing, monitoring, measuring and testing; industrial design services and research and consultancy related thereto, all relating to instrumentation and monitoring in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; design of piling and retention systems; design of pre-formed piles or piles cast in situ; design of rock and soil anchors, nails and minipiles; design of prestressed, post-tensioned concrete material; design of pipeline anchor systems and accessories; design of engineered helical (or "screw") piles and pipeline anchor systems to control pipeline buoyancy and prevent floating of pipelines in extremely wet areas; design of piling solutions and ground improvement solutions and foundation systems; design of post-tension cable systems to the construction industry; structures design services; technological monitoring and inspection services in the fields of building, construction, public and civil engineering work and geotechnical work; technological inspection services for large tanks in the petroleum and petrochemical industries to ensure compliance with applicable codes and standards; conducting technical tests and checks and technical measurements; preparation of technical surveys, especially geological surveys, as well as of scientific surveys; construction drafting; subsoil testing, in particular pressure sounding; structural health monitoring using fiber optic sensing; providing temporary use of non-downloadable web-based monitoring software to provide a full site overview in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; building information modelling services to support digitisation of ground engineering; website security services, computer support services, computer programming, software development and design services, repair, installation and maintenance of computer software, technical support services, namely troubleshooting in the nature of diagnosing computer hardware and software

problems all relating to instrumentation and monitoring in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; application service provider (ASP) featuring software to enable or facilitate the uploading, downloading, streaming, posting, displaying, blogging, linking, sharing or otherwise providing electronic media or information over communication networks in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; development of software modules to process input from sensing devices and for real-time control of compensation grouting, ground freezing, and tunnel boring machines; storage and archiving of data on, in or out of computer databases in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; consultancy in the field of energy efficiency and sustainability; technical data analysis; technical data analysis relating to trends, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; land surveying; material testing; mechanical engineering and electrical engineering; software development and maintenance of construction and construction-related processes; back office operations, namely IT support services, for the construction industry; computer consultancy services for the construction industry; technical research, namely analysis services and expert appraisals in the field of building, construction, public and civil engineering work, ground improvement and geotechnical work; technical research, namely carrying out expert appraisals, reports, studies, analyses and development of concepts and preliminary engineering drafts in the field of security, environment, energy, building, construction, public and civil engineering work, ground engineering and improvement and geotechnical work; deformation monitoring services to assess risk, control for potential damage and evaluate remediation measures; monitoring settlement services to provide early detection, to identify rates of change and risk and to help to control corrective actions; structural monitoring services to provide data for evaluating changes in

the performance of a structure; structural monitoring services, namely documentation and control for effects from nearby construction, such as vibration or changes in ground support, that might degrade the performance of the structure; monitoring vibration, dust and/or noise from construction activities; construction control and testing services; rental of monitoring, measuring and testing instrumentation and sensors; environmental engineering; mechanical and electrical engineering; preparation of engineering reports in relation to the aforesaid services; leasing and rental of objects in connection with the provision of the aforesaid services.~45 - Security services; security services for the protection of property and individuals; night guards; security for construction sites; alarm monitoring services; provision of alarms to authorized users via project websites, email, and messaging; legal services; legal and regulatory advisory services; legal assistance; occupational safety services; safety auditing to improve the safety of workers within the excavation and for the safety and stability of adjacent structures; preparation of legal reports in relation to the aforesaid services; leasing and rental of objects in connection with the provision of the aforesaid services; consultancy, advisory and information services relating to all the aforesaid services.
